Civ. A. No. 1:10-cv-12043-GAO

DECLARATION OF ERIN FITZGERALD

I, Erin Fitzgerald, declare as follows:

1. I am a law student at New England Law | Boston and a summer associate at Booth Sweet LLP, counsel for Plaintiff in the above-captioned matter, and I make this declaration on my own personal knowledge.
2. This declaration sets forth facts that establish that many of the IP addresses compiled by Guardaley, Limited (“Guardaley”) on behalf of Achte/Neunte Boll Kino Beteiligungs Gmbh & Co. KG (“Achte”) use Internet connections likely located physically inside of the State of Massachusetts.
3. In its copyright infringement lawsuit filed in the United States District Court for the District of Columbia on March 18, 2010 (the “Achte action”), Achte submitted a list of alleged infringers as Exhibit A to its complaint. According to a declaration by

Guardaley's Benjamin Perino, filed on the same date as the complaint, Guardaley's searches of peer-to-peer networks produced the list of alleged infringers, identifying each one "by the unique Internet Protocol ("IP") address assigned to that Defendant by his/her ISP on the date and at the time of the Defendant's infringing activity." Declaration of Benjamin Perino in Support of Plaintiff's Motion for Leave to Take Discovery Prior to Rule 26(f) Conference, ¶ 8, No. 10-453 (D.D.C. Mar. 18, 2010).

4. On request by Booth Sweet LLP, I compiled a list of IP addresses for the alleged infringers in the Achte Action. The list includes the 2,094 IP addresses identified in an exhibit to Achte's original complaint filed March 18, 2010, and the 4,577 alleged infringers identified in an exhibit to Achte's First Amended Complaint. Excluding duplicates between the lists, there are a total of 4,692 unique IP addresses.
5. There are many web-based tools freely available to the public that help reveal where a person using a particular IP address is likely to be physically located. These facts are readily available to the Defendants in this case from free, public Internet sources and have been readily available since well before the Defendants filed the Achte Action.
6. Using the free, publicly available DNS lookup service at <http://lookupserver.com/>, I conducted a search of the 4,692 IP addresses. My search revealed that at least 93 out of the 4,692 IP addresses identified by Guardaley and Achte as alleged infringers likely have a physical location within Massachusetts. 30 of the 93 likely Massachusetts IP addresses I identified were among those identified by Achte at the time of its original complaint. Achte's First Amended Complaint included 28 of those 30 alleged infringers, along with 63 other likely Massachusetts IP addresses.

7. I cross-checked those 93 IP addresses using another free and publicly available web-based tool. I accessed MaxMind GeoIP geolocation database at <http://maxmind.com/>. MaxMind claims that this free version can determine the location of “79% [of U.S. IP addresses] within a 25 mile radius.” MaxMind website, <http://www.maxmind.com/app/geolitecity> (accessed May 31, 2011). Each of the 93 IP addresses that I located within Massachusetts using <http://lookupserver.com/>, I again found to be located within Massachusetts using MaxMind.
8. Based on the tracking dates provided by GuardaLey, of those 93 likely Massachusetts IP addresses, there were 6 Massachusetts addresses tracked in September 2009, 4 in October 2009, 5 in November 2009, 33 in December 2009, 16 in January 2010, 14 in February 2010, 8 in March 2010, 6 in April 2010 and 1 in May 2010.
9. 12 of the Massachusetts IP addresses identified by Guardaley and Achte were alleged to have infringed before the Achte’s claimed *Far Cry* publication date of November 24, 2009. 55 of them, including the Plaintiff in the above-captioned matter, are alleged to have infringed before *Far Cry*’s January 19, 2010 effective date of copyright registration.
10. I have attached as Exhibit A to this Declaration a list of the Massachusetts IP addresses supplied in the Achte Action as well as the estimated physical location of each such IP address according to www.lookupserver.com and www.maxmind.com.
11. Exhibit A includes the Massachusetts IP addresses tracked by GuardaLey (Column B), the date and time GuardaLey allegedly tracked the alleged infringement (Columns C and D), the state, city, latitude and longitude that lookupserver.com assigns to the IP address

(Columns F, G, H, and I), and the state, city, latitude and longitude that MaxMind assigns to the IP address (Columns J, K, L, and M).

12. Using the same method, I have conducted and double-checked a search of IP addresses identified by Guardaley as belonging to alleged infringers in cases filed by Dunlap, Grubb & Weaver PLLC other than the Achte action. Attached as Exhibit B to this declaration is a list of 102 Massachusetts IP addresses I found, using the same search plan as described above, in their lawsuits regarding the following movies: *The Gray Man*, *Uncross the Stars*, *The Steam Experiment/The Chaos Experiment*, *Call of the Wild*, *13 Hours in a Warehouse*, *Border Town*, *Numbers Game*, *Deceitful Storm* and *Hellbinders*.
13. The earliest date of alleged infringement I have come across in any of Guardaley's data related to cases filed by Dunlap, Grubb & Weaver PLLC is an IP address in the *Gray Man* case associated with an alleged date of infringement of March 8, 2009.
14. The earliest likely Massachusetts IP address tracked by Guardaley that I have identified was an alleged *Gray Man* infringer tracked on April 6, 2009. Based on Guardaley's tracking for the movies included in Exhibit B, in addition to the *Far Cry* class action members, Guardaley tracked at least 2 likely Massachusetts IP addresses in April 2009, 4 in May 2009, 6 in June 2009, 2 in July 2009, 1 in August 2009, 6 in November 2009, 2 in December 2009, 7 in January 2010, 11 in February 2010, 23 in March 2010, 21 in April 2010, 15 in May 2010 and 2 in June 2010.
15. Exhibit B includes the Massachusetts IP addresses tracked by Guardaley for the movies listed in paragraph 11 of this declaration (Column B), the date and time Guardaley allegedly tracked the alleged infringement (Columns C and D), the movie that was

allegedly infringed (Column F), the state, city, latitude and longitude that
lookupserver.com assigns to the IP address (Column G, H, I, and J), and the state, city,
latitude and longitude that MaxMind assigns to the IP address (Columns K, L, M, and N).

I declare under penalty of perjury under the laws of the State of Massachusetts that the
foregoing is true and correct and that this document was executed in Cambridge, Massachusetts.

Dated: 6 - 13 - 2011
