POWER OF ATTORNEY

Including Power to make Charitable and Other Gifts
Know All Men By These Presents:

I, Ted W. Baxter, residing at
Eden Glen #202, 4-22-3 Japan in Tokyo, Japan, do hereby
constitute and appoint my wife, Kelly S. Baxter, residing at
Eden Glen #202, 4-22-3 Japan in Tokyo, Japan, my true and lawful
Attorney-in-Fact, for me and in my name, place and stead, to make, sign, seal, endorse,
accept, execute, acknowledge and deliver any and all contracts, agreements, specialties,
acquittances, assignments, leases, transfers, deeds, instruments of conveyance, mortgages,
bonds, notes, checks, drafts, bills of exchange, orders for the payment of money and other
instruments and obligations of every kind, whether of a similar or a different nature, and
generally to do all things which in the judgment of said Attorney are necessary or advisable
to be done for me or on my behalf, either within the State of New York or elsewhere in the
world, in connection with my affairs and business or in connection with my property as
hereinafter defined; and in particular, without in any way limiting the broad and general
powers which it is my intention to confer upon said Attorney, on my behalf and for my
account, and either in my name or otherwise:

- (1) to receive all dividends and interest which may be or become payable on any shares of stock, bonds, notes or other securities as hereinafter defined;
- (2) to buy and sell stocks, bonds and other securities and commodities and other property through any firm or firms of brokers or otherwise, and to pay customary brokerage and other commissions and expenses in connection therewith;
- (3) to vote as my proxy at any meeting of a corporation, association or other entity, or of securityholders of a corporation, association or other entity, in respect of any stock or other securities held by me and for that purpose to sign any proxy or other instrument;
- (4) to commence and carry on, or to defend, all actions, suits or other proceedings which affect or may affect anything in which I or my property may be in any way concerned, and to settle or discontinue the same;
- (5) to demand, sue for, enforce payment of and receive and give discharges for all moneys, debts, rents and other claims of every kind belonging to me;
- (6) to settle, compromise or submit to arbitration all accounts, claims and disputes between me and any other person as hereinafter defined;
- (7) to deposit all income and other moneys becoming payable to me or realized from my property with any bank, trust company, partnership or other person, as said Attorney may deem advisable, and to withdraw, by check or otherwise, and invest the same in such investments, or to use the same for such other purposes, as said Attorney may deem advisable;
- (8) to make such arrangements for the custody or safekeeping of any or all of my property as said Attorney may deem advisable, and from time to time to change or terminate any arrangements for such custody or safekeeping which have heretofore been or may hereafter be made;
- (9) to consent to and participate in any reorganization, liquidation, merger, consolidation or readjustment of any corporation, association or other entity the stocks or other securities of which I may hold, and in connection therewith to exchange such securities for new securities and to make such payments or other commitments as said Attorney may deem advisable;
- (10) to pay, out of my funds, any and all debts, taxes, expenses and amounts now or hereafter owing, or believed by said Attorney to be owing, by me to any person;

I hereby give and grant to said Attorney full power and authority to make gifts on my behalf (i) to charitable organizations in the form of cash or property or interests in property provided that in the judgment of said Attorney such gifts are deductible for tax purposes, and/or (ii) to individuals, to trustees or to custodians under the Uniform Gifts to Minors Act in the form of cash or property or interests in property, whether in amounts equal to the annual exclusion for gift tax purposes or in greater or lesser amounts.

I hereby give and grant to said Attorney full power and authority to place all or any part of my assets in a revocable trust of which I shall be the sole beneficiary (but with power of withdrawal reserved to my said Attorney for any purpose authorized or permitted under this power of attorney) with remainder payable to my estate, in such form as may be approved by Messrs. Craveth, Swaise & Moore or by my regular legal counsel, with any one or more individuals (including my said Attorney) and/or a corporation as trustee or trustees thereof.

The authority granted by this instrument shall extend not only to all property which I now own or possess but also to all property which, while this power of attorney shall continue in force and unrevoked, I or said Attorney, acting hereunder, may acquire by purchase, exchange, gift, devise, bequest or in any other manner.

Said Attorney shall have full power to appoint a substitute or substitutes to exercise in the place and stead of said Attorney, and as my attorney-in-fact or attorneys-in-fact, any or all of the powers (including the powers granted by this paragraph) which by this instrument I have conferred upon said Attorney, and at the pleasure of said Attorney to revoke any such appointment.

I hereby give and grant to said Attorney full power and authority to do and perform every act or thing which said Attorney may deem necessary or advisable in and about the premises as fully to all intents and purposes as I could do if I were personally present and acting and I hereby ratify and confirm all that said Attorney or any substitute or substitutes appointed as above provided shall lawfully do or cause to be done by virtue hereof.

