Dear Health Insurance Professional,

Recently, Walgreens wrote to let you know that we are not planning to be part of Express Scripts' pharmacy provider network as of Jan. 1, 2012. Because many beneficiaries of the plans you broker could be affected by this development, we wanted to keep you fully informed.

Situation Update

Walgreens and Express Scripts are far apart on key issues, and as such we are planning to move on without Express Scripts in 2012 and adjust our operations accordingly. We strongly encourage you to advise your clients to plan as such.

How You Can Manage The Risk For Your Clients

Walgreens continues to participate with virtually all other pharmacy benefit managers across the country. To minimize the risk of disruption to your clientele, we strongly encourage you to select from the many health plans that are planning to offer Walgreens in 2012. For your reference, here are three plans in your geography with Walgreens coverage in 2012:

- UnitedHealthcare
- Humana, Inc.
- Coventry Health Care, Inc.

Walgreens Value

Walgreens provides real value to plan beneficiaries:

- National coverage – the most stores (7,700 pharmacies nationwide), and more 24 hour stores than all the other drug chains combined
- Convenience – a Walgreens store is located within 3 miles of two thirds of the US population, including underserved communities

We want to ensure that plan beneficiaries continue to enjoy the convenience of Walgreens nationwide network of trusted pharmacies. If we can provide additional information to assist you, please contact us at 1 (855) 899-6013.

Sincerely,

Joe Terrion
Chief Client Officer, Walgreens
