Subject: Hosting Company (Rack Space)

Jonathan,

I was contacted today from account receivable from Rack Space our hosting company, to inform me that they are going to shut down our servers, due to our bill not getting paid. The person that contacted me from Rack Space was Chuck Garcia his contact number is 210-312-3271. Do you have any solutions on what we should do, so that our servers don't get shut down? Please advise...

Thanks,
