Defendants.

Civil Case No. 1:20-cv-02405-EGS

DECLARATION OF SEBASTIAN IMMONEN

I, Sebastian Immonen, declare as follows:

1. I am a registered voter of Pennsylvania and have been registered since I turned 18. The matters set forth herein are true and correct of my own personal knowledge. If called as a witness, I could and would testify competently thereto.

2. I am currently an undergraduate student living in Rhode Island. My college has started classes but has not yet opened the campus to the entire student body due to concerns with COVID-19. The college opted to do a gradual opening and is letting students arrive on campus in small groups.

3. I have not requested by absentee ballot yet, but I understand I have until October 27 to submit my application. I am waiting to request my ballot until I have certainty about whether I will be able to remain on campus in Rhode Island. The college may close if cases of COVID-19 spike, which is a possibility as more and more students arrive gradually on campus. For example, this recently occurred at UNC and the college had to close. I am worried it may happen here too, so I don't want to request my ballot until I have certainty about where I will be living.

4. I intend to vote by mail in the November 2020 general election and I intend to vote close to election day because I do not know whether I will be in Rhode Island or Pennsylvania at the end of October. Because I won't be able to request my ballot until I have certainty about where I will be living, this may also delay my ability to return a completed ballot earlier.

5. I voted by mail in this year's primaries. I did not finalize my decision about who I was voting for until close to election day, and then I became worried that my ballot was not going to arrive in time to be counted. Then, the governor issued an emergency executive order extending the deadline for receipt of mail-in ballots by a week due to the large surge in numbers

of people voting by mail. If the governor had not extended the deadline, there is a possibility my ballot would not have been counted since I mailed it so close to the deadline.

6. If my college closes and I have to return to Pennsylvania, I still intend to vote by mail because I am afraid of putting my family members at risk of getting sick if I were to vote in person. I live with my mother, sister, and brother, but my grandmother visits us often since we are helping to care for her and my grandfather who is in the hospital. I understand the lines at polling places may be long and I may have to be close to people, including people who may refuse to wear masks. I am concerned that I would put my family's health at risk if I were to vote in person.

7. In Pennsylvania, a completed ballot must be received by Election Day in order to be counted. I fear that the delays caused by USPS will cause my ballot to not arrive on time and therefore not be counted.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 5, 2020, in Providence, Rhode Island.

Sebastian Immonen
