30 (b) (6) DEPOSITION OF ANTON TITOV
Radisson Blu Hotel
Sofia, Bulgaria
Monday, December 5, 2011
Job Number: 44174

1 MR. FABRIZIO: He said, "And there may be others."

2 BY MR. FABRIZIO:

3 Q. Can you think of any others?

4 MR. THOMPSON: Objection, vague.

5 A. I don't think I can go to any others without going --
6 any specific details, getting into specific details.

7 BY MR. FABRIZIO:

8 Q. Are there other functionalities that you can identify at
9 a general level that you considered that were already on
10 the market?

11 MR. THOMPSON: Objection, vague and overbroad.

12 A. Probably that's what I can think of, any specific, you
13 can ask later if we go on to the details.

14 BY MR. FABRIZIO:

15 Q. Sure. If you think of any, you can just identify them
16 for us as we go.

17 Were there particular companies that were on the
18 market that had the functionality of storing files
19 accessible by links or the affiliate program that you in
20 particular looked to in designing the Hotfile
21 functionality?

22 A. Yes.

23 Q. What were those companies?

24 A. It was generally -- we would generally look at
25 functionality of RapidShare, that kind, when we were

1 developing hotfile.com.

2 Q. Any other companies, beyond RapidShare?

3 A. RapidShare was market leader, and we would normally
4 compare to them, ourselves to them, but I believe we
5 looked at others too.

6 Q. What were the others?

7 A. I think MediaFire.

8 Q. Did you say MediaFire?

9 A. MediaFire.

10 Q. Any others?

11 A. It's very hard to judge in the time when you've seen
12 anything.

13 Q. Sure. Let me -- let me suggest a couple of names and
14 you can tell me. Megaupload?

15 MR. THOMPSON: Just so the question is clear, is there
16 a time?

17 MR. FABRIZIO: This is in the time they were developing the
18 functionality for Hotfile.

19 A. We were probably aware of Megaupload, but I don't think
20 we were really looking at Megaupload as an example of
21 functionality or anything else.

22 BY MR. FABRIZIO:

23 Q. Okay. So is it fair to say that you principally looked
24 to RapidShare to get ideas for functionality for
25 Hotfile?
