VIA CERTIFIED MAIL

Mr. Shimmy Zimels
President and CEO
Deltathree, Inc.
75 Broad Street
New York, New York 10004

Dear Mr. Zimels:

McDermott Will & Emery LLP represents Sprint Communications Company ("Sprint") in the licensing and enforcement of a significant portfolio of patents relevant to Voice Over Packet ("VoP") systems and related technology. Claims in these patents read on various configurations of voice over internet protocol systems and associated softswitch configurations. Because Deltathree, Inc. (through its "iConnectHere" division) has created network architectures by using combinations of equipment from different suppliers, we believe that some of these patents may be of particular interest to Deltathree, Inc.

Enclosed is a CD containing .pdf files of forty-three representative Sprint U.S. patents in this field. These patents to fundamental and pioneering VoP technology were filed with the U.S. Patent and Trademark Office as early as 1994. The complete portfolio includes issued and pending patents in approximately twenty countries, including additional pending applications in the United States. Sprint is willing to grant a non-exclusive license under these and other patents in its portfolio under mutually acceptable terms, and to meet and discuss an arrangement that would be appropriate for Deltathree, Inc.

So that we may initiate these discussions, we would appreciate the opportunity to further introduce these patents to you at a meeting at your facilities on August 27, 2004. If that date is

U.S. practice conducted through McDermott Will & Emery LLP.

600 Thirteenth Street, N.W. Washington, D.C. 20005-3096 Telephone: 202.756.8000 Facsimile: 202.756.8067 www.mwe.com
