All uploader accounts are checked daily for their performance during the last 14 days. If necessary your status will be changed and your file's downloads will be credited according to the table above.

Your status mainly depends on your conversion ratio which includes:

1. The ratio of the users that downloaded your files and the users that become premium based on your uploaded files.
2. The ratio of uploaded files to number of downloads.

We are trying to encourage the good promoters by increasing their earnings and to reduce the earnings for uploaders that mainly use the free hotfile resources for storage.
