It is with deep regret that I inform the troop family of some devastating news. While on a troop hike Saturday on the Florida Trail in the Big Cypress Preserve, for completion of the 20 mile requirement, one of our older Life scouts, Michael Sclawy-Adeleman developed symptoms of heat exhaustion/stroke and, while first aide measures were immediately begun, later died before reaching a medical facility.

Although only 5 miles from the Big Cypress Oasis Ranger Station, conditions for that trail allow for only a maximum 3 mph + travel time on foot and cell phone signal is unreliable. Scoutmaster Crompton stayed with Michael while I went for assistance and took the other two scouts in. As I reached the station, where there is also a National Park Service fire helicopter unit, a response team was already being assembled. (The Scoutmaster was able to get a signal and called 911 as Michael's condition had worsened in my absence) Although we were able to give responders GPS coordinates it was still difficult to locate them, land and transport him back to the station. The whole time was painfully time consuming but what wilderness conditions dictate.

Details for funeral arrangements will be forthcoming.

Please keep Michael, his twin sister Elizabeth, his parents, Howard and Judith and their families and our Scoutmaster in your prayers.

The other two First Class scouts, Chase Crompton and Khri Leon are fine.

I am, of course, available to speak to any scout [or parent] regarding the incident and we will meet with the boys, along with one of the PUMC Pastors on Wednesday night. My cell is 954.696.7453.

If the scout prefers to speak to Bradley his cell number is 954.646.5102.

May God be with us and Bless Troop 111 at this time of need,

Andy Schmidt

Andy,
I have forwarded your e-mail to some adult Scouters in Pine Island.
I can only imagine what you, Howard, your Troop and the scouts family are going through.
I know you are devastated. This could be any of us, and any of our units.
My prayers are with you, all of you.

Email is out on the donations

Rosemary Novak is coordinating food donation from the troop families and has already begun contacting people and has also spoken to Sherrill

In a message dated 5/11/2009 4:10:18 P.M. Eastern Daylight Time, Wr70 writes:

Andy,
Sherrill called.
She said Judith would like it if the food platters brought by Scout families were 'Covered Dish' and Desserts Like Court-Of-Honor "Style" - If you can let everyone know. Do you think Cindy Inklebarger could or would coordinate?

Sam Kent a few others will be remaining at the house during the funeral and will be there for anyone who wants to go to the house and bring food or set up (and not go to the burial).

This email is being sent to our immediate adult troop members only.

I apologize for the numerous emails but as developments occur I want to keep everyone informed. First. The Troop Committee as authorize me to expend what ever funds are necessary to assist the Schlawy-Adelman's at this time. Traditional Jewish customs do not usually include flowers at funerals but the family has indicated they would accept and appreciate an arrangement from the troop. A live plant will also be sent from the PLC and scouts. Additional flower arrangements are discouraged but fruit baskets to the home are ok if so desired.

Second. If anyone would like to bring additional food or schedule food for later in the week please contact Sherrill. 954.295.7878 or 954.423.3788

Third. Although a school day, it would be appropriate for scouts to attend the service, in Class A. We would particularly expect the members of Michael's patrol to be in attendance. Attendance at the cemetery or home afterwards will be at your discretion. This is a difficult time and may not be easy for some of the scouts but the family will appreciate the showing of support and respect from his fellow troop members. If any scout needs transportation please contact me and I will make the arrangements with an adult leader.

Fourth. As of this time, there has been no designated organization for donations. Cards would be appropriate until we receive additional information.

Fifth. Clarification of visitation. Jewish tradition calls for a Shiva after the funeral. This is a time of healing for the family and rely's primarily on visitors eating and talking about Michael with the family. This time begins after the funeral (Tuesday afternoon) and continues until Friday night at 9 PM. You need only show up at their home, phone calls are discouraged. As most visits occur in the evening hours, you are

encouraged to go during the day if that is possible. Visits after Friday should be preceded by a phone call.

And finally, news reports have and may appear over the next few days. Inaccuracies are inevitable so please rely on the Troop's information regarding what actually occurred. As reported in the SunSentinel and Channel 10 News, the hike was 20 miles, not 7.7, and there was NO water on or near the trail.

For the Troop and Scoutmaster,
Andy

I spoke with both Annette and Jeff yesterday afternoon, although this morning yesterday seems like a blur. I expect I will here from Jeff again today.

I also spoke with Sherrill Kent who is fielding calls for the Sclawy-Adelmans. They are of course devastated and I understand Howard Adelman is not talking to anyone- not even his wife. I have funeral information and will go out in an email shortly. I also understand they have denied the autopsy request by the sheriff's office.

I will call Howard Crompton this morning and see how he is doing. I am mentally exhausted so not planning too much today.

I'll be in touch with you later in the day.

Andy,

I tried to alert the professionals at Council to give them a chance to prepare for what is sure to come, front page news. Unfortunately none were listed in telephone books, cell phones have no room to leave messages and no one I spoke to had home phone numbers for any of them.

I did speak with Greg Ramos and told him hoping he had numbers I did not. He only had Annette Hungler's and there was no room to leave a message. I tried paging her and still am awaiting a return call.

Your information is right on point and says what it needs to say. Hang in there and let me know if there is anything I can help you with. I would also not speak to any reporters until you have had a chance to speak with Jeff Hunt. He will hopefully give you and Howard some legal counsel.
