Cameron,

Sorry I have not been reachable for the past few days. I've basically been in the lab the whole time working on a cs problem set which I'm still not finished with. I don't know when you're taking off -- I think you said something about this morning -- but I'm pretty sure I'll be done with the problem set before this evening so if you're still around we should be able to meet around 10pm. Let me know.

Mark
