27. Copyright Act of 1976; Title 17: United States Code, 100.
28. Computer Software Copyright amendment Act of 1980 of Copyright Act of 1976, a set of statements or instructions to be used directly or indirectly in a computer to bring about a certain result, an original work of authorship, literal expression computer instructions.
29. Title 1: Section 101, Protection of Trade Secrets. The Economic Espionage Act of 1996: Section 1831. Theft of Trade Secrets: Section 1832.
30. Mens rea; Torts: Negligence, Invasion of Privacy, Identity Theft, Recklessness and Intentional Infliction of Emotional Distress, relevant to the complaint filed the defendants in question, in the subject of the matter, from the processing civil court case filed, in great proportional evidenced collected through out the years, the accused foresaw, but, did not desired the particular outcome. When the accused failed to stop the given behavior, the defendants took the risk of causing the given matters, of the plaintiff's financial losses and mentally damaging his brain. Your honor, the defendants were always to some degree of intentionally consumed within recklessness during the course of their conduct, the accused foresees the plaintiff by putting his life at risk of injuring, a choice had been made at that point in time. By deciding to proceed, the defendants actually intended to expose the plaintiff, by putting his life at risk of injuring. The probability of evidence collected from the defendants, which given the risks the defendants took and matured into the foreseen injury at hand, to a greater degree of recklessness, and
31. Defamation, using the plaintiff's original trade secret Operating System software package. The Title: Human Rights For All- Copyrights 2005 to 2008, the plaintiff's novel assume two way radio communication, media player, digital video, digital audio, digital voice, digital sound and digital text messaging live broadcasting telephone Website text files database trade secret, the plaintiff's novel artificial intelligence software programs and applications, the plaintiff's novel autobiography Life Story and the plaintiff's trade secret cellular telephone number with live text messaging- Interruptible Feedback, (IFB,) number; world wide.
32. Federal Lanham Act; Title: 15 United States Code, Section 1125, (a) Section, 43 (a.)
False advertising and misleading statements.
33. Digital Millennium Copyright Act of 1998: Prohibits the falsification of copyright management information and distribution of works that contain such falsified information. The DMCA, also, prohibits the production, marketing or sales of a production service designed to circumvent these technological protections. For example, the DMCA to prohibit circumvention of DVD technology, when it stopped a programmer from distributing a software code designed to decode DVD and permit their copying. Universal City Studios Inc. V. Corley, 273 F.3d 4291 2d cir. 2001. Finally, the DMCA authorizes U.S. District Court clerks to issue subpoenas to service providers requiring them to identify an alleged online infringer. In addition, Congress passed the Family Entrainment and Copyright Act of 2005, which made it a criminal violation of copyright law to knowingly place a copyrighted computer program, musical work, motion picture or other audiovisual work or sound recording on a computer network accessible to the public, for purposes of copying. Your honor, the defendants are copyright infringing and derivative the plaintiff's literary works, the novel Life Story, the novel Website, the novel trade secret software package- HRFA, the novel trade secret cellular telephone number with live text messaging- Interruptible feedback, (IFB,) number; and the plaintiff's novel computer's artificial intelligence software program. Using the software package- HRFA, the Website, the trade secret cellular telephone number with live text messaging- Interruptible Feedback, (IFB,) number; to defame, interrogate and torture the plaintiff, from the plaintiff's Website, the plaintiff's computer's artificial intelligence software program and through the means of the plaintiff's novel trade secret cellular telephone number with live text messaging- Interruptible Feedback, (IFB,) number.

Complaints.

34. Your honor, the plaintiff claims the following defendants in question, who are copyright infringing on the plaintiff's Intellectual Property, for what is said below, for the following Intellectual Propriety items, the plaintiff's unregistered trade secret novel utility patent, copyright, trademark, trade name, an original computer Operator System trade secret software package. The Title: Human Rights For All, Human brain telepathy to a computer, controls the computer's digital video data information storage software program and the digital audio data information storage software program. The output/ input signal from the wireless Electroencephalograph, (EEG,) Head Gear Set Sensor, monitors the user's brainwave patterns in real time live feed input into the computer database in raw data information format and then sends a radio frequency signal data files and computer programs sharing, into the computer's user's database storage processor, from the computer's user wireless Electroencephalogram, (EEG,) Head Gear Set Sensor, monitors the live raw data information feed, of the user's brainwaves patterns, allows, the user to interact with the computer programs in real live time, with the computer's display interface programs, the digital video player or the digital audio player. From the input of the user's brainwaves patterns, the information is collected in raw data information format, the raw data information is then processed by using the software package- HRFA. Allowing, the computer user's to control an actor's prerecorded object in a digital motion picture or in a digital animated cartoon character object, for digital video data divertive movements digital divertive audio sound output/ input, digital divertive text output/ input, individual character's digital voice, audio, sound and visual movements output/ input, with the computer user's display interface control panel software program. Using the wireless Electroencephalography, (EEG,) Head Gear Set Sensor display interface control panel software program, the Bluetooth Head Set cellular telephone computer user's display interface control panel software program and the plaintiff's software package- HRFA, (**Computer passwords trade secret, computer source codes trade secret and computer object codes trade secret,**) is installed in the defendants' computers. The computer software that the defendants are infringing with, allows, the user to read the user's brainwaves patterns to entertain the person's logical suggestions. **Object code**, or an Object files contain compact code, often called "binaries". A linker is typically used to generate an executable or library by linking object files together. The only essential element in an object file is machine code, (Code directly executed by a computer's CPU.) Object files, for embedded systems might contain nothing but machine code; however, object files often also contain data for use by the code at runtime, relocation information, stack unwinding information, comments, program symbols, (Names of variables and functions,) for linking and/or debugging purposes, and other debugging information. **Source code**, (Commonly just source or code,) is any collection of statements or declarations written in some human-readable computer programming language. Source code allows the programmer to communicate with the computer using a reserved number of instructions, and
35. Also, the plaintiff's unregistered novel utility patent, trademark, trade name, copyright, an original novel assume two way radio communication, media player, digital video, digital audio, digital voice, digital sound and digital text messaging live broadcasting telephone Website and the plaintiff's unregistered autobiography author, Juan Louis Barboza, literature digital text novel autobiography Life Story copyright and an unregistered utility patent, trademark, copyright, an original software artificial intelligence. The Title: The Karaoke Man and the plaintiff's unregistered trade secret cellular telephone number with live text messaging- Interruptible Feedback, (IFB,) number; computer telephone integration software, that was leaked out in 2005 till 2008. Your honor, the defendants are infringing on the plaintiff's Intellectual Property, for radio and for TV commercial advertisements using the plaintiff's software package- HRFA and the plaintiff's cellular telephone number with live text messaging- Interruptible Feedback, (IFB,) number; the news reporters' ear piece and the radio D. J.'s head phones.
36. Defaults and fraud, for the patents applications and for misuse of the patents, for the Bluetooth Head Set and for the wireless Electroencephalography, (EEG.)
37. Relief in the amount of four hundred and fifty million dollars.

Opening statement.

38. Your honor, the plaintiff is not an attorney and will represent him-self at court. But, the plaintiff will try his best to explain his grievances. That Corporate America is violating the plaintiff's Constitutional rights and Civil rights. The defendants in question are copyright infringing on the plaintiff's Intellectual Propriety and violating his exclusive rights as an American citizen, for **Human Rights**, for exclusive inventor's rights, for exclusive author's rights, for exclusive copyrights, for exclusive patents rights and to promote the progress of science and useful arts that is provided in the U.S. Constitution. For learning novel ways to promote the studies of behavioral science, life, liberty and the pursuit of happiness, with the plaintiff's life long studies of, "**Objections of Family Histories,**" "**Government Improvements in The Justice System,**" and "**The Education of Tomorrow's Youth World Wide.**" Where in lies the outcome of the plaintiff's own studies of his novel Life Story in behavioral science from parallel life stories, doctors and the plaintiff, world wide, would make determinations on how to used the software package- HRFA, for achieving novel abilities to overcome difficult situations and to pursue happiness in one's life pattern. The plaintiff's own novel Life Story was studied through out the world, in which the world's, doctors and the plaintiff, had studied to helped the under achievers achieve in math, reading, writing and behavioral changes. The plaintiff developed novel ways of reading a book online, watching TV online, listing to radio online, watching a motion picture online: For economic commercially self implication advertisements and created a computer voice responds of self educational computer software intelligence program. The computer software program learns human vocabulary composition skills on its own using the computer's artificial intelligence with human intelligence, the student or the subscriber, voice respond speech software acknowledgements, computer control software programs command operating system software programs, helping, the student or the subscriber, to learn the digital text book bought online from the plaintiff's novel Website, too accredited the earn knowledge, for college credited courses, for the work environment, for commercial entertainment, for educational purposes, for commercially personal implication advertisements and stored the earned knowledge or useful arts, that had been obtained in the plaintiff's International Internet Network text files database storage processor trade secret from the plaintiff's novel Website. Allowing, the student or the subscriber, to recalled the learned knowledge on the plaintiff's novel Website text files database trade secret, in any behavioral science digital text book bought online from the novel Website, too recalled questions and answers from their reading experiences with the computers artificial intelligence software program, that was purchased online from the novel assume two way radio communication, media player, digital video, digital audio, digital voice, digital sound and digital text messaging live broadcasting telephone Website, in subjects that, the under achiever student or the subscriber obtained their earned knowledge from using the plaintiff's trade secret software pack- HRFA, from the plaintiff's computer generated Web software programs, from the software package- HRFA, for success of a life time, to be accredited in the novel Website digital text files database storage processor trade secret. To allow, the plaintiff's paying subscribers to have access to the novel Website, for entertainment in motion pictures online, for educational purposes, for Virtual Reality Video role playing interactions, for commercial advertisement broadcasting Viva the Internet, from the plaintiff's advertisement company and Website, interactions with other subscribers in text and audio chat, video games and Virtual Reality online video games world wide, too have a digital text files, raw brainwaves patterns data information text files databases space storage trade secret and to interact with other subscribers online in the plaintiff's novel Virtual Reality Website and video game counsel computer generated Web software programs, and

Opening statement.

39. From the plaintiff's novel assume two way radio communication, media player, video, audio, voice, sound and live text messaging live broadcasting telephone Website, the plaintiff's advertisement company had advertise to his paying subscribers and to himself, what they wanted, needed or something that we had have imaged to purchased from the privacy of our own home or in the public, using the plaintiff's novel assume two way radio communication, media player, video, audio, voice, sound and live text messaging live broadcasting telephone Website or any computer that has access to the Internet power by the plaintiff's novel Website, for economic commercial advertisements purposes, for sales of the plaintiff's novel digital text book items and for productions of the plaintiff's digital software data information altering, software programs digital audio and video data information storage, as a result the users have a multi- story ending.

Patents application fraud and Copyrights infringements.