THIS POWER OF ATTORNEY SHALL NOT BE AFFECTED BY MY SUBSEQUENT DISABILITY OR INCOMPETENCE.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this 7 day of June, 1996.

Ted W. Baxter [L.S.]

(11) to borrow money in such amounts as said Attorney may deem advisable, and to execute therefor notes, bonds or other obligations on such terms as said Attorney may deem advisable;

(12) to give security for any money so borrowed by the mortgage or pledge of any of my property and to execute, acknowledge and deliver such instruments as said Attorney may deem appropriate to make such mortgage or pledge effective;

(13) to sell, convey, exchange or otherwise dispose of any or all of my real estate, leases, leaseholds or other property partaking of the nature of real estate, for such prices and upon such terms and conditions, and either with or without covenants and restrictions and either at private or public sale, all as said Attorney may deem advisable, and to sign, seal, execute, acknowledge and deliver contracts of sale or exchange, assignments and deeds or other instruments of conveyance, and to mortgage, develop, alter, repair, improve, insure, let or lease, manage and otherwise deal with any of such real estate or other property and each and every part thereof, in such manner and to such extent and for such length of time and upon such terms and conditions as said Attorney may deem advisable;

(14) to make, execute and file any and all declarations, returns, waivers, consents, and other instruments or forms relating to Federal, State, municipal and other taxes or assessments, including income, property, excise and other taxes of whatever nature and whether imposed by any domestic or by any foreign authority, and in connection with any such taxes or assessments due or claimed or believed to be due from me or in respect of any property or rights which I may own or in which I may have any interest, to appear and represent me before the United States Treasury Department, or the Internal Revenue Service, or any representatives thereof, or the State Tax Commission of New York or any other governmental or municipal body or authority of whatever nature, domestic or foreign, or any representatives of any thereof, and to conduct and transact any case, claim or matter whatsoever before said Department, Service, Commission or other body or authority or the representatives of any thereof in respect of any and all things pertaining to any such taxes or assessments, and in connection therewith to exercise all such rights and privileges, and to have such access to all records and papers, as I might exercise or have;

(15) to have access to any and all safe deposit boxes or vaults held by me or in my name and to withdraw the contents thereof;

(16) on such terms as said Attorney may deem advisable, to appoint agents or hire employees or retain legal counsel or other advisers for the purpose of carrying out any action authorized by this instrument and to revoke any such appointment or hiring or retention; and

(17) to execute in my name all instruments of any kind which said Attorney may deem advisable or convenient for the exercise of any of the powers conferred by this instrument.

Wherever used in this instrument, the term "securities" shall mean and include bonds, notes, debentures, mortgages, obligations, warrants and stocks of any kind or class, and such other evidences of indebtedness and certificates of interest as are usually referred to by the term "securities"; the term "property" shall mean and include real, personal and mixed property of every kind and wherever situate (including, without limiting the generality of the foregoing, securities as above defined) and shall include every kind of right, title and interest, legal or equitable and whether beneficial or otherwise, in or to any of the foregoing; and the term "person" shall mean and include any individual, corporation, association, partnership, government, bureau, agency or other body, whether domestic or foreign, of any kind and whether acting on his, her or its own or in any fiduciary or other capacity or interest.

UPH - 1011 58001 20070913

"LIVING WILL"

By Tod W. Baxter

TO MY FAMILY, MY PHYSICIAN, MY LAWYER:

If the time comes when I can no longer take part in decisions for my own future, and am unable to direct my physician as to my own medical care, let this statement stand as the testament of my wishes.

If there is no reasonable expectation of my recovery from physical or mental disability, I request that I be allowed to die and not be kept alive by artificial means or heroic measures, and expressly consent to and ask for the issuance of an order not to resuscitate me. When my time comes, I ask that my treatment be limited to measures to make me comfortable and relieve pain. I therefore ask that artificial life support (including nutrition, hydration, cardiac resuscitation and mechanical respiration) not be started or continued if it is unlikely to reverse the course of my illness. Death is as much a reality as birth, growth, and maturity--it is the one certainty. I do not fear death as much as I fear the indignity of deterioration, dependence, and hopeless pain. I ask for maximum pain relief, even if that hastens the moment of death.

