## Innova Holistic Cat and Dog Food

Just as dieticians recommend following the U.S. Department of Agriculture food pyramid for our own dietary needs, **Innova** applies this same principle when creating foods for our animal friends. Every Innova pet product incorporates elements from the five food pyramid groups - meat, dairy, vegetables, fruit and grain - plus essential fats and oils to deliver supreme nutrition for the overall health of your dog or cat.

## Adult Dry Dog Food

*Wholesome Food for a Healthier Dog*

**Innova Adult Dry Dog Food** brings the world of pet nutrition closer than ever to that of healthy human nutrition by incorporating lean meats and cottage cheese, vegetables and fruit along with whole grains to create a dog food unequaled in nutrition and health benefits. Finally, there is a health food for your dog!

You will see a significant, healthy difference with Innova Adult Dog's high levels of natural antioxidant vitamins, and rich supply of Omega 6 and Omega 3 Essential Fatty acids. Innova Adult Dog goes above and beyond to provide complete and balanced nutrition for the life and good health of your dog.

Animal feeding tests using AAFCO (Association of American Feed Control Officials) procedures substantiate that Innova Adult Dog Food provides complete and balanced nutrition for all life stages.

**Innova Adult Dry Dog Food** is available in 6.6 lb., 16.5 lb. and 33 lb. packages.

## About Us How Natura Pet Products is Different

### Philosophy

No pet food company in the world makes natural pet foods like Natura. We use only ingredients you'd eat yourself: quality meats, whole grains, fresh fruits and vegetables, and complete vitamin and mineral supplements. For us humans, a diet of natural, wholesome food is essential to living a long healthy life. We believe this fundamental principle is true for your pet, too.

### Manufacturing

All of our human grade dog and cat foods are carefully cooked and tested to ensure consistent nutrient quality and enjoyable texture and taste. All of the ingredients used in our pet foods are tested to make sure they are hormone, antibiotic and pesticide-free. And we never add artificial ingredients, chemical additives, by-products or fillers of any kind.

## About Us Our Pet Nutrition Philosophy

### Philosophy

Natura Pet Products was founded in 1989 by John and Ann Rademakers and Peter Atkins in Santa Clara, California. Dissatisfied with the unhealthy ingredients in the pet foods on the market, they consulted with veterinary nutrition experts to determine the best sources for **pet food ingredients**.

### Manufacturing

Working with caring pet professionals - veterinarians, breeders and nutritionists - Natura asked one key question: *"How do you make the healthiest pet food in the world?"*

### News

### Contact Us

What they learned won't surprise you. Dogs and cats are healthiest when they eat the whole, natural foods we would eat ourselves: USDA-inspected chicken, turkey and lamb, whole grain rice and barley, fresh fruits and vegetables, and Grade A dairy products. Based on information from this research, Natura's Nutritional Philosophy was developed:

#### **I. Use Only Dog and Cat Food Ingredients Which I Would Feel Comfortable Eating Myself**

The bottom line: If I wouldn't eat it, why would I want to feed it to my pet? It is important to understand that the pet food industry is the primary outlet for human by-products. There are ingredients which are allowed to be used in pet foods that are, at best, scary.

#### **II. Use Whole Pet Food Ingredients That Are Nutrient Rich and Unaltered**

Mother Nature made the grain in its whole state. As such, it includes nutritious protein, fats, carbohydrates, fiber, vitamins and minerals. Other pet food companies use fractionated grains, which do not include this balance of natural nutrition.

#### **III. Use Highly Controlled Cooking Methods to Preserve Natural Levels of Nutrients**

Quality control and process management are critical in making a **nutritious pet food**. All Natura foods undergo over 50 different quality control checks before being shipped.

#### **IV. Use No Artificial Preservatives, Colors or Additives**

Natura will not add anything to the food unless it is nutritious and healthy for your cat or dog.

#### **V. Formulate Using Pet Food Ingredients That Provide the Optimum Nutritional Profile for Skin and Coat**

Getting a good skin and coat is no big secret. It's just very expensive to do. You have to use more meat, higher quality sources of fats and oils, and high levels of vitamins and other nutrients. Natura has a large investment in quality - we've made the commitment. Other dog food and cat food companies try to take shortcuts by using vegetable protein fillers and cheaper sources of fats.

#### **VI. Continue Extensive Testing and Monitoring to Assure Optimal Health and Longevity of Your Pet**

Natura Pet Products will stay on the leading edge of pet health care. As new information is developed, Natura will adjust formulas to ensure that our diets stay the healthiest in the world!

#### **A Difference You and Your Pet Can Appreciate**

We all know how much dogs and cats like to eat human food. Because the taste of Natura pet foods comes from high-quality ingredients, we don't have to add artificial flavors or colors. All our foods are free from chemical additives of any kind, including preservatives such as Ethoxyquin and BHA/BHT, which are

-  [COMPARE PRODUCTS & BRANDS](#)
-  [CONTACT NATURA](#)
-  [OUR UNIQUE MANUFACTURING APPROACH](#)
-  [OWNER TESTIMONIALS](#)
-  [NUTRITIONAL PHILOSOPHY](#)

frequently found in pet foods but are banned from human use in many countries.

By eliminating the cheap filler ingredients and low-grade proteins that are so common in commercial pet foods, Natura creates foods that are more dense, richer in nutrients without added bulk. This means your pet gets more nutrition from less food, with calories and fats in each formula balanced to fit the needs of your specific dog or cat.

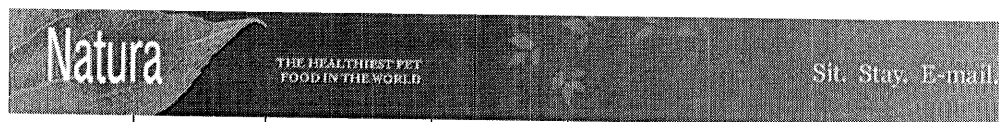

### **Choosing a Pet Food**

Your pet's health is just as important as your own. A pet's diet, the biggest health variable controlled by its owner, is crucial to its well-being. That's why selecting a **tasty and healthy pet food** is the most loving choice you can make for your pet.

It's not always an easy choice to make. With so many different pet food products to choose from, it has become increasingly difficult to determine which pet foods are actually "healthy" for your pet.

By committing to our Nutritional Philosophy, we believe that we have created the **healthiest dog and cat foods** in the world. With a variety of flavors and formulas available, we are sure that you can find one that suits your animal's individual needs.

Natura Pet Products has received certifications from the following four organizations:

**American Institute of Baking (AIB) Superior rating certification** - "...high AIB ratings confirm a manufacturer's commitment to excellence," - WDJ February, 2006.

**USDA Organic Production Certification** - A National Organic Program certifier has approved the facility and its procedures through rigorous inspection and auditing. (Natura's baking facility is certified by OneCert)

**USDA APHIS (Animal and Plant Health Inspection Service) Registered** - APHIS registry certifies that Natura purchases all of our meats from USDA registered suppliers who follow all USDA regulations for safe meat handling.

**ISO Quality Management System 9001: 2000 compliant:** - An internationally recognized and highly respected system of quality management.

In addition to our accreditations, Natura employs our own standards of quality. Before any of our pet food is shipped, it must pass 119 quality-control checks.

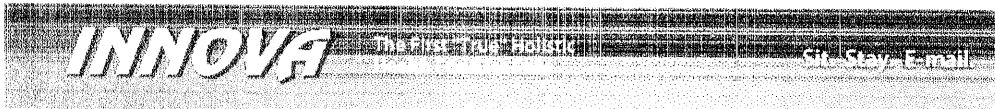

This isn't just pet food. This is the foundation for your pet's long-term health. We want to be sure we provide him or her with the best pet food on the market, manufactured in the best way possible.

[Natura Brands](#) | [Product Search](#) | [Tools & Resources](#) | [Pet Community](#) | [Where to Buy](#) | [About Us](#) | [Home](#) | [Natura Sites:](#)

**About Us** **Natura’s Response to Menu Foods’ Recall: ‘We Will Operate our Own Canning Facility’ - April 2, 2007**

**Philosophy** **SAN JOSE, CA, April 2, 2007-** Although not implicated in the recent massive Menu Foods canned food recall, Natura Pet Products has pledged to either acquire or build a canning plant so that the company can exercise complete control over its product lines.

**Manufacturing** In a video message to [Natura customers](#), Peter Atkins, one of Natura’s founders and owners, made assurances that no Natura canned food contains the suspected contaminate, wheat gluten from China, or wheat of any kind. Furthermore, Natura’s canned foods are made exclusively in a Menu Foods South Dakota plant, rather than in the affected Kansas and New Jersey plants. Nonetheless, Natura plans to remove any doubt that they are producing pet foods with unsafe ingredients.

**News**

**Contact Us** “I want to make sure that you know that we take very seriously our responsibility to provide healthful and safe products for the thousands of dogs and cats that eat Natura pet foods,” said Atkins. “To do this effectively we must ultimately control the manufacture of ALL products that we sell. Therefore, the Natura Pet Products board of directors has authorized the immediate implementation of a plan to either acquire an existing canning operation or build a new can plant from scratch. This substantial financial commitment will insure that you, our loyal customers, can be confident in knowing that all Natura pet food products will always be of the highest quality – that we truly live up to our mission to make the healthiest pet foods in the world.”

Natura owns and operates the manufacturing plants that make its dry pet foods and its baked treats and biscuits. Its quality management programs at these plants are unequalled in the industry and as a result of these programs Natura has achieved many human food plant certifications, including a “Superior” rating from the American Institute of Baking, Organic Certification, registration with the USDA Animal and Plant Health Inspection Service and ISO 9001:2001 compliance.

Until Natura begins its canning operation, it will have one of their own Quality Control employees on-site in South Dakota to oversee the production of its products. Natura has also instructed its buyers to utilize ingredients from domestic suppliers only.

**About Natura Pet Products**

Founded fifteen years ago by John and Ann Rademakers and Peter Atkins, Natura is recognized as the most trusted name behind the healthiest pet food in the world. Natura’s products are formulated, manufactured, and prepared at human grade levels. Lines include: INNOVA, EVO, CALIFORNIA NATURAL, HEALTHWISE and KARMA. For more information call (800) 532-7261.

## About Natura

### How Natura is Different

No company in the world makes pet foods like Natura. We use only ingredients you'd eat yourself: quality meats, whole grains, fresh fruits and vegetables, and complete vitamin and mineral supplements. For us humans, a diet of natural, wholesome food is essential to living a long healthy life. We believe this fundamental principle is true for your pet, too.

All of our foods are carefully cooked and tested to ensure consistent nutrient quality and enjoyable texture and taste. All of the ingredients used in our pet foods are tested to make sure they are hormone, antibiotic, and pesticide free. And we never add artificial ingredients, chemical additives, byproducts, or fillers of any kind.

### Our History & Philosophy

Natura Pet Products was founded in 1989 by John and Ann Rademakers and Peter Atkins in Santa Clara, California. Dissatisfied with the unhealthy ingredients in the pet foods on the market, they consulted with veterinary nutrition experts to determine the best sources for pet food ingredients. Working with caring pet professionals -veterinarians, breeders and nutritionists, Natura asked one key question: "How do you make the healthiest pet food in the world?"

What they learned won't surprise you. Dogs and cats are healthiest when they eat the whole, natural foods we would eat ourselves: USDA-inspected chicken, turkey, and lamb, whole grain rice and barley, fresh fruits and vegetables, and Grade A dairy products. Based on information from this research, Natura's Nutritional Philosophy was developed:

#### I. Use Only Ingredients Which I Would Feel Comfortable Eating Myself

The bottom line: If I wouldn't eat it, why would I want to feed it to my pet? It is important to understand that the pet food industry is the primary outlet for human by-products. There are ingredients which are allowed to be used in pet foods that are, at best, scary.

#### II. Use Whole Ingredients That are Nutrient Rich and Unaltered

Mother nature made the grain in it's whole state. As such, it includes nutritious protein, fats, carbohydrates, fiber, vitamins and minerals. Other companies use fractionated grains, which do not include this balance of natural nutrition.

#### III. Use Highly Controlled Cooking Methods to Preserve Natural Levels of Nutrients

Quality control and process management are critical in making a nutritious pet food. All Natura foods undergo over 50

different quality control checks before being shipped.

#### **IV. Use No Artificial Preservatives, Colors or Additives**

Natura will not add anything to the food unless it is nutritious and healthy for your cat or dog.

#### **V. Formulate Using Ingredients That Provide the Optimum Nutritional Profile for Skin and Coat.**

Getting a good skin and coat is no big secret. It is just very expensive to do. You have to use more meat, higher quality sources of fats and oils, and high levels of vitamins and other nutrients. Natura has a large investment in quality - we've made the commitment. Other companies try to take shortcuts by using vegetable protein fillers and cheaper sources of fats.

#### **VI. Continue Extensive Testing and Monitoring to Assure Optimal Health and Longevity of Your Pet.**

Natura Pet Products will stay on the leading edge of pet health care. As new information is developed, Natura will adjust formulas to ensure that our diets stay the healthiest in the world!

#### **A Difference You and Your Pet Can Appreciate**

We all know how much dogs and cats like to eat human food. Because the taste of Natura pet foods comes from high quality ingredients, we don't have to add artificial flavors or colors. All our foods are free from chemical additives of any kind, including preservatives such as Ethoxyquin and BHA/BHT, which are frequently found in pet foods but are banned from human use in many countries.

By eliminating the cheap filler ingredients and low-grade proteins that are so common in commercial pet foods, Natura creates foods that are more dense, richer in nutrients without added bulk. This means your pet gets more nutrition from less food, with calories and fats in each formula balanced to fit the needs of your specific dog or cat.

#### **Choosing a Food**

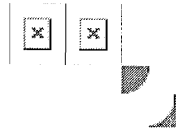

Your pet's health is just as important as your own. A pet's diet, the biggest health variable controlled by its owner, is crucial to its well-being. That's why selecting a healthy and tasty pet food is the most loving choice you can make for your pet.

It's not always an easy choice to make. With so many different pet food products to choose from, it has become increasingly difficult to determine which pet foods are actually "healthy" for your pet.

By committing to our Nutritional Philosophy, we believe that we have created the healthiest dog and cat foods in the world. With a variety of flavors and formulas available, we are sure that you can find one that suits your animal's individual needs. Our Product Wizard can also help you choose the right Natura food for your dog or cat.

#### **Contacting Natura**

Have more questions? Want to give us your comments? Please see our customer service page. We look forward to hearing from you.

## California Natural

California Natural is the *Pure & Simple™* food for your special pet. For details on the full line of California Natural foods and treats, choose a product from the menu and click **go**

Choose A Product

CALIFORNIA NATURAL™

• featured product

California Natural Herring & Sweet Potato Adult

### Why Feed California Natural?

#### Pure & Simple

That's how to best describe the ingredients in the California Natural line.

With only one primary, high-quality protein source, California Natural can meet the special dietary needs of dogs that cannot tolerate typical pet food ingredients. It's just a **Pure and Simple** pet food.

You will love what we put into our California Natural pet food:  
Pure and simple recipes of lean meats, essential vitamins and key minerals your pet needs to stay happy and healthy.

You will also appreciate what we don't put into California Natural pet food:  
Additives, chemical preservatives or fillers that can compromise the well-being and vitality of even the healthiest animal.

You see, we know that your pet's quality of life is one of your biggest priorities. That's why we make the quality of our pet food our number one job!

Our full selection of California Natural pet foods is created with only the most wholesome natural ingredients. Simply put, it's up to the standards you would demand for yourself--and then some!!

#### WHAT WE PUT IN

Simple, high-quality ingredients like Omega 3 fatty acids and Omega 6 fatty acids for a lustrous coat and healthy skin. This is especially important for animals who may be prone to itchy skin. California Natural also adds Vitamin E for its antioxidant properties.

#### WHAT WE LEAVE OUT

California Natural contains NO wheat, NO corn, NO soy, NO artificial preservatives, NO artificial flavoring, NO added coloring, NO by-products. California Natural is formulated to be complete and balanced for all dogs and cats.

#### ADDED TAURINE

Recent university research has suggested that like cats, some breeds of dogs may benefit from Taurine in the diet. While California Natural has always contained ample Taurine from natural sources such as lamb meal, we have decided to supplement Taurine to ensure that all puppies receive full nutritional benefit from our products.

### Why Feed HealthWise?

#### Nutritional Quality for the Life of Your Pet

Natura is excited to present our new and improved HealthWise formulas for dogs and cats. Whether you are already feeding HealthWise, or if you are new to using our products, we are certain that your pet will benefit from the newly formulated HealthWise line of foods. The HealthWise products have been carefully formulated for all sizes and breeds, providing high quality protein, essential fatty acids, and the vitamins and minerals that your dog or cat will need to thrive - not just survive.

New ingredients to the HealthWise formulas include:

**Kelp** - a good source of beta-carotene, B vitamins and vitamin C. Kelp also has high concentrations of minerals (up to 40% by weight) like iodine, potassium and calcium.

**Garlic** - valued for its anti-oxidant properties as well as its enjoyable flavor. Garlic also contains B complex vitamins, selenium and has been known for stimulating the immune system.

**Avocado Oil** - a monounsaturated fat and is a rich source for the beneficial Omega 3 and 6 fatty acids that promote a healthy skin and coat. Avocado oil contains large quantities of vitamins A, D, and E. Avocado oil also contains lutein, which is a carotenoid that acts as an antioxidant, protecting cells against the damaging effects of free radicals.

As always, ALL the HealthWise formulas contain protein from only the highest quality chicken and expensive New Zealand lamb, the exact same kind you would eat yourself.

Each of the HealthWise products still feature an excellent ratio of Omega 6 fatty acids to Omega 3 fatty acids contained in the naturally preserved chicken fat, herring oil, avocado oil, and ground flaxseed.

HealthWise Cat 'N Kitten food features a unique Fiber Matrix™. The Fiber Matrix™ consists of the natural fiber blend of oatmeal, flaxseed meal and brown rice that work in combination with high quality fatty acids to help the flow of food through the digestive system, and keeps shedding to a minimum resulting in a reduction in the formation of hairballs.

Mother Nature 4 Way Treat

[x](#)  
**Mother Nature Natural Dog Treats** are baked using only the finest human-grade ingredients that meet our strict philosophy. We utilize *stone ground wheat (lower in carbohydrates), fresh human-grade meats and fresh fruits and vegetables along with the same fresh milk, butter and eggs that we all love.* Our eye-catching package artwork was created especially for us by internationally known artist, Rick Sealock. His work has been commissioned by such familiar companies as Newsweek, Apple Computers, Business Week, Forbes Magazine, Walt Disney and now Sturdy Pet Products!

**Mother Nature** products are made in a variety of shapes and sizes including a small puppy bone, hearts, triangles, bones and "donuts." These five formulas of aromatic treats are guaranteed to appeal to both the pet and the pet owner with not only our "home cooking" formulations, but also their "just out of the oven" scents.

Made in medium to small sizes and freshly packed in 20 oz pouches, they are suitable for any size puppy or dog. Products include:

## About Natura

### How Natura is Different

No company in the world makes pet foods like Natura. We use only ingredients you'd eat yourself: quality meats, whole grains, fresh fruits and vegetables, and complete vitamin and mineral supplements. For us humans, a diet of natural, wholesome food is essential to living a long healthy life. We believe this fundamental principle is true for your pet, too.

All of our foods are carefully cooked and tested to ensure consistent nutrient quality and enjoyable texture and taste. All of the ingredients used in our pet foods are tested to make sure they are hormone, antibiotic, and pesticide free. And we never add artificial ingredients, chemical additives, byproducts, or fillers of any kind.

### Our History & Philosophy

Natura Pet Products was founded in 1989 by John and Ann Rademakers and Peter Atkins in Santa Clara, California. Dissatisfied with the unhealthy ingredients in the pet foods on the market, they consulted with veterinary nutrition experts to determine the best sources for pet food ingredients. Working with caring pet professionals -veterinarians, breeders and nutritionists, Natura asked one key question: "How do you make the healthiest pet food in the world?"

What they learned won't surprise you. Dogs and cats are healthiest when they eat the whole, natural foods we would eat ourselves: USDA-inspected chicken, turkey, and lamb, whole grain rice and barley, fresh fruits and vegetables, and Grade A dairy products. Based on information from this research, Natura's Nutritional Philosophy was developed:

#### I. Use Only Ingredients Which I Would Feel Comfortable Eating Myself

The bottom line: If I wouldn't eat it, why would I want to feed it to my pet? It is important to understand that the pet food industry is the primary outlet for human by-products. There are ingredients which are allowed to be used in pet foods that are, at best, scary.

#### II. Use Whole Ingredients That are Nutrient Rich and Unaltered

Mother nature made the grain in it's whole state. As such, it includes nutritious protein, fats, carbohydrates, fiber, vitamins and minerals. Other companies use fractionated grains, which do not include this balance of natural nutrition.

#### III. Use Highly Controlled Cooking Methods to Preserve Natural Levels of Nutrients

Quality control and process management are critical in making a nutritious pet food. All Natura foods undergo over 50

By eliminating the cheap filler ingredients and low-grade proteins that are so common in commercial pet foods, Natura creates foods that are more dense, richer in nutrients without added bulk. This means your pet gets more nutrition from less food, with calories and fats in each formula balanced to fit the needs of your specific dog or cat.

#### **Choosing a Food**

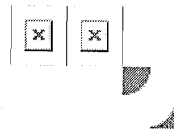

Your pet's health is just as important as your own. A pet's diet, the biggest health variable controlled by its owner, is crucial to its well-being. That's why selecting a healthy and tasty pet food is the most loving choice you can make for your pet.

It's not always an easy choice to make. With so many different pet food products to choose from, it has become increasingly difficult to determine which pet foods are actually "healthy" for your pet.

By committing to our Nutritional Philosophy, we believe that we have created the healthiest dog and cat foods in the world. With a variety of flavors and formulas available, we are sure that you can find one that suits your animal's individual needs. Our Product Wizard can also help you choose the right Natura food for your dog or cat.

#### **Contacting Natura**

Have more questions? Want to give us your comments? Please see our customer service page. We look forward to hearing from you.

## Why Feed HealthWise?

### Nutritional Quality for the Life of Your Pet

Natura is excited to present our new and improved HealthWise formulas for dogs and cats. Whether you are already feeding HealthWise, or if you are new to using our products, we are certain that your pet will benefit from the newly formulated HealthWise line of foods. The HealthWise products have been carefully formulated for all sizes and breeds, providing high quality protein, essential fatty acids, and the vitamins and minerals that your dog or cat will need to thrive - not just survive.

New ingredients to the HealthWise formulas include:

**Kelp** - a good source of beta-carotene, B vitamins and vitamin C. Kelp also has high concentrations of minerals (up to 40% by weight) like iodine, potassium and calcium.

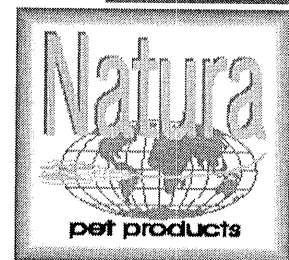

**Garlic** - valued for its anti-oxidant properties as well as its enjoyable flavor. Garlic also contains B complex vitamins, selenium and has been known for stimulating the immune system.

**Avocado Oil** - a monounsaturated fat and is a rich source for the beneficial Omega 3 and 6 fatty acids that promote a healthy skin and coat. Avocado oil contains large quantities of vitamins A, D, and E. Avocado oil also contains lutein, which is a carotenoid that acts as an antioxidant, protecting cells against the damaging effects of free radicals.

As always, ALL the HealthWise formulas contain protein from only the highest quality chicken and expensive New Zealand lamb. the exact same kind you would eat yourself.

Each of the HealthWise products still feature an excellent ratio of Omega 6 fatty acids to Omega 3 fatty acids contained in the naturally preserved chicken fat, herring oil, avocado oil, and ground flaxseed.

HealthWise Cat 'N Kitten food features a unique Fiber Matrix™. The Fiber Matrix™ consists of the natural fiber blend of oatmeal, flaxseed meal and brown rice that work in combination with high quality fatty acids to help the flow of food through the digestive system, and keeps shedding to a minimum resulting in a reduction in the formation of hairballs.

## Mother Nature

For details on the Mother Nature family of treats, choose a product from the menu and click *go*.

Choose A Product

featured product

Mother Nature 4 Way Treat

**Mother Nature Natural Dog Treats** are baked using only the finest human-grade ingredients that meet our strict philosophy. We utilize *stone ground wheat (lower in carbohydrates), fresh human-grade meats and fresh fruits and vegetables along with the same fresh milk, butter and eggs that we all love.* Our eye-catching package artwork was created especially for us by internationally known artist, Rick Sealock. His work has been commissioned by such familiar companies as Newsweek, Apple Computers, Business Week, Forbes Magazine, Walt Disney and now Sturdy Pet Products!

**Mother Nature** products are made in a variety of shapes and sizes including a small puppy bone, hearts, triangles, bones and "donuts." These five formulas of aromatic treats are guaranteed to appeal to both the pet and the pet owner with not only our "home cooking" formulations, but also their "just out of the oven" scents.

Made in medium to small sizes and freshly packed in 20 oz pouches, they are suitable for any size puppy or dog. Products include:
