Re: ConnectU, Inc. et al. v. Facebook, Inc. et al., 07-cv-10593-DPW

Dear Magistrate Judge Collings:

As requested by the Court on November 19, Plaintiffs today provide a list of computers that are potentially relevant to the Facebook Defendants' request for electronic imaging. Plaintiffs maintain their position that the only missing code in their possession, custody and control – versions of ConnectU created or edited after March 7, 2005 – was withheld on relevance grounds and is easily obtained and/or produced to the Defendants.

The below list details the make, model and serial number of the storage devices as well as the basis for their potential relevance. Plaintiffs represent that this is a comprehensive list of all electronic storage devices applicable to the Facebook Defendants' motion to compel.

1. Apple, MacBook Pro, W87061HZW0L (Cameron Winklevoss's computer)
2. Panasonic, Toughbook, 5FKSA63921 (Cameron Winklevoss's computer)
3. Apple, Powerbook, QT2502AFNWL (Divya's Narendra computer)