McDERMOTT WILL & EMERY LLP
227 West Monroe Street
Chicago, Illinois 60606-5098

ILLINOIS STATUTORY SHORT FORM POWER OF ATTORNEY FOR HEALTH CARE

(NOTICE: THE PURPOSE OF THIS POWER OF ATTORNEY IS TO GIVE THE PERSON YOU DESIGNATE (YOUR "AGENT") BROAD POWERS TO MAKE HEALTH CARE DECISIONS FOR YOU, INCLUDING POWER TO REQUIRE, CONSENT TO OR WITHDRAW ANY TYPE OF PERSONAL CARE OR MEDICAL TREATMENT FOR ANY PHYSICAL OR MENTAL CONDITION AND TO ADMIT YOU TO OR DISCHARGE YOU FROM ANY HOSPITAL, HOME OR OTHER INSTITUTION. THIS FORM DOES NOT IMPOSE A DUTY ON YOUR AGENT TO EXERCISE GRANTED POWERS; BUT WHEN POWERS ARE EXERCISED, YOUR AGENT WILL HAVE TO USE DUE CARE TO ACT FOR YOUR BENEFIT AND IN ACCORDANCE WITH THIS FORM AND KEEP A RECORD OF RECEIPTS, DISBURSEMENTS AND SIGNIFICANT ACTIONS TAKEN AS AGENT. A COURT CAN TAKE AWAY THE POWERS OF YOUR AGENT IF IT FINDS THE AGENT IS NOT ACTING PROPERLY. YOU MAY NAME SUCCESSOR AGENTS UNDER THIS FORM BUT NOT CO-AGENTS, AND NO HEALTH CARE PROVIDER MAY BE NAMED, UNLESS YOU EXPRESSLY LIMIT THE DURATION OF THIS POWER IN THE MANNER PROVIDED BELOW. UNTIL YOU REVOKE THIS POWER OR A COURT ACTING ON YOUR BEHALF TERMINATES IT, YOUR AGENT MAY EXERCISE THE POWERS GIVEN HERE THROUGHOUT YOUR LIFETIME, EVEN AFTER YOU BECOME DISABLED. THE POWERS YOU GIVE YOUR AGENT, YOUR RIGHT TO REVOKE THOSE POWERS AND THE PENALTIES FOR VIOLATING THE LAW ARE EXPLAINED MORE FULLY IN SECTION 4-6, 4-8, 4-9 AND 4-10(b) OF THE ILLINOIS "POWERS OF ATTORNEY FOR HEALTH CARE LAW" OF WHICH THIS FORM IS A PART (SEE THE END OF THIS FORM). THAT LAW EXPRESSLY PERMITS THE USE OF ANY DIFFERENT FORM OF POWER OF ATTORNEY YOU MAY DESIRE. IF THERE IS ANYTHING ABOUT THIS FORM THAT YOU DO NOT UNDERSTAND, YOU SHOULD ASK A LAWYER TO EXPLAIN IT TO YOU.)

POWER OF ATTORNEY MADE 4th - April, 2007.

1. I, Ted W. Baxter, of Chicago, Illinois,

(Insert name and address of principal)

hereby appoint: my wife, Kelly S. Baxter, of Chicago, Illinois,

(Insert name and address of agent)

as my attorney-in-fact (my "agent") to act for me and in my name (in any way I could act in person) to make any and all decisions for me concerning my personal care, medical treatment, hospitalization and health care and to require, withhold or withdraw any type of medical treatment or procedure, even though my death may ensue. My agent shall have the same access to my medical records that I have, including the right to disclose the contents to others. My agent shall also have full power to authorize an autopsy and direct the disposition of my remains. EFFECTIVE UPON MY DEATH, MY AGENT HAS THE FULL POWER TO MAKE AN ANATOMICAL GIFT OF THE FOLLOWING (INITIAL ONE):

- TWB Any organs, tissues, or eyes suitable for transplantation or used for research or education.
Initialed
- Specific organs: _____
Initialed
- None.
Initialed

(THE ABOVE GRANT OF POWER IS INTENDED TO BE AS BROAD AS POSSIBLE SO THAT YOUR AGENT WILL HAVE AUTHORITY TO MAKE ANY DECISION YOU COULD MAKE TO OBTAIN OR TERMINATE ANY TYPE OF HEALTH CARE, INCLUDING WITHDRAWAL OF FOOD AND WATER AND OTHER LIFE-SUSTAINING MEASURES, IF YOUR AGENT BELIEVES SUCH ACTION WOULD BE CONSISTENT WITH YOUR INTENT AND DESIRES. IF YOU WISH TO LIMIT THE SCOPE OF YOUR AGENT'S POWERS OR PRESCRIBE SPECIAL RULES OR LIMIT THE POWER TO MAKE AN ANATOMICAL GIFT, AUTHORIZE AUTOPSY OR DISPOSE OF REMAINS, YOU MAY DO SO IN THE FOLLOWING PARAGRAPHS.)