40. Your honor, may the plaintiff request the court to acknowledge defaults and fraud on the following patents, assignee: Microsoft Corporation, the Electroencephalograph, (EEG,) application number: 11/349,859, publication number: US 2007/0185697 A1 and the Bluetooth Head Set, patent number: D494568. Also, for the court to acknowledge improvements with the existing patents, for the Electroencephalograph, (EEG,) patent and the Bluetooth Head Set patent. That is proved in the U.S. Constitution described in, **(Article I, section 8. To promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries.)** and
41. Your honor, the following corporations listed on paged 7, (1.) through, (24.) had have advertised and invested with the plaintiff's copyrights, between 2005 to 2008, with the defendants advertisement counsel, participated in the slandered of the plaintiff's name recklessly in the means of using the plaintiff's cellular telephone number with live text messaging- Interruptible Feedback, (IFB,) number and the plaintiff's novel assume two way radio communication, media player, video, audio, voice, sound and live text messaging live broadcasting telephone Website text files database trade secret, intentionally derivative, to defamed and copyrighted infringed, from the plaintiff's novel Life Story, the novel trade secret software package- HRFA, the novel Website text files database trade secret. Tamron Hall, **"Theft of a trade secret,"** is liable, for the leaked out of the entire plaintiff's trade secrets information world wide, between 2005 to 2008, for the plaintiff's novel trade secrets software package- HRFA, for the novel assume Website text files database trade secret, for the novel cellular telephone number with live text messaging, (IFB,) trade secret. She intended to converted the plaintiff's trade secrets to included in the products that is produced by Microsoft Corporation, for her own benefits, to placed in interstate and in foreign commerce to economically benefiting Microsoft Corporation and herself, other than the owner, Juan Louis Barboza, of the unregistered trade secrets patents and copyrights, knowing that the offense will injured the owner of the trade secrets, Juan Louis Barboza. Tamron Hall, **"Conspired to conceal,"** with the defendants and the Ad counsel of America that he is the owner of the novel trade secret software package- HRFA, the novel assume Website text files database trade secret and the novel cellular telephone number with live text messaging, (IFB,) trade secret, she would than defamed the plaintiff's credibility and sponsor the altercations of the software package- HRFA. Tamron Hall, would than faked news stories referring the plaintiff as a Sex Offender, **"Sexual harassment,"** a Child Abductor, a Pedophile and a Child Molester, world wide, telling the plaintiff's business investors and the public on her news talk show at Fox 32, between 2005 to 2007 and she would than broadcasted the novel Website text file database trade secret and the novel cellular telephone number with live text messaging, (IFB,) trade secret, **"False advertising and misleading statements,"** at Fox 32, between 2005 to 2007. Tamron Hall, will intentionally defamed the plaintiff's name with the following corporations listed on paged (7.) for advertisements sales, for copyright infringement software sales, for copyrights sales using the plaintiff's novel Website text files database trade secret and the plaintiff's novel Life Story copyright infringement, for the plaintiff's unregistered trade secrets patents and for the plaintiff's unregistered trade secrets copyrights, Tamron Hall, was destroying the plaintiff's credibility, world wide.

The second item on the plaintiff's list, request the court to acknowledge, for the sole proprietor Intellectual Property ownership, for the unregistered novel utility patent, trademark, trade name and copyright an original human brain telepathy to a computer software programs and applications. The Title: The Brain Writer- Copyrights 2005 to 2008. Abstract and claims of the software, (Micro- computer- processor- brain- chip- implant software program, the plaintiff's brain chip implant is a radio transceiver and electromagnetic brainwaves pulse reader, wireless Electroencephalography, (EEG,) output/ input to a computer reads his brainwaves patterns and then records real time live data information, 24 hours daily.)

52. (2.) Sends a radio signal to the plaintiff's cellular telephone cochlea implants, the cellular telephone cochlea implants sends a telephone number signal, (____ - ____ - ____,) two way voice communication and two way computer transferring data files information and computer programs file sharing, dial the telephone number on your mobile telephone or computer telephone or Interruptible Feedback, (IFB,) news and radio broadcasting stations, the (IFB,) number; is the news reporters' ear piece at the TV stations and the D. J.'s head phones at the radio stations and listen to my digital audio, digital sound, voice conversation and personal opinions, (Mind reading every thought, as the producer, as a **Ghost Writer: Neal Wolf**, on live radio and on live TV broadcasting air-waves using the, (IFB,) number; The plaintiff's Title: Was the producer, Juan Louis Barboza, as a ghost writer, Neal Wolf, at Fox 32, between, 2005 to 2007, live producing and live directing, from the plaintiff's human brain with the wireless, (EEG,) software program and the software package- HRFA, human brain telepathy to a computer, not a word spoken only using the mind reading telepathy computer software program, allows, the person to hear the plaintiff's thoughts, opinions and conversation, human brain telepathy through a telephone number to a cellular telephone or a computer telephone and real time live text messaging with text message data recording every thought the plaintiff thinks of per second 24 hours daily reading the plaintiff's brainwaves patterns from the Website and using the software package- HRFA. Output/ input from the computer, the user and the artificial intelligence software computer programs creates unique individual characters which then becomes creative ideas in text message files database, for short stories, for poems, for radio and for TV commercial advertisements, from the novel Website trade secret database processor storage. Computer passwords trade secret, computer source codes trade secret, computer object codes trade secret and cellular telephone number with live text messaging, (IFB,) number; trade secret from the software package- HRFA.

53. (3.) The third item on the plaintiff's list, request the court to acknowledge, for the sole proprietor Intellectual Property ownership, for the unregistered novel utility patent, trademark, trade name and copyright an original digital video, digital photography and digital hologram software programs and applications. The Title: Virtual Reality Hologram- Copyrights 2005 to 2008. Abstract and claims of the software, (Micro-computer- processor- eye- camera- multi-color- laser- chip- implants software program, the plaintiff's eye chip implants is a radio transceiver and a digital media video player.) Sends a radio signal to the plaintiff's cellular telephone cochlea implants, the signal is then covert to the Website, for the computer digital video camera data recording. The plaintiff's Virtual Reality Hologram software program is a state of the art hologram computer program, allows, the plaintiff to broadcast three dimensional digital videos, digital photos and digital short movies. Visual digital photography snapshots, multi-color laser guided screen shot, hologram software program uses the laser guided eye camera chip, for a three dimensional image produced by a split coherent beam of radiation, (Using the multi color camera photography software program, human laser implants,) and real time live digital video data recording, see what the plaintiff see through his eyes. Computer passwords trade secret, computer source codes trade secret and computer object codes trade secret from the software package- HRFA.

