COMPLAINT FOR PATENT INFRINGEMENT

1. Plaintiff Digitude Innovations LLC. (“Digitude” or “Plaintiff”), by and through its attorneys, hereby demands a jury trial and complains of Defendants Research in Motion Ltd. and Research in Motion Corp. (“Defendants”) as follows:

NATURE OF THE ACTION

2. This is an action for patent infringement arising under the patent laws of the United States, 35 U.S.C. §§ 271, *et seq.*, to enjoin infringement and obtain damages resulting from Defendants’ unauthorized manufacture, use, sale, offer to sell and/or importation into the United States for subsequent use or sale of products, methods, processes, services and/or systems that infringe one or more claims of United States Patent No. 5,926,636 (the “’636 Patent”) (attached as Exhibit A) entitled “Remote Procedure Call Component Management Method for a Heterogeneous Computer Network,” United States Patent No. 5,929,655 (the “’655 Patent”) (attached as Exhibit B) entitled “Dual-Purpose I/O Circuit in a Combined LINK/PHY Integrated Circuit,” United States Patent No. 6,208,879 (the “’879 Patent”) (attached as Exhibit C) entitled “Mobile Information Terminal Equipment

and Portable Electronic Apparatus,” and United States Patent No. 6,456,841 (the “’841 Patent”) (attached as Exhibit D) entitled “Mobile Communication Apparatus Notifying User of Reproduction Waiting Information Effectively.” Plaintiff seeks injunctive relief to prevent Defendants from continuing to infringe Plaintiff’s patents. In addition, Plaintiff seeks a recovery of monetary damages resulting from Defendants’ past infringement of these patents.

3. This action for patent infringement involves Defendants’ manufacture, use, sale, offer for sale, and/or importation into the United States of infringing products, methods, processes, services and systems that are primarily used or primarily adapted for use in portable communication devices, including but not limited to Defendants’ mobile phones, telecommunication devices, and other portable communication devices.

THE PARTIES

4. Plaintiff Digtude is a company with its principal place of business at 601 King St., Suite #404, Alexandria, Virginia, 22314-3169.

5. Plaintiff Digtude is the lawful assignee of all right, title and interest in and to the ‘636, ‘655, ‘879, and ‘841 Patents (collectively, the “Asserted Patents”).

6. Plaintiff Digtude is a privately held company. Digtude focuses its business on licensing patented technology in the consumer electronics and communications industry, including the ‘636 Patent, the ‘655 Patent, the ‘879 Patent, and the ‘841 Patent.

7. Upon information and belief, Defendant Research in Motion Ltd. is a foreign company organized and existing under the laws of Canada, with its principal place of business at 295 Phillip Street, Waterloo, Ontario, Canada, N2L 3WB.

8. Upon information and belief, Research in Motion Ltd. makes, sells, and/or offers for sale within the United States portable communication devices. Such devices

include, but are not limited to, cell phones and computer tablets.

9. Upon information and belief, Research in Motion Ltd. is the parent corporation of Defendant Research in Motion Corp., which operates the domestic operations of Research in Motion Ltd.

10. Upon information and belief, Defendant Research in Motion Corp. is a domestic corporation organized and existing under the laws of the state of Delaware with its principal place of business located at 122 W. John Carpenter Parkway, Suite 430, Irving, Texas 75039.

11. Upon information and belief, Research in Motion Corp. is a wholly owned subsidiary of Research in Motion Ltd., and is the managing entity of the United States operations of Research in Motion Ltd.

12. Plaintiff has been irreparably harmed by the Defendants' infringements of its valuable patent rights. Moreover, Defendants' unauthorized and infringing uses of Plaintiff's patented systems and methods have threatened the value of this intellectual property because Defendants' conduct results in Plaintiff's loss of its lawful patent rights to exclude others from making, using, selling, offering to sell and/or importing the patented inventions.

13. Defendants' disregard for Plaintiff's property rights threatens Plaintiff's relationships with existing licensees and potential licensees of Plaintiff's portable communication device patents. The Defendants will derive a competitive advantage over any of Plaintiff's existing licensees and future licensees from using Plaintiff's patented technology without paying compensation for such use. Accordingly, unless and until the Defendants' continued acts of infringement are enjoined, Plaintiff will suffer further

irreparable harm for which there is no adequate remedy at law.
