Reported by jon@chromium.org, Sep 23, 2009

When we are pushing updates to a large number of Stable users we need to be able to do so quickly and efficiently. For Windows we have Courgette which makes some updates very small.

<http://dev.chromium.org/developers/design-documents/software-updates-courgette>

This solution is Windows specific so I don't expect us to use it. However, we need some solution which reduces the overall size of the download for upgrades between two specific releases.

Comment 1 by kuchhal@chromium.org, Oct 22, 2009

Change summary to reflect what I think the bug is about.

Summary: Need Incremental Installer For Mac

Comment 2 by jrg@chromium.org, Oct 22, 2009
