Standard Unsafe Building Abatement Code© 1985

1176 ABELE #1

PREFACE

This code was developed to provide a jurisdiction with a concise set of procedures to effect the elimination of unsafe buildings in a legal and timely manner. The authority having jurisdiction should carefully examine this code to determine compliance with existing local or state laws; any conflicts must be eliminated prior to adoption.

This code is applicable to all occupancies, but is not meant to be substituted for the Standard Housing Code.

This code is designed to work hand in hand with the Standard Building, Plumbing, Mechanical, Gas, Housing and Fire Prevention Codes.

CHAPTER 1 ADMINISTRATION

101 TITLE AND SCOPE

101.1 Title

The provisions included within the following chapters and sections shall constitute and be known and may be cited as "The Standard Unsafe Building Abatement Code," hereinafter referred to as "this code."

101.2 Code Remedial

This code is hereby declared to be remedial and shall be construed to secure the beneficial interests and purposes thereof—which are public safety, health and general welfare—through structural strength, stability, sanitation, adequate light and ventilation, and safety to life and property from fire and other hazards incident to the construction, alteration, repair, demolition, use and occupancy of buildings, structures or premises.

101.3 Scope

The provisions of this code shall apply to all unsafe buildings or structures, as herein defined, and shall apply equally to new and existing conditions

101.4 Alterations, Repairs or Rehabilitation Work

101.4.1 Alterations, repairs or rehabilitation work may be made to any existing building without requiring the building to comply with all the requirements of the Standard Building Code provided that the alteration, repair or rehabilitation work conforms to the requirements of the Standard Building Code for new construction. The building official shall determine, subject to appeal to the Board of Adjustments and Appeals the extent, if any, to which the existing building shall be made to conform to the requirements of the Standard Building Code for new construction.

101.4.2 Alterations, repairs or rehabilitation work shall not cause an existing building to become unsafe as defined in Section 202.

101.4.3 If the occupancy classification of an existing building is changed, the building shall be made to conform to the intent of the Standard Building Code for the new occupancy classification as established by the building official

101.4.4 Repairs and alterations, not covered by the preceding paragraphs of this section, restoring a building to its condition previous to damage or deterioration, or altering it in conformity with the provisions of this code or

in such manner as will not extend or increase an existing nonconformity or hazard, may be made with the same kind of materials as those of which the building is constructed; but not more than 25% of the roof covering of a building shall be replaced in any period of 12 months unless the entire roof covering is made to conform with the requirements of the Standard Building Code for new buildings.

101.5 Special Historic Buildings and Districts

The provisions of this code relating to the construction alteration, repair, enlargement, restoration, relocation or moving buildings or structures shall not be mandatory for existing buildings or structures identified and classified by the state or local jurisdiction as historic buildings when such building or structures are judged by the building official to be safe and in the public interest of health, safety and welfare regarding any proposed construction, alteration, repair, enlargement, restoration, relocation or moving of buildings within fire districts. The applicant must submit complete architectural and engineering plans and specifications bearing the seal of a registered professional engineer or architect.

101.6 Maintenance

All buildings or structures, both existing and new, and all parts thereof, shall be maintained in a safe and sanitary condition. All devices or safeguards which are required by the Standard Building Code in a building when erected, altered or repaired, shall be maintained in good working order. The owner, or his designated agent, shall be responsible for the maintenance of buildings and structures.

102 ORGANIZATION

102.1 Enforcement Officer

The provisions of this code shall be enforced by the building official.

102.2 Restrictions on Employees

An officer or employee connected with the department, except one whose only connection is as a member of a board established by this act, shall not have a financial interest in the furnishing of labor, material or appliances for the construction, alteration, demolition, repair or maintenance of a building, or in the making of plans or of specifications therefor, unless he is the owner of such building. Such officer or employee shall not engage in any work which is inconsistent with his duties or with the interests of the department.

102.3 Records

The building official shall keep, or cause to be kept, a record of the business of the department. The records of the department shall be open to public inspection.

103 POWERS AND DUTIES OF THE BUILDING OFFICIAL

103.1 Right of Entry

103.1.1 The building official or his authorized representative may enter any building, structure or premises at all reasonable times to make an inspection or enforce any of the provisions of this code.