54. (4.) The forth item on the plaintiff's list, request the court to acknowledge, for the sole proprietor Intellectual Property ownership, for the unregistered novel utility patent, trademark, trade name and copyright an original radio to the Internet conversion software programs and applications. The Title: The Internet Phone to The Brain- Copyrights 2005 to 2008. Abstract and claims of the software, trade secret telephone number, (Wireless hearing aid cellular telephone cochlea implants, is a radio transceiver two way digital audio voice, digital video, two way text message, microphone, computer software program Global Positioning System, wireless access to the Internet computer display interface control panel software program, cellular telephone and computer combined as one, cellular telephone radio signal is then converted to the plaintiff's assume Website to a computer's user display interface control panel software program, allows, the plaintiff's to broadcast his voice and text message to the assume Website. Similar technique to the plaintiff's software package- HRFA are used at the radio stations and at the TV stations using the software conversion kit to the Internet, converts live audio feed, live video feed, to their assume Website, wireless access to the Internet to their assume Website using the computer software program- HRFA.) Connected to the trade secret cellular telephone number, (IFB,) allows, the plaintiff to gain wireless access to the Internet from the trade secret cellular telephone number, (IFB,) for downloading 24 hours daily, live text message, live digital audio voice, live digital video and live raw brainwaves data information text message processor, to the plaintiff's assume Website and than broadcasting live to the world from the plaintiff's assume Website on the World Wide Web. Computer passwords trade secret, computer source codes trade secret and computer object codes trade secret from the software package- HRFA.
55. (5.) The fifth item on the plaintiff's list, request the court to acknowledge, for the sole proprietor Intellectual Property ownership, for the unregistered novel utility patent, trademark, trade name and copyright an original artificial intelligence software programs and applications. The Title: The Karaoke Man- Copyrights 2005 to 2008. Abstract and claims of the software, the radio stations and the TV stations have had upgraded from the plaintiff's software package- HRFA to the Internet. Allows, the radio stations and the TV stations to broadcast from their stations to the Internet, converted the radio signal and the TV signal. The plaintiff's computer program converts the signal from their radio transceiver signal is sent to their assume Website from a copy of the software package- HRFA. Similar methods are parallel to my ways of communication to the radio stations and the TV stations, (IFB,) number; the news reporters ear piece and the D.J.'s head phones. The radio frequency and the TV frequency signal is sent to the Internet using the plaintiff's software conversion kit to their assume Website, the software is installed on the defendants' computer currently. Computer passwords trade secret, computer source codes trade secret and computer object codes trade secret from the software package- HRFA.
56. (6.) The sixth item on the plaintiff's list, request the court to acknowledge, for the sole proprietor Intellectual Property ownership, for the unregistered novel utility patent, trademark, trade name and copyright an original virtual reality software programs and applications. The Title: Virtual Reality Interaction Video- Copyrights 2005 to 2008.

57. (6.) Abstract and claims of the software, the plaintiff's trade secret software computer control Operating System, (Computer scripting languages, design to control other software programs,) controls the digital video, digital TV shows, digital cartoons shows, digital audio voice, digital animated characters and the prerecorded actor motion picture, creates multi- ending stories, human brain operator utility wireless, (EEG,) and the similar software as the Bluetooth Head Set computer display interface, the software package- HRFA human brain operator computer telepathy controls the digital video, digital audio and individual characters the outcome of the plaintiff's computer programs creates multi- story ending as the result, real time digital video and digital audio live interaction database processing video, audio an visual motions, using human brainwaves patterns and the computer's artificial intelligence software program. Currently, the plaintiff is testing the computer control software program on several radio frequency antenna transceiver tower, cellular radio frequency antenna transceiver tower and television radio frequency antenna transceiver tower. Locations: In the State of Illinois, City of Chicago, all across America and world wide.

(1.) **Sears Tower radio and television:** Radio frequency antenna transceiver tower.
233 South Wacker Drive, Chicago, Illinois 60606.

(2.) **John Hancock Center, radio, Internet, and television:** Radio frequency antenna transceiver tower, 875 N. Michigan Ave. Chicago, Illinois, 60611.

(3.) **Clear Channel Com, radio, and Internet:** Radio frequency antenna transceiver tower.
WVON Radio Station, FCC Tower Number: 1058278, 3350 S Kedzie, Chicago, Illinois, 60623.

(4.) **AT&T Cellular Telephone: Cellular telephone, wireless high speed Internet:** Radio frequency antenna transceiver tower. Cingular AT&T, FCC Tower Number: 1009155, 1003 S Washtenaw, Chicago Illinois, 60612.

58. (6.) The radio, the TV, the cellular telephone and the wireless Internet high speed service provider companies had obtained the plaintiff's software package- HRFA **illegally** obtained copies from, "**Tamron Hall,**" in the summer of 2005 till 2008, (**The Economic Espionage Act of 1996 and Theft of trade secrets.**) Infringing on the plaintiff's Intellectual Property software package- HRFA, is, currently, installed on the defendants computer operator systems in the locations in what was said above, (1.) through, (4.) The plaintiff is, currently, testing the software package- HRFA, computer control Operating System on/ off remote control light switch, at these locations sites in Chicago Illinois and for what was said above, (1.) through, (4.) For accurate computer control artificial intelligence remote light switch computer software program, responds to a **Light Bulb** attach at the tip of the radio antenna towers. Artificial intelligence remote control switch, computer generate software program switch **on/ off**. Using the Wireless Electroencephalography, (EEG,) Head Gear Sensor and the software package- HRFA, directly controls the computer software program, remote control light switch on/ off, allows, the Light Bulb to blink on/ off at the locations what was said above, (1.) through, (4.) on the plaintiff's command the towers light bulb will blink on/ off.

