ORDER

After a careful, *de novo* review of the file, the Court concurs with the Magistrate Judge’s Report and Recommendation, to which no objections have been filed. Plaintiff did, however, file a declaration containing additional statements from other inmates supporting the factual allegations in his emergency motion. (See doc. no. 48.) These statements are largely cumulative and also irrelevant to the Magistrate Judge’s findings regarding the Court’s jurisdiction. Accordingly, the Court **ADOPTS** the Report and Recommendation of the Magistrate Judge as its opinion and **DENIES** Plaintiff’s emergency motion. (Doc. no. 45.)

SO ORDERED this 19th day of May, 2023, at Augusta, Georgia.
