Re: In Re Seroquel Products Liability Litigation: MDL-1769

Dear Jonathan:

Pursuant to our notice last week, we have enclosed three portable hard drives and two compact disks containing documents for AstraZeneca's sixteenth Custodian production in the above referenced matter. In particular, this production contains documents belonging to the twenty-one custodians of Group 3, a Supplemental Production of documents discovered as a result of an audit sweep conducted by the vendor; and a small number of documents belonging to Custodian Wayne MacFadden. This production also contains a corrected Foreign Language Document Production with proper bates labeling. Finally, this production includes the following documents responsive to Plaintiffs Request for Production filed on May 25, 2007:

Department of Justice investigation;

Documents responsive to a 30(b)(6) depositions;

AstraZeneca Management List; and

Seroquel® Patent Application.

Consistent with our agreement on bates labeling, you will find all load files, text files and DAT files utilize the bates labeling convention of "AZSER#####." In addition, we have provided extracted text files with page breaks for the Foreign Language Document Production and Supplemental Production. As agreed, we will provide extracted text with page breaks for previous productions.

Similar to our most recent productions, the large size of the Group 3 Production demands the Custodians be set forth in multiple folders and corresponding sets. For your convenience, I have listed the Custodians according to their sets with corresponding bates numbers. The contents of the sets and the corresponding bates ranges are:

**Group 3 Production**

**Set 1**

<b><u>Custodian:</u></b>	<b><u>Beg Bates Range:</u></b>	<b><u>End Bates Range:</u></b>
Chavoshi, Soheil	AZSER7977154	AZSER8307646

**Set 2**

<b><u>Custodian:</u></b>	<b><u>Beg Bates Range:</u></b>	<b><u>End Bates Range:</u></b>