103.1.2 When entering a building, structure or premise that is occupied, the building official shall first identify himself, present proper credentials and request entry. If the building, structure or premise is unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge of the building and demand entry. If entry is refused, the building official or his authorized representative shall have recourse to every remedy provided by law to secure entry.

103.1.3 No person, owner or occupant of any building or premise shall fail, after proper credentials are displayed, to permit entry into any building or onto any property by the building official or his authorized agent for the purpose of inspections pursuant to this code. Any person violating this section shall be prosecuted within the limits of the law as established by the proper governing authority.

103.2 Inspections

The building official, the fire official and other authorized representatives are hereby authorized to make such inspections and take such actions as may be required to enforce the provisions of this code.

103.3 Requirements Not Covered By Code

Any requirement necessary for the strength or stability of an existing or proposed building or structure, or for the safety or health of the occupants thereof, not specifically covered by this code, shall be determined by the building official.

103.4 Liability

Any officer or employee, or member of the Board of Adjustments and Appeals, charged with the enforcement of this code, acting for the applicable governing body in the discharge of his duties, shall not thereby render himself liable personally, and he is hereby relieved from all personal liability for any damage that may accrue to persons or property as a result of any act required or permitted in the discharge of his duties. Any suit brought against any officer or employee because of such act performed by him in the enforcement of any provision of this code shall be defended by the legal

department of the applicable governing body until the final termination of the proceedings.

103.5 Reports

The building official shall annually submit a report to the chief administrator of the decisions rendered by the Board of Adjustments and Appeals during the preceding year. The report shall include a summary of the decisions of the Board of Adjustments and Appeals during said year.

104 VIOLATIONS AND PENALTIES

Any person, firm, corporation or agent who shall violate a provision of this code, or fail to comply therewith, or with any of the requirements thereof, or who shall erect, construct, alter, demolish or move any structure, or has erected, constructed, altered, repaired, moved or demolished a building or structure in violation of a detailed statement or drawing submitted and approved thereunder, shall be prosecuted within the limits provided by state or local law. Each such person shall be deemed guilty of a separate offense for any violation of any of the provisions of this code, and upon conviction of any such violation such person shall be punished within the limits and as provided by state or local laws.

105 BOARD OF ADJUSTMENTS AND APPEALS

105.1 Appointment

A Board of Adjustments and Appeals shall be established for the express purpose of providing for the final interpretation of provisions of this code. The board shall consist of five members who are not employees of the jurisdiction having authority and shall be appointed by the chief appointing authority. The composition of the board shall be one engineer, one architect, and three members at large from the construction industry.

105.2 Term of Office

Of the members first appointed, two shall be appointed for a term of 1 year, two for a term of 2 years, one for a term of 3 years, and thereafter they shall be appointed for terms of 4 years. Vacancies shall be filled for an unexpired term in the manner in which original appointments are required to be made.

105.3 Quorum

Three members of the board shall constitute a quorum. In varying the application of any provisions of this code or in modifying an order of the building official, affirmative votes of the majority present, but not less than three affirmative votes, shall be required. A board member shall not act in a case in which he has a personal interest.

105.4 Records

The building official shall be an ex-officio member of the

board, act as secretary and shall make a detailed record of all its proceedings. The record shall set forth the reasons for the board's decisions, the vote of each member participating therein, the absence of a member and any failure of a member to vote.

105.5 Procedures

The board shall establish rules and regulations for its own procedure not inconsistent with the provisions of this code. The board shall meet at regular intervals, to be determined by the chairman, or in any event, the board shall meet within 10 days after notice of appeal has been received.

106 VALIDITY

If any section, subsection, sentence, clause or phrase of this code is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portions of this code.

CHAPTER 3 INSPECTION AND NOTICE OF NONCOMPLIANCE

301 ACTION REQUIRED

301.1 General

The building official shall inspect or cause to be inspected any building, structure or portion thereof which is or may be unsafe. After the building official has inspected or caused to be inspected a building, structure or portion thereof and has determined that such building, structure or portion thereof is unsafe, he shall initiate proceedings to cause the abatement of the unsafe condition by repair, vacation or demolition or combination thereof.