2. The powers granted above shall not include the following powers or shall be subject to the following rules or limitations (here you may include any specific limitations you deem appropriate, such as: your own definition of when life-sustaining measures should be withheld; a direction to continue food and fluids or life-sustaining treatment in all events, or instructions to refuse any specific types of treatment that are inconsistent with your religious beliefs or unacceptable to you for any other reason, such as blood transfusions, electro-convulsive therapy, amputation, psychosurgery, voluntary admission to a mental institution, etc.):

No limitations.

BAXTER, TED Scan on POWER OF ATTORNEY 4/4/07 by

TED BAXTER
11/17/03

(THE SUBJECT OF LIFE-SUSTAINING TREATMENT IS OF PARTICULAR IMPORTANCE. FOR YOUR CONVENIENCE IN DEALING WITH THAT SUBJECT, SOME GENERAL STATEMENTS CONCERNING THE WITHHOLDING OR REMOVAL OF LIFE-SUSTAINING TREATMENT ARE SET FORTH BELOW. IF YOU AGREE WITH ONE OF THESE STATEMENTS, YOU MAY INITIAL THAT STATEMENT; BUT DO NOT INITIAL MORE THAN ONE).

- TWB
initialed I do not want my life to be prolonged nor do I want life-sustaining treatment to be provided or continued if my agent believes the burdens of the treatment outweigh the expected benefits. I want my agent to consider the relief of suffering, the expense involved and the quality as well as the possible extension of my life in making decisions concerning life-sustaining treatment.
- _____ initialed I want my life to be prolonged and I want life-sustaining treatment to be provided or continued unless I am in a coma which my attending physician believes to be irreversible, in accordance with reasonable medical standards at the time of reference. If and when I have suffered irreversible coma, I want life-sustaining treatment to be withheld or discontinued.
- _____ initialed I want my life to be prolonged to the greatest extent possible without regard to my condition, the chances I have for recovery or the cost of the procedures.

(THIS POWER OF ATTORNEY MAY BE AMENDED OR REVOKED BY YOU IN THE MANNER PROVIDED IN SECTION 4-6 OF THE ILLINOIS "POWERS OF ATTORNEY FOR HEALTH CARE LAW" (SEE ATTACHED FORM.) ABSENT AMENDMENT OR REVOCATION, THE AUTHORITY GRANTED IN THIS POWER OF ATTORNEY WILL BECOME EFFECTIVE AT THE TIME THIS POWER IS SIGNED AND WILL CONTINUE UNTIL YOUR DEATH, AND BEYOND IF ANATOMICAL GIFT, AUTOPSY OR DISPOSITION OF REMAINS IS AUTHORIZED, UNLESS A LIMITATION ON THE BEGINNING DATE OR DURATION IS MADE BY INITIALING AND COMPLETING EITHER OR BOTH OF THE FOLLOWING.)

- 3. () This power of attorney shall become effective immediately.
(Insert a future date or event during your lifetime, such as court determination of your disability, when you want the power to first take effect.)
- 4. () This power of attorney shall terminate on _____
(Insert a future date or event, such as court determination of your disability, when you want the power to terminate prior to your death.)

5. If any agent named by me shall die, become incompetent, resign, refuse to accept the office of agent or be unavailable, I name the following (in the order named) as successors to such agent:

my brother, Thomas Baxter.

For purposes of this paragraph 5, a person shall be considered to be incompetent if and while the person is a minor or an adjudicated incompetent or disabled person or the person is unable to give prompt and intelligent consideration to health care matters, as certified by a licensed physician.

(IF YOU WISH TO NAME YOUR AGENT AS GUARDIAN OF YOUR PERSON, IN THE EVENT A COURT DECIDES THAT ONE SHOULD BE APPOINTED, YOU MAY, BUT ARE NOT REQUIRED TO, DO SO BY RETAINING THE FOLLOWING PARAGRAPH. THE COURT WILL APPOINT YOUR AGENT IF THE COURT FINDS THAT SUCH APPOINTMENT WILL SERVE YOUR BEST INTERESTS AND WELFARE. STRIKE OUT PARAGRAPH 6 IF YOU DO NOT WANT YOUR AGENT TO ACT AS GUARDIAN.)

- 6. If a guardian of my person is to be appointed, I nominate the agent acting under this power of attorney as such guardian, to serve without bond or security.
- 7. I am fully informed as to all the contents of this form and understand the full import of this grant of powers to my agent.

Signed: Ted W. Baxter
Ted W. Baxter

The principal has had an opportunity to read the above form and has signed the form or acknowledged his or her signature or mark on the form in my presence.

TED BAXTER

11/17/03

LIVING WILL DECLARATION

This declaration is made this 4th day of April, 2007.

