Dear Hotfile,

As you may know, our affiliated company Home Box Office, Inc. ("HBO") has been sending DMCA takedown notices with links to free downloads of copyright protected materials. I was wondering if it was possible to setup a DMCA Hotfile takedown removal tool similar to the Warner Bros. takedown tool?

We really appreciate any assistance or tool you could provide us, because a faster way to remove the infringing links is required in solving this problem for HBO.

You can call myself at the number below or Steven Rosenthal directly at 212-512-1780 if you have any further questions. I've also circled Steven into this email message.
