Dear Peter:

This letter is in response to your letter of March 5, 2007 regarding Vonage's production of certain documents.

With respect to item #5 (*viz.* scripts for the first two Vonage conference calls with analysts), we direct your attention to the document starting with Bates number VON_682437. While we continue to search for additional responsive documents, at present, this is the only responsive document that we have been able to locate following a reasonable search of documents in Vonage's possession, custody or control.

With respect to item #6 (*viz.* powerpoint slides relating to the Series B financing), we note that the document bearing Bates number VON_308704 – 308731 has an electronic file name "series b investor 8.14.03 2.0 ppt". This is a fairly clear indication that the document is questions is, in fact, a Series B financing document responsive to the request. As such, there appears to be no basis for your allegation that this document is "no different from the myriad of other presentation DEC's produced by Vonage."

While we continue to search for additional documents that may be responsive to these requests and the others contained in your letter, we have never stated that any such documents actually exist. To date, we have produced, and continue to produce, all non-privileged,