I, TED W. BAXTER, being of sound mind, willfully and voluntarily make known my desires regarding death delaying procedures as follows:

If at any time I should have an incurable and irreversible injury, disease, or illness judged to be a terminal condition by my attending physician who has personally examined me and has determined that my death is imminent except for death delaying procedures, I do not want my life to be prolonged nor do I want life-sustaining treatment to be provided or continued if my physician believes the burdens of the treatment outweigh the expected benefits. I want my physician to consider the relief of suffering, the expense involved and the quality as well as the possible extension of my life in making decisions concerning life-sustaining treatment.

In the absence of my ability to give directions regarding the use of such death delaying procedures, it is my intention that this declaration shall be honored by my family and physician as the final expression of my legal right to refuse medical or surgical treatment and accept the consequences from such refusal.

Signed

Ted W. Baxter

Ted W. Baxter, Declarant

City, County and State of Residence

Chicago, Cook County

Illinois

The declarant is personally known to me and I believe the declarant to be of sound mind. I saw the declarant sign the declaration in my presence (or the declarant acknowledged in my presence that the declarant had signed the declaration) and I signed the declaration as a witness in the presence of the declarant. I did not sign the declarant's signature above for or at the direction of the declarant. At the date of this instrument, I am not entitled to any portion of the estate of the declarant according to the laws of intestate succession or, to the best of my knowledge and belief, under any will of declarant or other instrument taking effect at declarant's death, or directly financially responsible for declarant's medical care.

Clinical Notes Report
10/1/2006-EDV-EM-Bob Dennis Dietrich D.O.

CHIEF COMPLAINT/PURPOSE OF VISIT:
EMERGENCY DEPARTMENT VISIT

TIME OF VISIT: 0820.

CHIEF COMPLAINT: Seizure.

HISTORY OF PRESENT ILLNESS:

A 42-year-old male who is status post a patent foramen ovale induced stroke back in April of 2005. He had some remaining expressive aphasia that remains. He was doing well until about January 2006 when he had his first seizure and since that time has been on Keppra. He was recently switched to Lamictal as apparently his Keppra is giving off some GI side effects. He is on about 500 mg of Lamictal a day at this time. He was out here in Arizona traveling from Chicago, went to exercise, and had another witnessed seizure that lasted about five minutes. He did fall and hit his head. Some bruising on his left forehead and was brought into the ER for treatment. Interestingly his other seizure back in January was also exercise induced at a gym. At this point in time the patient did have an apparent short postictal phase of about 10 to 15 minutes according to EMS. Now on arrival he is back to baseline mental status according to the wife.

PAST MEDICAL/SURGICAL HISTORY

SURGICAL HISTORY: For closure of his patent foramen ovale.

MEDICAL HISTORY: For prior stroke in April of 2005 and a seizure in January of 2006. His baseline partial expressive aphasia.

ALLERGIES:

None.

SOCIAL HISTORY:

Negative for tobacco or illicit drugs. He does occasionally drink alcohol. Last drink was yesterday evening.

CURRENT MEDICATIONS:

1. Lamictal.
2. Arlocept.
3. Lipitor.
4. Aspirin.
5. A multivitamin.

SYSTEMS REVIEW:

He complains of a little bit of a headache near his left forehead at a 3/10. He denies any current visual disturbance, any rhinorrhea, any epistaxis, any neck pain, any auditory deficit. He states he has baseline speech expressive aphasia which is receptive and wife feels like his speech is normal. He denies any neck pain, any chest pain, shortness of breath, abdominal pain. He has had no vomiting, no bowel or bladder incontinence, no melena or diarrhea, no focal weakness, no rash. He does have an abrasion over the left shin, left forehead. He does not recall last tetanus. He denies weight loss, heat or cold intolerance, any other skin lesions, or fever or any trauma outside of the fall with the seizure.

Summary:

1. Normal LV ejection fraction.
2. PA systolic pressure cannot be accurately estimated due to inadequate TR signal. A closure device is seen well-seated in the interatrial septum. There is no intracardiac shunt on the atrial level on color Doppler.
3. Compared to the previous study, no significant changes found.

AMOXICILLIN 500 MG PO CAPS	4 PO 2 hours prior to dental work	Disp:	Rfl:
EXCEDRIN 250-250-65 MG PO TABS	2 TABLETS EVERY 6 HOURS AS NEEDED FOR HA	Disp:	Rfl:

PHYSICAL EXAM:

BP 98/49 | Pulse 52 | Wt 170 lbs (77.111 kg)

SPEECH: no dysarthria, dysnomia, mildly decreased fluency, with some paraphasic errors

MENTAL STATE: grossly normal insight, judgment, attention, fund of knowledge, and orientation

CRANIAL NERVES: subtle right facial, EOMI, no nystagmus

MOTOR: minimally decreased finger tapping on the right, moves all fours equally

CEREBELLAR: gait is normal

IMPRESSION:

1. Localization related epilepsy with two generalized tonic clonic seizures occurring 2/18/06 and 10/1/06, and a complex partial seizure (aphasia and decreased awareness) in March 2007. He is currently taking Lamictal 150 mg, two twice daily, without side effects. When he took Keppra (up to 1500 mg twice daily) he had a worsening in his aphasia, stomach upset (nausea and vomiting), and irritability. The EEG 3/10/06 showed moderate slowing on the left temporal area (including sleep and wake).
2. Cardioembolic left middle cerebral artery stroke on 4/21/05. Trans-esophageal echocardiogram demonstrated an aneurysmal interatrial septum (excursion of 1.6 cm), patent foramen ovale (0.6 cm in diameter when unroofed) with left to right flow. His recovery was been complicated by a deep vein thrombosis while at RIC, which was treated with a filter in the inferior vena cava (and not anticoagulation due to a small amount of hemorrhage noted on a follow up CT of the head, and recency of the stroke). He had PFO closure on 7/12/05.

PLAN & INSTRUCTIONS:

1. I ordered a follow up Lamictal, vitamin D level, and liver profile.
2. After reviewing these blood tests, we might consider a slight dose increase in Lamictal.
3. Follow up visit in six months.
4. He was given a copy of this letter.
5. I will review Piracetam (the Baxters are interested in this therapy).

Sincerely,

Jesse Taber, M.D.

Re: Mr. Ted Baxter
SSN: 084- 5
DOB: 11/

Dear Terry,

I had the pleasure of seeing Mr. and Mrs. Baxter today for a follow up visit. He denies any seizures, and states that he is tolerating lamictal without problems.

He denies headaches, dizziness, dysphagia, change in his speech (although his wife feels it has improved somewhat over the past two weeks), dysphagia, weakness, numbness, tingling, or problems with memory (although his wife states that he sometimes forgets things).

MEDICATIONS:

PHYSICAL EXAM:

BP 103/53 | Pulse 57 | Temp (Src) 98.1 (Oral) | Ht 5' 9" (1.75m) | Wt 170 lbs 3.2 oz (77.2kg)

SPEECH: mildly decreased fluency and some paraphasic errors

MENTAL STATE: grossly normal insight, attention

CRANIAL NERVES: slight right facial

MOTOR: moves all fours equally

CEREBELLAR: gait shows slightly decreased arm swing on the right

IMPRESSION:

1. **Localization related epilepsy** with two generalized tonic clonic seizures occurring 2/18/06 and 10/1/06. He is currently taking Lamictal 150 mg, two twice daily, without side effects. When he took Kepra (up to 1500 mg twice daily) he had a worsening in his aphasia, stomach upset (nausea and vomiting), and irritability. The EEG 3/10/06 showed moderate slowing on the left temporal area (including sleep and wake).

2. **Cardioembolic left middle cerebral artery stroke** on 4/21/05. Trans-esophageal echocardiogram demonstrated an aneurysmal interatrial septum (excursion of 1.6 cm), patent foramen ovale (0.6 cm in diameter when unroofed) with left to right flow. His recovery was been complicated by a deep vein thrombosis while at RIC, which was treated with a filter in the inferior vena cava (and not anticoagulation due to a small amount of hemorrhage noted on a follow up CT of the head, and recency of the stroke). He had PFO closure on 7/12/05.

PLAN & INSTRUCTIONS:

1. I drew blood work today for a Lamictal level.
2. Follow up visit in six months.
3. He will need a follow up CBC and CMP in the next few months, and my office will call him at that time to arrange the testing.
4. Follow up visit in six months.
5. He was given a copy of this letter.

Sincerely,

Jesse Taber, M.D.

Re: Mr. Ted Baxter
SSN: 084
DOB: 11/

Dear Terry,

I had the pleasure of seeing Mr. and Mrs. Baxter today for a follow up visit. He had another seizure three weeks ago, while visiting Arizona. He had arrived the night prior, and had been exercising the next morning for about 30 minutes, prior to taking his medication. He believes that he did not get enough sleep the night before, and his wife reports that he had a restless night's sleep and had awoken with a headache. He had a Margarita and a beer the night prior (on occasion he may have one or two drinks). He denies being ill at the time, or having missed any medications.

Mr. Baxter reports that at the beginning of the spell, he was unable to talk (although no one was with him). He then lost consciousness and had a generalized tonic clonic seizure. He was brought to a local hospital, where he had a CT of the head (showing only the prior left sided infarct), and the ER physician contacted one of my colleagues who recommended adding Lyrica 75 mg BID. When I became aware of this event (via email from Mrs. Baxter), I advised not starting this drug and instead raising the dose of the Lamictal.

