What about the people who didn't have the resources to fight and ALLEGEDLY got caught with their pants down and are spending 20 years in prison? What about the black kid being prosecuted and facing 20+ years in jail for writing rap lyrics? It's people like you stick their head in the sand. Maybe if you stood for something, the world would be a better place. It's only when it happens to you that you complain about things. But then it's people like me that have to get people like you out of trouble.
