An Icon Remastered

The world's most famous headphone has been completely redesigned and reimagined. The new Beats Studio® is lighter, sexier, stronger, and more comfortable, with precision sound, Adaptive Noise Canceling, a 20-hour rechargeable battery, and RemoteTalk™. It has all the energy and excitement you expect from Beats, plus a powerful, reengineered sound.

FEATURES

FEEL YOUR MUSIC

The Beats Acoustic Engine™ makes your listening experience intimate, personal, and real. Our signature DSP software is designed to generate the emotional experience that Dr. Dre, Jimmy Iovine, and some of the music industry's greatest rock, hip-hop, pop, electronic, and R&B producers want you to feel. This is how music would sound if the artist could play it back for you in person.

PUT THE WORLD ON MUTE

Silence the noise from your daily commute or the drama from your loud neighbors with our no-compromise dual-mode Adaptive Noise Canceling. When you're listening to music, ANC automatically strikes a balance between your music and the world outside. If you only want to use the headphone to cancel external noise, ANC only mode automatically increases the level of noise cancellation, for a quieter world.

WHAT BATTERIES?

Dead batteries can kill your vibe in a flash. The New Beats Studio fixes this with a 20-hour rechargeable battery. To prevent wasting energy, the Auto On/Off feature turns off the headphone when you unplug, and with the visible Battery Fuel Gauge, you always know how much juice is available. Forget specialized adapters; the New Studio can be charged via micro USB almost anywhere.

LIGHTER, STRONGER, AND MORE COMFORTABLE

When we reimagined our legendary headphone, we designed it like a beautiful sports car and made disciplined choices. We streamlined the New Beats Studio with fast curves, smooth surfaces, and no visible screws. We shaved 13 percent off the original weight and gave it a lighter, stronger, and more comfortable headband. We created softer ear cups and an ergonomic bellow to create a flexible, custom fit for every head shape, so you can keep your music all to yourself.