He denies feeling dizzy or unsteady at present, although the first week after the dose increase he felt "a little off" per his wife. He denies headaches, diplopia, change in strength or sensation, change in speech or memory. He is currently sleeping well, except that it takes an hour to fall asleep, which is perhaps a little worse since increasing the dose of Lamictal (although his wife is uncertain if there has been a change in his ability to fall asleep).

PHYSICAL EXAM:

BP 120/58 | Pulse 50 | Temp (Src) 97.6 (Oral) | Resp 18 | Ht 5' 9" (1.75m) | Wt 169 lbs (76.7kg)

SPEECH: mild dysfluency, dysnomia, paraphasic errors, good comprehension

MENTAL STATE: alert, appropriate

CRANIAL NERVES: EOMI, no nystagmus, slight right facial

MOTOR: moves all fours equally

CEREBELLAR: gait is stable

IMPRESSION:

1. **Localization related epilepsy** with two generalized tonic clonic seizures occurring 2/18/06 and 10/1/06. He is currently taking Keppra at 1500 mg twice daily, with a worsening in his aphasia, stomach upset (nausea and vomiting), and irritability. The EEG 3/10/06 showed moderate slowing on the left temporal area (including sleep and wake).
2. **Cardioembolic left middle cerebral artery stroke** on 4/21/05. Trans-esophageal echocardiogram demonstrated an aneurysmal interatrial septum (excursion of 1.6 cm), patent foramen ovale (0.6 cm in diameter when unroofed) with left to right flow. His recovery was complicated by a deep vein thrombosis while at RIC, which was treated with a filter in the inferior vena cava (and not anticoagulation due to a small amount of hemorrhage noted on a follow up CT of the head, and recency of the stroke). He had PFO closure on 7/12/05.

PLAN & INSTRUCTIONS:

1. We discussed "seizure threshold", and I advised that he limit his alcohol to only one drink at night (one regular or two light beers, one glass of wine, one ounce of harder liquor), and that he always try to get at least eight hours of sleep nightly.

2. I asked Ted to get me a list of the ingredients in the herbal preparation he takes (Mentalin).
3. I advised that he cannot drive at present, and that he must postpone the behind the wheel driving evaluation for at least six months.
4. Follow up visit in two months.
5. He was given a copy of this letter.
6. I activated MyChart so that they could contact me directly via email.
7. We discussd seizure first aid, which includes never putting anything in his mouth during an attack, and after the spell rolling him onto his side so that he does not inhale his saliva. If he has more than one seizure in a row, his wife should call 911.
8. I advised that he move the Lamictal from bedtime to dinner, to reduce the possibility that this medicine causes insomnia. I told him he did not need to take the two doses of Lamictal exactly 12 hours apart, and if he took them longer than about 9 hours apart, he would be fine.

Sincerely,

Jesse Taber, M.D.

Re: Mr. Ted Baxter
SSN: 084
DOB: 11.

Dear Terry,

I had the pleasure of seeing Mr. and Mrs. Baxter today for a follow up visit. About two weeks ago, he had a witnessed seizure (witnessed while he was working out on an elliptical trainer at a YMCA). He was reported to be staring into space, and then had bilateral upper extremity jerking, his head fell to one side, and he was out of it for four to five minutes. He came to in the ambulance (the event happened while he was in Michigan). While he was in the ER, he had a CT scan showing changes compatible with the prior stroke, and a negative blood panel. He was seen by a neurologist, and started on Keppra, which he is currently taking at 1500 mg twice daily.

Mr. Baxter denies any clear side effects from the drug, although he was initially tired when he started it. His wife reports that he had a "huge decline in his speech when he started taking it", but this has improved, although not to where he was prior to starting the drug. She states that today his speech has gotten to between 70 - 85% of his pre-Keppra baseline.

Mrs. Baxter also states that in the past week, he has had three episodes of waking with a stomach ache, with emesis. She also reports that he has been moodier since starting Keppra.

He has not had any other seizures. He has not had any staring spells, automatisms, dystonic postures, jerking, versive head or eye deviation. He denies any deja-vu, jamais-vu, dreamy states, or micro or macropsia.

He denies dizziness, headaches, diplopia, amaurosis fugax, dysphagia, hearing changes, weakness, or numbness or tingling.

2006 MAR 15

2006-08-03 13:15

He is exercising regularly. He is reading, and doing many hours of therapy on his own daily, including using computer programs for aphasia.