59. (6.) For example, a light switch in your home and office or turning your computer on/ off by remote control using the software package- HRFA, utilities reasons for commercial usage at residential homes, commercial building offices and traffic streets lights, giving the computer user the capability to turn on/ off, basic home and office appliances on/ off. Computer testing started, between 2006 to 2008, all copyrights reserved. Computer password trade secret, computer source codes trade secret and computer object codes trade secret from the software package- HRFA.
60. (7.) The seventh item on the plaintiff's list, request the court to acknowledge, for the sole proprietor Intellectual Property ownership, for the unregistered novel utility patent, trademark, trade name and copyright an original assume two way radio communication, media player, video, audio, voice, sound and live text messaging live broadcasting telephone Website. The Title: Unknown- Copyrights 2005 to 2008. Abstract and claims of the assume Website. Real time live output/ input raw brainwaves patterns from the, (EEG,) software program, data information, output/input to the computer connected to the Internet to the trade secret telephone number with the software package- HRFA 24 hours daily. The Title: The Internet Phone to The Brain. The plaintiff's novel assume two way radio communication, media player, video, audio, voice, sound and live text messaging live broadcasting telephone Website is use for the sales of commercial advertisement radio and TV, for the sales of novelty items, for creative movie ideas, for creative book ideas in text files database and for creative video game ideas in text files database from the plaintiff's assume Website. An unregistered assume Website, (An original Web news media live interaction real time real life human brain computer telepathy, live text messaging and live audio voice recording 24 hours daily, with a computer's artificial intelligence speech recognition responds program, human intelligence versus computer's artificial intelligence Viva the Internet, human voice which is the plaintiff's conversations with the computer's artificial intelligence responds program, live data processing information, output/ input of the computer's programs, creates literature text files database, creates unique characters, creates short stories and creates poems, e.g..) Audio voice human being computer speech recognition intelligence program using the cochlea cellular telephone implants sends a radio signal using the trade secret cellular telephone number, human telepathy to a computer combined with an artificial intelligence computer audio voice speech recognition respond program, real time live audio sound recording database storage and real time live text messaging recording database storage.) Computer software program that, allows, the plaintiff to control other software programs Viva the Internet, from the software package. The Title: Human Rights For All,) and using the trade secret cellular telephone number and live text messaging on your cellular telephone or your home or office computer telephone in all connected to the plaintiff's computer software Web programs computer generated Website and computer generated cellular telephone interrogation software programs.)))) For copyright infringement of the literary text files posted on the plaintiff's assume Website text files database trade secret. Computer software program artificial intelligence voice data processing on the assume Website, the output/ input of the computer's software program, creates ideas, for short stories and creates individual character, independently from the under line computer program, too the computer database text and audio processor software program, used in the radio stations and the TV stations in The United States of America, The United Kingdom, The Continent of Africa and Asia, connected directly to the plaintiff's trade secret telephone number using the software package- HRFA.
61. Your honor, may the plaintiff request the court to obtain copies of his Intellectual Property software package. The Title: Human Rights For All software programs and applications, with Webmaster passwords, computer instruction codes, computer passwords, computer source codes, computer objects codes and the trade secret telephone number: (___ - ___ - ___) and

62. Your honor, may the plaintiff also, request the court to obtain copies of the plaintiff's Intellectual Property software programs, computer instructions codes, computer passwords, Webmaster password and the telephone number and for the following list of Intellectual Property listed items below, (1.) through, (10.)

- (1.) The Title: Human Rights For All, all rights reserved 2005 to 2008.
- (2.) The Title: The Brain Writer, all rights reserved 2005 to 2008.
- (3.) The Title: Virtual Reality Hologram, all rights reserved 2005 to 2008.
- (4.) The Title: The Internet Phone to The Brain, all rights reserved 2005 to 2008.
- (5.) The Title: The Karaoke Man, all rights reserved 2005 to 2008.
- (6.) The Title: Virtual Reality Interaction Video, all rights reserved 2005 to 2008.
- (7.) The assume Novel Website: The Internet Domain. The Web Address HTTP: Two way radio communication, media player, video, audio, voice, sound and live text messaging broadcasting telephone Website, all rights reserved 2005 to 2008.
- (8.) The trade secret Cellular Telephone Number with Live Text Messaging: (____-____-____) computer telephone integration software, computer User's Interface Display Panel Control software all rights reserved 2005 to 2008.
- (9.) The Interruptible Feedback, (IFB,) Number: (____-____-____) ear piece, the news reporters at TV stations and the D J's Head phone at the radio stations,) in current usage at the radio stations and at the TV stations in the United States, wireless access to the Internet computer software, using the software package- HRFA, all rights reserved 2005 to 2008.
- (10.) Wireless Electroencephalography, (EEG,) Monitoring brainwaves patterns A to G.
wireless EEG computer interface display panel control software program all rights reserved 2005 to 2008.
 - (A.) Delta: To monitor brainwaves when you sleep, Delta patterns is the slowest wave frequency range up to 3 Hz.
 - (B.) Theta: To monitor brainwaves adults for meditation, frequency range from 4 Hz to 7 Hz.
 - (C.) Alpha: To monitor brainwaves during the periods of waking relaxation with the eyes closed, frequency range from 8-12 Hz.
 - (D.) Mu rhythm: To monitor brainwaves your mental imagery of movement contra lateral, (Conjunction with a part of the opposite side of the body,) arm.
 - (E.) Beta: To monitor brainwaves when you are active, busy or anxious thinking and concentration, frequency range from 12-30 Hz.
 - (F.) Gamma: To monitor brainwaves Gamma rhythms are different population of neurons together into a network for the purpose of carrying out certain cognitive or motor function, frequency range from 26-100 Hz.
 - (G.) Juan Louis Barboza: To monitor his complete brainwaves patterns, his every movement, his every mental judgment, to be in virtual reality 24 hours daily, 7 days weekly, 365 days yearly. The original artificial intelligence software program allowed the plaintiff's own subconscious to be heard in virtual reality and now that the defendants infringed on the plaintiff's software package- HRFA. The defendants had divertive the software package- HRFA, and

