

APPENDIX EXHIBIT 12

Global Cleantech 100

The 2011 Global Cleantech 100 list has been announced!

Welcome to the third annual Global Cleantech 100, a list of the top 100 private companies in clean technology. Collated by combining proprietary Cleantech Group research data, with over 6,000 nominations and specific input from an expert panel, these companies represent the most innovative and promising ideas in cleantech – the companies that are best positioned to solve tomorrow’s clean technology challenges.

- Please submit your company to the [i3 platform](#) to be considered for next year’s list.
- Meet the panel of international experts who gave input to the 2011 Global Cleantech 100.
- **Get your Copy! Download the complete 2011 Global Cleantech 100 Report.**

The 2011 Global Cleantech 100 Report is sponsored by:

"This year's Global Cleantech 100 shows once again that there is no end to the innovation that entrepreneurs are capable of creating in order to attack some of the most pressing resource challenges and in the process will introduce to the world some outstanding companies. The annual list proves that companies are being formed around the world to pursue a wide variety of opportunities and that investors, customers and partners see these markets as global and larger than ever imagined."

Rodrigo Prudencio
