**Re: Lattner v. West Orange Health Care District, d/b/a Health Central**  
Our File No.: 38.1881

Dear Andrea:

In response to prior correspondence on different issues, please be advised of the following:

My client believes that the triage nurse on duty at the time Mr. Lattner presented was Peter Mentz, R.N. Please understand that, at this point in time, I do not have confirmation from Mr. Mentz that he was Mr. Lattner's triage nurse. His last known address is 977 Englishtown Lane, Winter Springs, Florida 32708. He is no longer an employee of Health Central. If you want to depose him and stay within the previously allotted number, you are free to do so. If you want to move for allowance of another deposition, then please do so.

Additionally, my client is unable to locate a patient log for the emergency department at the time of Mr. Lattner's admission. Consequently, there is no way to identify all the ED patients at the time in order to produce their records, even if we were to reconsider our objections. Enclosed is a letter from William F. Maus, the hospital's Director of Health Information. I can have an affidavit prepared if you think that's necessary.

Finally, in addition to the former ER Director and Assistant ER Director identified in my April 4, 2006 correspondence, please be advised that charge nurses in the ED on April 23, 2002 were:
