

Curriculum Vitae

Carter Vance Conrad, Jr., CCE, CISSP, Security+, Q/SA, Q/FE
Member, The International Society of Forensic Computer Examiners
West Palm Beach, Florida

Employment Experience

April 2006 - Current
DeliveredDATA, LLC
Lead Computer Forensics Examiner – President

Computer forensics services to private clients and law firms within the South Florida region. Scope of engagements include, but not limited to: Forensically sound examinations, evidence collection, password cracking, and expert consulting. Extensive, ongoing training related to legislation and computer science techniques. Consulting services including risk assessments and business continuity (BC/DR)

February 2007 – July 2009
Vigilar, Inc, Security University, International Society of Forensic Computer Examiners
Instructor-Applied Computer Forensics/CCE, CISSP, Security+, A+, Q/FE

Applied Computer Forensics and Q/FE training course curriculum that teaches computer forensic techniques used for locating, handling, and processing digital evidence. CCE Boot Camp prepares students for the CCE certification examination by teaching the necessary skills to recognize computer threats and how to investigate computer crime.

The CISSP curriculum covers subject matter in a variety of Information Security topics. The CISSP examination is based on what (ISC)² terms the Common Body of Knowledge (or CBK), a collection of topics relevant to information security professionals around the world. The CISSP CBK establishes a common framework of information security terms and principles that allow information security professionals worldwide to discuss debate and resolve matters pertaining to the profession with a common understanding.

CompTIA Security+ certification covering 17 aspects of Network Security including: Security principles, OSI, Cryptography, Disaster Recovery, and Computer Forensics. CompTIA Security+ validates knowledge of communication security, infrastructure security, cryptography, operational security, and general security concepts. It is an international, vendor-neutral certification.
