**Corporate Profile**

Red Bend Software helps mobile phone manufacturers and network operators to accelerate the adoption of new services and features, respond rapidly to customer needs, and reduce support costs through mobile software management solutions. LG Electronics, Motorola, NEC, Sharp, Sony Ericsson, and other large handset manufacturers use Red Bend's firmware over-the-air (FOTA) mobile client software to quickly and reliably deliver compact firmware updates mobile phones already in the hands of consumers. Founded in 1999, Red Bend Software is a privately held, venture capital-financed company with offices in China, Israel, Japan, Korea, the U.K and the U.S.
