**Note:** The BCR Shared eAudiobook Collection is different from other shared eBook collections as **this collection will require a contribution each year that the library wishes to access the collection.** The initial collection will consist of the 200 titles in the list linked to above and new content or additional titles will be added to the collection on a regular basis (bi-annually). Annually, libraries will need to contribute funds at their appropriate level in order to continue to access the collection.

### BCR Shared eAudiobook Pricing

NetLibrary requires libraries to sign a license agreement specifically for purchasing eAudiobooks. If you are a new NetLibrary customer you must sign and submit a license agreement prior to receiving access to the collection. The signed eAudiobook purchase license agreement will also apply to future eAudiobook NetLibrary purchases made by your library whether as part of a shared collection or as individual institution purchases. The license agreement PDF is available at **EAudiobooks License Agreement.**

If you are currently accessing NetLibrary eBooks and are not sure whether you have signed and submitted the appropriate license agreement, please contact Jeff Hastings at the following address: [hastingj@oclc.org](mailto:hastingj@oclc.org)
