Re: Red Bend Ltd. v. Google Inc., Case No. 09-cv-11813

Dear Susan:

Enclosed please find Red Bend's production of documents in the above referenced action, bearing production numbers RedBend0000001-7806. As requested, this production includes a new copy of Red Bend's first production of documents (RedBend0000001-5664) with existing metadata.

Regarding Red Bend's source code, the most current version of Red Bend's source code for generating delta updates that has been released to a customer, used in Red Bend's vRapid Mobile product, will be made available for inspection upon entry of, and pursuant to, the provisions of an agreed upon Protective Order. We will likely make the code available at our local counsel's office in Boston, unless New York would be more convenient for you. Please let us know.

Very truly yours,

/s/ Jennifer C. Tempesta