63. (10.) (G.) The defendants are sending a repeated signal from the computer's artificial intelligence software program, voice speech recognition, to the plaintiff's hear aid cellular telephone cochlea implants. First of all, the micro brain chip wireless, (EEG,) reads the plaintiff's brainwave patterns, the brain chip sends a radio signal to my hear aid cellular telephone cochlea implants, the cellular telephone number is than transfer to the plaintiff's Website. Second of all, the utility function of the artificial intelligence software program is then converting the raw data information that is gathering through out the day to help the computer intelligence to better understand the game player in virtual reality world, you have the live brainwaves monitor database, you have, Juan Louis Barboza's virtual reality computer database text files Website where the entire plaintiff's creative works of literature ideas are stored at. Third of all, the combined data information is than processed and the computer's divertive artificial intelligences, creates force artificial voice intelligence to suppress, **(Freedom of speech,)** censorship in the plaintiff's own human brain, Juan Louis Barboza, is, currently, being force to listen to the defendants artificial intelligence computer program. Finally, request the court to obtain copies of the original copy of the artificial intelligence software program, a copy of the divertive artificial intelligence software program and the defendants to cease and desist the divertive artificial intelligence software program all rights reserved 2005 to 2008.
64. Your honor, may the plaintiff request the court to acknowledge, for the sole proprietor Intellectual Property ownership, inventor rights on the software package. The Title: Human Rights For All.
65. Your honor, may the plaintiff request patent and copyright protection from the defendants to stop from unauthorized copying and the right to install Digital Rights Management protection and also, patent and copyright protection from reverse engineering with the software package- HRFA and protection from derivative creative works of literary text files database from the outcome of the computer programs from his Real Life Website to the world, and
66. Your honor, may the plaintiff request the court, for actions against any an unauthorized company who are infringing on the trade secret software package- HRFA to be destroyed and any information related to the trade secrets information. Request the court to order the defendants who are unauthorized too cease and desist software package- HRFA, Website and trade secret cellular telephone number with live text messaging, (IFB,) number; usage. The defendants to destroy any trade secrets text files database information and computer programs from the software package- Human Rights For All, and
67. Finally, request the defendants to sign a Nondisclosure, (Trade secret information, confidentially form.)

68. Your honor, the defendants are copyright infringing on the plaintiff's Intellectual Property, the trade secret computer storage database creative literature ideas from the text files database posted on the plaintiff's novel Website and the plaintiff's novel Life Story, from the original software package. The Title: Human Rights For All, combined with the novel real life Website and the trade secret cellular telephone number with live text messaging, (IFB,) number; was leaked out to Fox 32, May 20 2005, (The Economic Espionage Act and Theft of trade secrets,) and then to Corporate America, The UK, to Africa and Asia, between 2005 to 2008.
69. Your honor, may the plaintiff ask the court to acknowledge that the defendants in question had sold the copyright items unauthorized by the plaintiff, for sales of the unregistered novel patents, for the unregistered novel copyrights, for the unregistered novel Life Story and are copyright infringing from the plaintiff's novel assume two way radio communication, video, audio, voice, sound and text messaging broadcasting telephone Website, Web-pages, for radio and for TV commercial advertisements from the plaintiff's trade secret Website text file database storage information. To the computer companies, the radio stations and the TV stations through the means of electronic-mailing and electronic-commerce, **(The Economic Espionage Act,)** for entertainment advertisements in commercial sales to radio broadcasting stations, to TV broadcasting stations, for motion pictures, for theatrical plays and for premise of a story line, for video games, for commercial advertisements. The novel patents, the novel copyrights and the novel authorship Life Story, your honor, the plaintiff is the only person with the legal rights to claim the patents and the copyrights, under his name, Juan Louis Barboza, the owner of the trade secrets computer generated Web software programs and applications, Website text files database storage information trade secret, trade secret computer Operating System software programs and applications- HRFA, the novel Life Story, the novel trade secret cellular telephone number- Computer generated interface display control panel computer telephone intergeneration software programs and applications.
70. Your honor, the defendants are copyright infringing on the plaintiff's creative ideas, trade secrets information, from the plaintiff's novel unregistered patents and the novel unregistered copyright software Computer Codes Instructions, Website text files database information and computer programs, from the novel Website, for commercial advertisements used at the radio stations and at the TV stations and also, for Hollywood movies, for TV series shows and for news stories, that was leaked out to Fox 32 and too, Tamron Hall, in the summer of 2005, the novel unregistered patents, the novel unregistered copyrights the defendants are copyright infringing on.
71. Your honor, for further evidence confiscate May, June and July of 2005, at Fox 32, the morning show, between 5:00 am to 9:00 am, the plaintiff could recalled, Tamron Hall, said on live air the only thing they can release from the software package was the, (Bluetooth Headset, patent number: D494568.) Software infringement from the software package- HRFA and that was around the same time she released the Website and the trade secret cellular telephone number, on air at Fox 32, in May of 2005.
72. Your honor, than behind the cameras, Tamron Hall, than traded all the plaintiff's trade secrets Information, the software package- HRFA, the trade secret Website text files database information, the trade secret cellular telephone number, (IFB,) the Website domain codes, through electronic mailing, **(Unfair competition,)** in May of 2005 till 2008, to all the other news stations and radio stations, world wide and the leaked began, the software companies, news stations and radio stations did not obtain consent from the owner, Juan Louis Barboza, the sole proprietor ownership of the software package- HRFA patents and copyrights.

73. Your honor, on January 28 2007 and on July 31 2008, the plaintiff gave, (**Power of attorney,**) to, Tamron Hall, to protect and place the novel patents, the novel copyrights, the novel Life Story, the novel Website, the novel software package- HRFA and the trade secret cellular telephone number, on the United States stock market, for movie deals, for book deals, for TV and for radio commercial advertisements, the novel patents and the novel copyrights to Corporate America. To protect the copyrights, (**As a Ghost Writer,**) at Fox for "House M.D," TV-show series, "American Dad," TV- show series and "The Insider," TV show series. The software package- HRFA, was used for radio talk shows, TV talk shows and commercial advertisements. The plaintiff's latest TV show series, for commercial advertisement (**As a ghost writer,**) on Fox the TV series, "Fringe." The plaintiff's company did not sell the rights to the novel patents, the novel copyrights, the novel Life Story, the novel Website, the trade secret cellular telephone number, my software package- HRFA, it is only for lease. Tamron Hall, had patented and copyrighted and leased it to Google before she left Fox 32, in June of 2007, it was not, for sale, but, it was, for lease to allot other corporations other then Google and Microsoft Corporation.
74. Your honor, it is, for lease, for the U.K. and Asia and other countries under a computer text files databases trade secret and needed to sign a confidentially form who are friends to The United States of America and will not own author rights or copyrights or patent rights to the novel software package- HRFA and will only have leasing rights.
75. Your honor, the DMCA, authorizes U.S. District Court clerks to issue subpoenas to service providers requiring them to identify an alleged online infringer. I request the court, for an audit, to confiscate billing information related to the trade secret cellular telephone number, the software package- HRFA, the Website and the novel Life Story, for sales, for radio and for TV and for motion pictures, for commercial advertisements, for movie contracts, for TV show series contracts, for book contracts, for the (IFB,) number; (The news reporters ear picce and the D.J's Head phones,) for the Web-pages and for the novel Life Story. The Bluetooth and wireless Electroencephalography, (EEG,) software infringement from the software package- HRFA, for plagiarism the plaintiff's literal works and creative ideas from the Website text files database, the cellular telephone number live text messaging, located at, (Fox, News Corp, CBS, ABC, NBC, WGN, Clear Channel Com, Google and Microsoft Corporation.)
76. Your honor, the plaintiff's trade secret sole proprietor ownership software package- HRFA belongs to the plaintiff, Juan Louis Barboza the software package- HRFA, the original mind reader software and the original artificial intelligence software program is the plaintiff's right to patent and to copyright. The plaintiff will take any corporation to court that has claim the mind reader software program, telephone number to the plaintiff's brain- chip implant, cellular cochlea implants, (IFB,) number; computer passwords, computer source codes, computer object codes, HTTP: computer programs, computer codes to his Website, Web- pages and his artificial intelligence software program, and
77. Wherein fore, Corporate America is flooding the plaintiff with repeated phases, "A Sex Offender, a Child Abductor, a Pedophile and a Child Molester," The Eight Amendment. (**Nor cruel and unusual punishments inflicted,**) To torture and interrogate him by using the cellular telephone number, the Website and the software package- HRFA,) and suppress any intelligent emotions that the plaintiff may have, the plaintiff's right to have basic opinions in his own mind and the way that the plaintiff's thought patter process. Infringing on his right to The First Amendment, (**Freedom of Speech,**) At Corporate America, will not stop interrogating him in till a civil judge listen to his case.

78. Your honor, Tamron Hall, started to promote the plaintiff in the summer of 2005. That was when the original artificial intelligence software program was derivative to The Karaoke Man software program for the premise to torture and to interrogate the plaintiff, for three years, by altering the software package- HRFA, the torturing and the interrogating of the plaintiff started at the radio station 107.5 WGCI and at the Television News Station Fox 32, September of 2005 the same time the plaintiff was attended Wilbur Wright College, 4300 N Narragansett Chicago IL, Telephone number: (773) 777-7900, in fall of 2005 and then the building's manger last name: Dragan, Telephone number: (773) 638-6095. Dragan and unknown business investors continue to torture and to interrogate the plaintiff. The building's manger Dragan resided at 5531 w Irving Park Rd, between, August 30 2005 to April 30 2006, the plaintiff resided at the apartment # 310 and the manger resided in the apartment below where the plaintiff resided at, in the apt # 211, he was using the cellular telephone number, the manger taped recorded his own voice and started to torture the plaintiff by using his own voice, he would send a repeated voice signal, calling the plaintiff a child molester and a rapist and a pedophile, for eight months, his voice recording was integrated to the artificial intelligence software, the Website and the computer cellular telephone software to torture, interrogate and defamed the plaintiff, for three years, using the software package- HRFA, the Website and the cellular telephone number and now the derivative artificial intelligence software program is, currently, left on, for 24 hours daily with out the plaintiff's consent, "Violating My Freewill To Think," from what was recorded from Dragan's recording equipment.
79. Your honor, The Karaoke Man software program signal is combined with the plaintiff's brain chip implant, the cochlea implants and the cellular telephone number in all connected to the Website, is infringing on the plaintiff's rights of his free will to think, violating the plaintiff's rights to The First Amendment, **Freedom of Speech** and The Ninth Amendment. The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people, and
80. Tamron Hall, lost the ability of freedom of press when she faked news stories, (False advertising and misleading statements,) in summer of 2005 and claim I was Christ or God, and a child abductor, for radio and for TV promotions in the summer of 2005 to 2008.
81. Your honor, the brain chip reads the plaintiff's mind sends a radio frequency signal to the cochlea implants left ear and right ear. The cellular cochlea implants and the cellular telephone number sends a radio signal using wireless access to the Internet software program. Then the artificial intelligence voice responds, an automatic intelligence program to interrogate and to torture the plaintiff, human intelligence versus artificial intelligence. The methods are through wireless connection to the Internet from the cellular telephone number to a computer with similar software as the software package- HRFA, the Bluetooth computer user display interface panel control software and the wireless Electroencephalograph, (EEG,) computer user display interface panel control software, is, currently, installed in the defendants computers, which let's the radio signal from the computer pass data information to a cellular telephone, the artificial intelligence combined with the cellular telephone number connected to the implants is then broadcasted from the Website.