302 NOTICE

302.1 Content

302.1.1 The building official shall prepare and issue a notice of unsafe building directed to the owner of record of the building or structure. The notice shall contain, but not be limited to, the following information:

1. The street address and legal description of the building, structure or premise.
2. A statement indicating the building or structure has been declared unsafe by the building official, and a detailed report documenting the conditions determined to have rendered the building or structure unsafe under the provisions of this code.
3. A statement advising that if the following required action as determined by the building official is not commenced within or completed by the time specified, the building will be ordered vacated and posted to prevent further occupancy until the work is completed and the building official may cause the work to be done and all costs incurred charged against the property or the owner of record.
 - 3.1. If the building or structure is to be repaired, the notice shall require that all necessary permits be secured and the work commenced within 60 days and continued to completion within such time as the building official determines. The notice shall also indicate the degree to which the repairs must comply with the provisions of the Standard Building Code, in accordance with 101.4.
 - 3.2. If the building or structure is to be vacated, the notice shall indicate the time within which vacation is to be completed.
 - 3.3. If the building or structure is to be demolished, the notice shall require that the premises be vacated within 60 days, that all required permits

for demolition be secured and that the demolition be completed within such time as determined reasonable by the building official.

4. A statement advising that any person having any legal interest in the property may appeal the notice by the building official to the Board of Adjustment and Appeals; and that such appeal shall be in writing in the form specified in 401 and shall be filed with the building official within 30 days from the date of the notice and that failure to appeal in the time specified will constitute a waiver of all rights to an administrative hearing.

302.1.2 The notice and all attachments thereto shall be served upon the owner of record and posted on the property in a conspicuous location. A copy of the notice and all attachments thereto shall also be served on any person determined from official public records to have a legal interest in the property. Failure of the building official to serve any person herein required to be served other than the owner of record shall not invalidate any proceedings hereunder nor shall it relieve any other person served from any obligation imposed on him.

302.1.3 The notice shall be served either personally or by certified mail, postage prepaid, return receipt requested, to each person at the address as it appears on the official public records. If addresses are not available on any person required to be served the notice, the notice addressed to such person shall be mailed to the address of the building or structure involved in the proceedings. The failure of any person to receive notice, other than the owner of record, shall not invalidate any proceedings under this section. Service by certified or registered mail as herein described shall be effective on the date the notice was received as indicated on the return receipt.

302.1.4 Proof of service of the notice shall be by written declaration indicating the date, time and manner in which service was made and signed by the person served on by the return receipt.

302.2 Recording of Notice

If the notice is not complied with nor an appeal filed within the allotted time, the building official shall file in the office of the recorder a certificate describing the property and certifying that the building or structure is unsafe and that the owner of record has been served. This certificate shall remain on file until such time as the conditions rendering the building or

structure unsafe have been abated. At such time, the building official shall file a new certificate indicating that corrective action has been taken and the building or structure is no longer unsafe from that condition.

303 STANDARDS FOR COMPLIANCE

The following action shall be taken by the building official when ordering the repair, vacation or demolition of an unsafe building or structure.

1. The building shall be ordered repaired in accordance with the Standard Building Code or demolished at the option of the owner.
2. If the building or structure poses an immediate hazard to life or to the safety of the public it shall be ordered vacated immediately.

304 POSTING OF NOTICE TO VACATE

Every notice to vacate, in addition to complying with 302, shall be posted at each exit and entrance to the building or structure and shall state:

THIS BUILDING IS UNSAFE AND ITS USE OR OCCUPANCY HAS BEEN PROHIBITED BY THE BUILDING OFFICIAL.

Such notice shall remain posted until the required repairs are made or demolition is completed. It shall be unlawful for any person, firm or corporation or their agents to remove such notice without written permission of the building official, or for any person to enter the building except for the purpose of making the required repairs or of demolishing same.

The board or the hearing examiner may inspect any building, structure or premise involved in the appeal during the course of the hearing, provided the following are complied with:

1. Notice of such inspection is given to the parties prior to making the inspection, and
