I know you're going to get a million comments like hits, but the phrase "acquitted rapist" probably won't fly for a person who has already demonstrated his letigiousitousnicity.

So now to Jezebel, even if someone was acquitted, they're still a rapist, because ya know, an accusation is 100% true 100% of the time.

Yea, all those crazy bitches going to the cops and lying about being raped. Except that false reports for stolen cars are more common. False rape reports make up less than 3% of all reported rapes, and as I'm sure you know, it horrendously underreported.

I'm also uncomfortable with the way the article was titled, but please don't bring in the rape apology bingo by relving on the old idea that most women lie about it.