82. Your honor, the plaintiff is taking Corporate America to federal civil court that is torturing and calling the plaintiff a child molester, a child abductor, a pedophile, using the artificial intelligent software program and broadcasting on the plaintiff's Website, to the cellular telephone number to torture and interrogate the plaintiff, with no prove, the plaintiff is not a sex offender or ever will the plaintiff become a sex offender and using the trade secret cellular telephone number with live text messaging 24 hour daily and copyright infringing on his Author rights to improve the patents and the copyrights under his name: The Inventor and The Producer, Juan Louis Barboza and as a Ghost Writer, Neal Wolf.
83. Your honor, the Chicago advertisement counsel was promoting the torture sexual oppression, mentally impairing the plaintiff's neurons, brain damaged, (Infliction of Emotional Distress,) torturing the plaintiff mentally and interrogating the plaintiff with the artificial intelligence software program at Chicago IL, between, 2005 to 2008 and the plaintiff was confronted by computer hackers and private investigators, from rival software corporations, news companies and radio companies, for the sex offenders such as Michael Jackson and Robert Sylvester Kelly court cases. Corporate America is infringing on the plaintiff's copyrights and violating his human rights using the software package- HRFA, the cellular telephone number, the Website, the software package- HRFA was derivative, to brain wash and torture the plaintiff mentally damaging his brain using the novel Life Story, the cellular telephone number and the Website, to defame and to torture the plaintiff. To achieve their lies the defendants will let third party companies to torture and have the press, allow, other companies to steal from the trade secret software package- HRFA. Relevant, to the matters Corporate America will never, allow, facts to be presented to them in till the plaintiff goes to a federal civil court. To sue the private and to sue the public and obtain legal patents rights, legal authorship rights and legal copyrights on the plaintiff's life long novel copyright software package-HRFA. Parallel worlds they claim with the plaintiff and the plaintiff will never let them infringe on the software package- HRFA or Website or cellular telephone number. The defendants started to torture the plaintiff with the software at Fox 32 and using the World Wide Web with the software package. They are still claiming that they are the owner of the mind reader software package-HRFA and claiming that the plaintiff is a sex offender in true, Juan Louis Barboza, is not a sex offender or he will never become a sex offender. Defamation using the software package and name, **Torts:** negligence and invasion of privacy and identity theft, conspiracy to commit fraud, located at, (Fox, News Corp, CBS, ABC, NBC, WGN, Clear Channel Com, Google and Microsoft Corporation.)
84. Your honor, Tamron Hall, was using the actor's name: Kelly Wolf, in June of 2005 to 2007. Kelly Wolf parallel to the actor's name: Tamron Hall. Neal Wolf actor and director independent mind reader trade secret, Juan Louis Barboza, as a **Ghost Writer** in May of 2005 to 20-07 at Fox 32, the real life news reporter, Kelly Wolf, NBC- 12 Lona Wisconsin. (The plaintiff has a VHS video tape on this day 2- 4- 2000,) National Job Shadow Day,) from Blackwell WI, Job Corp Center, student's name: Juan Louis Barboza, graduated, July 1 2000,) and
85. On April 6 2007, the plaintiff was put in jail, for trespassing, for filling an application at Fox 32, for a freelance news reporter and to prove that the plaintiff is the owner of the software package- HRFA, the cellular telephone number, (IFB,) and the Website, that was leaked out too, Tamron Hall.

86. Your honor, the day the plaintiff lost his privacy, (April 04, 2004, Tony Honre,) Tamron Hall, had a real life stalker. The week before, Tamron Hall, released the plaintiff's brain telephone number and the Website. David Norravo had reported that, Tamron Hall, had a stalker name, "**Tony Honre.**" Relevant, to the truth, with out a doubt on June of 2005, the TV Series that Fox 32, was promoting the plaintiff, for parallel stories was broadcasted from Fox 32, news stories and (The Insider TV series, promotions,) a show about stalkers and sex offenders unknown to the plaintiff at the time, Intentional Infliction of Emotional Distress, caused by Fox 32 and WGCI, that the plaintiff was becoming a victim of live brainwaves monitoring recreation of his novel Life Story, the plaintiff's personal and private opinions from the software package- HRFA, the cellular telephone number, the Website, the mind torture began, and
87. Your honor, using the brain telephone number the plaintiff became, a part of a Live Television Interaction Show, the TV Series, (The Insider,) that was broad casted on Fox 32, in the summer of 2005; the plaintiff was advertising in live brain reading human telepathy to a computer, The Lanham Act: False advertising and misleading statements, for three years 2005-2008, a real recreation of his opinions from his subconscious to a computer software programs and applications, telepathy to a computer Operating System human telepathy command control software program, than would alter the out come of the TV Series " The Insider," using the cellular telephone number and software package- HRFA, the plaintiff had introduced himself to The World Wide Web and being a part of a Live Television Interaction Show included, with live interaction news media, with Fox 32, Newscasters. Also, helping and defining, rules and regulations, for the software package- HRFA, between 2005 to 2008.
88. Your honor, taking no consideration, for the plaintiff's privacy or human rights, Fox 32, will broadcasted the trade secret cellular telephone number, (IFB,) and the Website using an alias name and broadcasted that the plaintiff is a child abductor and anything else Fox had wrongfully accused the plaintiff of, rather than irrelevant facts that Fox 32, was wrong. Negligence had to be the reason why Fox 32, promoted the radio signal using the artificial intelligence to his brain to disable his way of thinking normally, mentally damaging his brain and violating the plaintiff's rights to, (**Freedom of Speech,**) with in the plaintiff's own brain using the software package- HRFA, the telephone number, the Website, from May of 2005 to 2008, to confuse his mind and never let him become a successful in Fall of 2005. Than left the plaintiff to rehabilitation of his own subconscious and still have in present time The Karaoke Man Artificial Intelligence computer program turn on. It left the plaintiff to lose his right to privacy violating the plaintiff's right to The Fifth Amendment: (**Nor shall private property be taken for public use with out just Compensation,**) censorship for the plaintiff's own personal private thoughts. Relevant, to the facts a random pre-recorded intelligence voice of a torture signal nick named --- (The Karaoke Man,) was sent to the plaintiff. An alphabet computer program respond first live thought from the brain will active a numerically speech of defamation, a computer program responds mode 24 hours on, it turns off only when the plaintiff falls to sleep, and
89. The software, for the artificial intelligence program is used with the human brain; the brain itself is used as an output signal to the computer, for speech cognitive thinking with the computer programs and used with the software package- HRFA, the trade secret cellular telephone number and the Website, and

90. Virtual Reality a direct vision of a movie to your inner subconscious. Live television directing, changes the out come of the ending, a two to three story ending. A new wave of writing a story book by using the software package- HRFA, the person, Juan Louis Barboza, with the implants and the software to the novel Website using the World-Wide-Web, with the, (Artificial intelligence,) and
91. Your honor, May 20 2005, the trade secret cellular telephone number, (IFB,) and software editions were sent to the radio stations and the television stations leaked out by, Tamron Hall, in May of 2005, the cellular telephone number, (IFB,) and the Website, was broadcasted in Chicago IL 2005.
