Re: In Re Seroquel Products Liability Litigation; MDL-1769

Dear Jonathan:

Attached on a portable hard drive please find our thirteenth custodian production in the above-referenced litigation. Please note that this production consists of 8,148 documents and is intended to supplement our eleventh and twelfth custodian productions, delivered to you on May 14th and May 22nd. Our vendor discovered late last week an issue in its production script that caused these documents to be sourced to custodians who fall later in the production schedule and to therefore be excluded from the above-referenced productions. Upon being informed of this issue, we immediately instructed our vendor to prepare the present supplemental production. Our vendor has informed us that this issue did not effect prior productions (namely one through ten) and that the cause of the issue has now been corrected.

Please note that this production does not reflect the recent changes to the labeling convention as agreed at our meet and confer of May 30, 2007. Rather, this production contains Bates Labels with hyphens and spaces included. This fact notwithstanding, we intend to provide you with "corrected" load files with the agreed bates labeling convention of "AZSER00001" consistent with our discussions and agreement at our meet and confer. In addition, we have addressed the naming convention issue with our vendor and have instructed that all future productions, including the Final Cut for this Group of 21 custodians due June 11, 2007, will have the new labeling convention. The Bates ranges for the documents contained on this hard drive, and the names of the custodians whose files are produced herein, are as follows:

Group 1, Supplement

	<u>Custodian</u>	<u>Beg Bates Range</u>	<u>End Bates Range</u>
PHILADELPHIA	Casty, Frank	AZ-SER 6499657	AZ-SER 6500150
