

CONCENTRA AD

As you get older, your brain is slowing down. Avoid the embarrassment. Concentra is specially formulated to help improve your brain function. Thinking more clearly at work is a real advantage. It's like turning a switch on inside your brain. I love Concentra. Just imagine: finally being able to remember names, dates, and appointment times. Even remember where you left your keys. Concentra contains homeopathic ingredients traditionally used to stimulate your memory, and fight mental exhaustion and fatigue. It will be such a relief to hold a conversation without losing your train of thought. In the past, I had the words in my head, but I couldn't get 'em out. It's amazing, how well it works. You'll feel like the cobwebs are wiped from your mind. Recall things more easily. Think more clearly. Sharpen your memory. Concentra? It's amazing.

Memory Fading?

“I Can’t Remember” may be caused by lack of “Memory Center” Activators.

As you age, your body may not just produce all the activators it did when you were younger. When you run low on important “Memory Center” Activators, your memory becomes dull and sluggish — and “a thick mental fog rolls in.”

Concentra™’s all-natural blend of ingredients is formulated to support healthier “Memory Center” Activators. According to traditional principles of homeopathic medicine the ingredients in Concentra stimulate your memory, concentration and focus, and help fight age-related memory loss.

Fight age-related memory loss

The graph below represents your recall ability at different ages.

Age-related memory loss is based on the UCSF Memory and Aging Center delayed four recall test.

If you struggle to remember names and dates, if you’re frustrated, or embarrassed by your poor memory — stop it! With Concentra you begin to remember better in weeks or less!

Reactivate “I remember...” Naturally.

Concentra’s unique blend combines seven all-natural ingredients based on traditional homeopathic principles — see below:

- *Aesculus hippocastanum* (Improves attention)
- *Alumina* (Improves mental attention)
- *Anacardium* (Fights thoughtlessness)
- *Baryta carb* (Relieves memory loss)
- *Kali phos* (Combats mental fatigue)
- *Ginkgo Biloba* (Improves attention)
- *Cerebrum* (Fights mental exhaustion)

Concentra ignites your memory function and reactivates your memory.

“It was like a switch turned on inside my brain! With Concentra I noticed everything began to change. I felt more awake than usual. Reading the newspaper was easier. I think faster and I talk with more confidence. With Concentra I feel alive again!”

-James B.

*These results not typical. Individual results will vary.

Improve memory and concentration without a prescription! Achieve stronger brain performance. Concentrate easier and remember better!
