Re: *Blaszkowski et al. vs. Mars, Inc. et al.*
Case No. 07-21221

Dear Ms. Licko:

Below you will find documents that we request to be produced for our review that is a subset of our original requests for production. We would like to review them by June 13, 2008. However, if you only plan to object, we would request your response by no later than June 6, 2008. If that is not feasible, please let me know.

- Pedigree "butcher"
 - Pedigree "Dr William Tuesdale"
 - Pedigree "Gracie"
 - Pedigree "Frankie"
 - Pedigree Dog Food "Mature"
 - Purina Dog Chow "14 year study"
 - Purina Dog Chow "two years"
 - Purina One "Relationship"
 - Beneful "meat and veggies falling"

Exhibit 4

- C. **Print marketing:** This would encompass exemplars of each printed marketing material that ran in magazines or on displays at pet specialty or other retail stores or veterinary offices for each product on Exhibit "A" between March 9, 2003 and March 9, 2007.
 - D. **In store marketing:** Exemplars of marketing materials used by employees or third parties in retail stores, including exemplars of items used for demonstration, for each product listed on Exhibit "A." This would encompass direct marketing to consumers and to pet specialty retail employees.
 - E. **Website:** Exemplars of statements made on Nestle's website about its pet food products listed on Exhibit "A" between May 9, 2003 and May 9, 2007.
 - F. **Real Beef.** Please provide documents supporting the statement that Beneful is used with "real beef" that is "rich in quality protein" as described in Exhibit 22 of the Fourth Amended Complaint.
 - G. **Added Vitamin E and selenium.** Please provide documents to support that vitamin E and selenium help maintain a cat's healthy immune system as described on Exhibit 22.
 - H. **Vegetables:** Please provide documents supporting the "vegetable" sources that Nestle uses in Beneful. Please refer to ¶81 of the Fourth Amended Complaint and Exhibit 22.
2. **Ingredients:** Documents reflecting the specific ingredients used in each product listed on Exhibit "A" between March 9, 2003 and March 9, 2004, including the source of where Nestle obtained the particular ingredient. This source material would include suppliers who provide vitamin pre-mixes, rendered material or other materials that are used to comprise the final wet or dry food products listed on Exhibit "A."
 3. **Marketing Plans and Strategy:** Documents reflecting Nestle's marketing strategy and plans, including competitor information and plans to increase market share, between May 9, 2003 and May 9, 2007. This would specifically include the marketing strategy and plans behind the veterinarian recommended statements referenced in 1(E) above and in the Fourth Amended Complaint. Marketing strategy would include internal as well as market reports such as that prepared by Euromonitor or Packaged Facts.
 4. **Suppliers:** A list or documents sufficient to identify the suppliers for the Nestle products listed on Exhibit "A," which list would include rendering companies and co-packers as well as identify all companies from which you purchased vitamin pre-mixes, probiotics, or any other matter used in the products listed in Exhibit "A" between May 9, 2003 and May 9, 2007.
 5. **Marketing Materials Provided to Veterinarians and Breeders:** Exemplars of marketing materials provided to veterinarians and breeders for all products listed on Exhibit "A"

between May 9, 2003 and May 9, 2007, including any incentives, financial or otherwise, for recommending the product.

6. Agreements:

- A. Copies of agreements that Nestle had or has with Pet Specialty Retailers regarding the display, marketing and sale of Iams / Eukanuba pet food between May 9, 2003 and May 9, 2007, including any and all incentives for encouraging consumers to purchase Iams / Eukanuba brand and products listed on Exhibit "A."
 - B. Copies of agreements with rendering companies for products listed on Exhibit "A."
 - C. Copies of agreements for any co-packers who may manufacture any product on Exhibit "A."
7. Copies of any and all letters threatening to sue consumers for expressing concerns about your pet food products from May 9, 2003 to May 9, 2007.

This list is intended to be more narrow than the original requests. Since I am not aware of the manner or method of Nestle's record keeping, electronic or otherwise, if you feel that they are nevertheless overbroad, please advise and I will try to work with you on any of the specific requests that you so identify.

If you make an overbroad objection, I would like to discuss the manner and method of how the documents are maintained and whether they are in electronic or paper format. For example, if it is stored via a program with a search engine of some sort, as I suspect that most electronic files are maintained in that manner.

Very truly yours,

Sent in her absence to avoid delay

Catherine J. MacIvor