PHYSICAL EXAM:

BP 95/51 | Pulse 49 | Wt 170 lbs (77.1kg)

SPEECH: mixed aphasia, but markedly improved fluency and comprehension

MENTAL STATE: grossly normal

CRANIAL NERVES: EOMI without nystagmus. right facial asymmetry

MOTOR: moves all fours

CEREBELLAR: minimal right sided weakness

IMPRESSION:

1. Localization related epilepsy with generalized tonic clonic seizure occurring 2/18/06. He is currently taking Keppra at 1500 mg twice daily, with a worsening in his aphasia, stomach upset (nausea and vomiting), and irritability.

2. Cardioembolic left middle cerebral artery stroke on 4/21/05. Trans-esophageal echocardiogram demonstrated an aneurysmal interatrial septum (excursion of 1.6 cm), patent foramen ovale (0.6 cm in diameter when unroofed) with left to right flow. His recovery was been complicated by a deep vein thrombosis while at RIC, which was treated with a filter in the inferior vena cava (and not anticoagulation due to a small amount of

hemorrhage noted on a follow up CT of the head, and recency of the stroke). He had PFO closure on 7/12/05.

PLAN & INSTRUCTIONS:

1. I have ordered an EEG (electroencephalogram). (Call 1-847-570-2575 to schedule the test.
2. We discussed the side effects of Keppra, and the possible benefit of changing to a different agent (probably Lamictal). Lamictal is generally well tolerated on a day to day basis, and of all the seizure medication is the drug most likely to actually improve focus and attention. Occasionally, side effects including dizziness, headache, and blurry vision can occur. Some patients also have insomnia which is actually a good occurrence, as these people typically become more alert and better have better focus on the drug. If insomnia develops, it usually goes away if the nighttime dose is moved earlier in the day, say at dinner time. The most serious side effect with Lamictal is a hypersensitivity reaction, which occurs in between 1 in 300 to 1 in 1000 patients. This reaction usually develops within a few days to several months of starting the drug, and usually begins with a rash anywhere on the body. The rash is often red, bumpy, and itches. At times, the rash is associated with problems with internal organs, including bone marrow, liver, lung, or kidney injury; deaths have also been reported. It must be emphasized that most rashes with this drug do not develop into this serious reaction, however if any rash occurs, you will need to stop the drug and call us as soon as possible. Note that Mr. Baxter will be going to Tampa for a speech research project on Sunday and be away for five weeks. I advised he not start Lamictal until he returns.
3. I suggested that he and his wife could get additional information about seizures, epilepsy, and anticonvulsant medication at the Epilepsy Foundation of America website (www.efa.org).
4. We discussed seizure first aid.
 - Move any sharp objects out of the way during a seizure.
 - Never put anything in someone's mouth during a seizure.
 - After a convulsion, roll the person on their side to let any saliva run out of the mouth. (Note that this step does not need to be practiced if someone does not fall during a seizure).
 - If a seizure seems unusually long (say more than a few minutes), or more than one seizure occurs within five to ten minutes time, call 911.
5. We talked about the concept of seizure threshold - the likelihood a seizure will or will not occur - which is affected by sleep, stress, diet, alcohol (he can have a glass of wine or beer a few times weekly), intercurrent illness, blood sugar.
6. I advised avoidance of any avoidance of any decongestants or antihistamines, as these drugs lower seizure threshold. We discussed that Robitussin DM (or the generic equivalent) is safe to use for treatment of cough. We also discussed that over the counter pain medications and antacids may interfere with some seizure medications.
7. We reviewed the prior MRI images on our PACs unit.
8. I asked him to get me the amount of vitamin B6 (pyridoxine) in milligrams.
9. Follow up visit in six to eight weeks.
10. He was given a copy of this letter.
11. We discussed the fact that Aricept could increase seizure risk, however for now I suggested he not stop the drug.

2007-03-25 13:15

12. We discussed state law in Illinois which generally states that someone must be seizure free for six months seizure prior to driving. We also discussed that the patient is responsible for contacting the Secretary of State's office, to notify them of the diagnosis of seizures. (Note that he will have a driver's evaluation in the spring).

Sincerely,

Jesse Taber, M.D.

Re: Mr. Ted Baxter
SSN: 084-
DOB: 11/

Dear Terry,

I had the pleasure of seeing Mr. and Mrs. Baxter today for a follow up visit. He reports that he has been good, and has noted improvement in strength and speech. He is walking now without any assistive device, and he has not fallen. His right arm is also improving. Mrs. Baxter reports that his strength has rapidly improved. He is about to start therapy with the left hand placed in a pot holder mit. Ted is now able to converse, despite his aphasia, and his wife is able to understand him. He is able to read (he picks articles that he is interested in reading).

He is exercising up to 30 minutes up to most days on the treadmill, in addition to activities in therapy.

Ted denies any numbness, tingling, frequent headaches (although he complained of a headache yesterday and this morning), dizziness, diplopia, dysphagia (he is eating regular consistency foods), incontinence, or depression.
