Olisa:

Today we mailed in a 1449 IDS in H-119 and attached the Rule 131 Declaration from H-123.

We also appreciate your acknowledging the January 24, 2007 Amended IDS in the H-119 case and would like you to acknowledge it in all of the Henderson cases under your wing.

Finally, you said you would provide an omnibus Notice of References Cited in all the cases for which you are responsible so that we can clean up the record in these cases once and for all.

We look forward to a successful end to the patent prosecution in all the Henderson cases and will provide a Rule 131 Declaration in all the other Henderson cases once we obtain a Notice of Allowance in H-123.

Bob
