SUPPLEMENTARY INFORMATION:

In Executive Order 13873 of May 15, 2019 (Securing the Information and Communications Technology and Services Supply Chain), the President found that foreign adversaries are increasingly creating and exploiting vulnerabilities in information and communications technology and services (ICTS), which store and communicate vast amounts of sensitive information, facilitate the digital economy, and support critical infrastructure and vital emergency services, in order to commit malicious cyber-enabled actions, including economic and industrial espionage against the United States and its people. The President further found that the unrestricted acquisition or use in the United States of ICTS designed, developed, manufactured, or supplied by persons owned by, controlled by, or subject to the jurisdiction or direction of foreign adversaries augments the ability of foreign adversaries to create and exploit vulnerabilities in ICTS, with potentially catastrophic effects, and thereby constitutes an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States, and declared a national emergency with respect to this threat. The President directed that

additional steps are required to protect the security, integrity, and reliability of ICTS provided and used in the United States.

On August 6, 2020, in Executive Order 13942 (Addressing the Threat Posed by TikTok, and Taking Additional Steps To Address the National Emergency With Respect to the Information and Communications Technology and Services Supply Chain), the President further found that the spread in the United States of mobile applications developed and owned by companies in the People's Republic of China (China) continues to threaten the national security, foreign policy, and economy of the United States. The President directed that action must be taken to address the threat posed by the mobile application TikTok.

Pursuant to Executive Order 13942, any transaction by any person, or with respect to any property, subject to the jurisdiction of the United States, with ByteDance Ltd. (a.k.a. Zijié Tiàodòng), Beijing, China, or its subsidiaries, including TikTok Inc., in which any such company has any interest, as identified by the Secretary of Commerce (Secretary) within 45 days from the date of Executive Order 13942, shall be prohibited to the extent permitted under applicable law. This Identification of Prohibited Transactions implements that directive by the President.
