## Timeline Maker Professional

If you've been creating timeline charts on a regular basis then you already know what an intricate, time consuming process it can be. Our industry-leading timeline software removes all of the manual processes found in other methods and automatically builds the timeline for you, with no need to draw. With a short learning curve, tons of automatic features, knock-out charts and interactive presentation capabilities, Timeline Maker Professional is the best timeline solution available. Anywhere.

Read on...

### Create Charts with Just One Click

With a single click you can create flag charts or bar charts from pre-defined themes to build a wide variety of timelines for printing, sharing or presentation. Or, you can use your own logos, colors and other visual elements to customize your timelines to meet the specific needs of your own or your client's organization. A formatted chronology (text) report can also be created with just one click.

### Easy and Intuitive Event Entry

If you can use Microsoft® Office products, you can use Timeline Maker Professional. Enter your event data through an intuitive table interface similar to Microsoft Excel, or with some simple formatting you can import data directly from other applications.

### Print, Publish and Present in Many Formats

There are many options to print, publish and present your timeline charts and chronologies, including a variety of graphic formats, PDF and HTML. Timeline Maker Professional's built-in presentation tool and seamless integration with Microsoft PowerPoint give you a choice in how to best present your timelines.

### Sharing Timelines is Easier Than Ever!

Timeline Maker Professional's new and exclusive Package for Sharing function makes sure that your timeline files are always intact for sharing with others or making a presentation on a

Chart View

different computer. When combined with the free "read only" [Timeline Maker Viewer](#) this powerful feature allows you to accurately and securely share your timelines with anyone, anywhere.

## Features

- ✧ **One-click Timelines** - Create great looking charts quickly. Just one click on the chart tab and the chart instantly appears.
- ✧ **No Learning Curve** - Start creating your first timeline as soon as you launch the software. It's so easy there is no learning curve.
- ✧ **Built-in Themes** - Easily change the appearance of your chart using the built-in library of themes/styles.
- ✧ **Easy Customization** - Customize the chart by creating your own themes/styles, using corporate colors and logos or by adding photos and clipart to visually tell the story.
- ✧ **Include Links** - Include links to external documents, websites, audio clips and video clips to supplement the data in the chart.
- ✧ **Assign Category Colors** - Color code events and categories for easy visual interpretation.
- ✧ **Import Event Data** - Save time by importing events from other software applications.
- ✧ **Export Event Data** - Export your timeline data to a text file for backup or import into other applications.
- ✧ **Add Notes** - Easily add annotations to a timeline or provide comments to the author.
- ✧ **Automatic/Manual Time scale** - Specify the begin and end dates/times for your time scale or let the program automatically determine this for you.
- ✧ **Multiple Charts** - Create multiple charts from the same Timeline Maker file so you don't need to create separate data files.
- ✧ **Customize Data Fields** - Several data field labels can be changed so the event data is more meaningful to you.
- ✧ **Spell-check** - Check for spelling errors using the built-in general and medical dictionaries.
- ✧ **Print on Any Paper Size** - Print on any paper size you need, even large format printers.
- ✧ **Numerous Publish Options** - Publish timeline charts to a common graphic file type (.jpg, .gif, .bmp, .png) or output the timeline charts to PDF or HTML for publication or sharing.
- ✧ **Built-in Presentation Mode** - Use the built-in presentation mode to quickly and easily present your timeline chart(s) to a group - No additional software necessary!
- ✧ **Seamless PowerPoint Integration** - Insert the chart(s) into Microsoft® PowerPoint slides using the new Timeline Maker PowerPoint menu option.
- ✧ **Package for Sharing** - Use the exclusive "Package for Sharing" feature that automatically collects all linked files, attached images, documents, etc. and creates a zipped file to transport or send the complete timeline file with confidence.

## System Requirements

Timeline Maker Professional is a Windows program, designed to work best on a personal computer that meets these minimum system requirements:

- Windows® 2000, XP, Vista and Windows® 7
- 256 MB RAM
- 40 Mb free disk space
- Optional: Adobe Acrobat 5.0 or later, MS PowerPoint (32-bit versions only)

If you are unsure that your computer is compatible with Timeline Maker Professional, [please ask](#).

# There's No Other Timeline Software Like Timeline Maker!

If you've been struggling to create timeline charts manually or wrestling with ordinary office software like Excel, Visio or MS Project, then you will really appreciate how easy it can be to create great looking [timeline charts like these](#) with Timeline Maker.

[Learn why](#) more business professionals, educators and project managers choose Timeline Maker than any other timeline software solution.

**cnet** "The program's interface is professional and welcoming, starting with some helpful tutorials and moving on to an intuitive layout at every turn... Overall, the program is simple to operate and we loved the easily read results."

"We sampled several timeline software programs and Timeline Maker was hands down the best program available. It's ease of use for entering data is simple and saves hours from how we used to create timelines. The charts are great and easy to understand."

**Kon K.**  
Detective, Billings Police Dept.  
[See More Testimonials...](#)

## Key Features:

**Smart Automation Saves Time:**  
Timeline Maker is the only timeline charting software that actually does the drawing for you. From the automated timescale, legend and placement of events, to the built-in themes and styles, you can design a professional looking chart in minutes with absolutely no need to draw.

**Easy Editing and Customization:**  
We provide many built-in chart themes that you can choose from to get you started right away. But, beyond that, every element of your chart can also be changed with one click to guarantee that the chart you produce will be the exact style you want it to be.

**Simple Printing, Sharing and Publishing:**  
Aside from our unique Package-for-sharing option, Timeline Maker also allows you to save your timeline chart in a range of formats including PDF, HTML, or graphic file (JPG, PNG, BMP, etc.).

**Interactive Presentations:**  
Timeline Maker integrates with PowerPoint® like no other. The same step-through, zoom and scroll controls are available in both PowerPoint® and the

built-in presentation mode.

## ABOUT THIS SITE

### Did You Know...

That it was the [Maya Indians](#) who were one of the first cultures responsible for inventing the [calendar](#)? The Mayan *Zero Year* translates to about 3114 B.C.

Welcome to **HistoricalTimeline.com** Here you will find 5 timelines featuring some of the key events, inventions, and leaders which had a major impact on the world's history. Please note that due to limited space, some names and events may not be listed; however, we are confident that a consistent pace has been achieved, and that the subjects and individuals listed are of significant importance. It is also interesting to see how the evolution of humankind and warfare seem to escalate as we become more technologically advanced, and it is also interesting to note the various instances where religion and politics would intermingle, and to witness the wisdom and/or folly of those we chose to elect, or elected themselves as our leaders throughout history. Historical Timelines can be valuable tools, helping us understand why things are the way they are, and what led to their being so. On the positive side, we have come a long way having made tremendous advances in the fields of communications, medicine, and exploration, but on the negative side, we seem to closer to self destruction with each passing year, unable to end our warring ways.

## LIBRARY

### Did You Know...

That the first book to be printed on Gutenberg's Printing Press in the early 1450's was the Holy Bible?

Alongside the timelines, we have added a selected bibliography and list of online resources to help in your research. We hope our site will provide you with the tools you need, and fuel your quest for knowledge. From Hammurabi to George Walker Bush, and from the invention of the first patterned tools to the mapping of the human genome, you'll find several books and websites to answer your questions about who, why, what, where, and when.
