The Power To Do More.®July 2007 **Positive Energy report** for:Nina Vigil
1125 7th Ave
Sacramento, CA 95818**NEIGHBORHOOD COMPARISON**

Total of last 12 electric bills:

**NEIGHBORS**

\$814

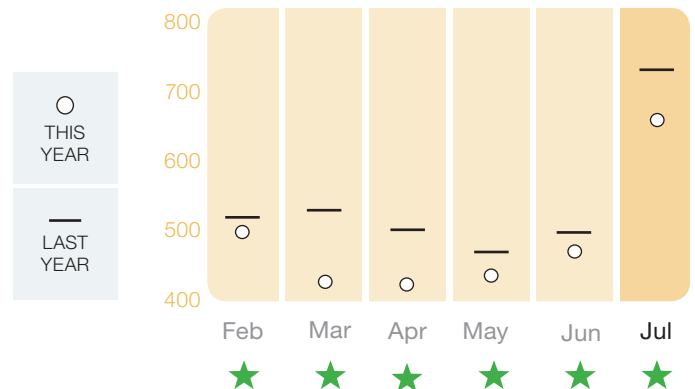

**YOU**

\$683

**EFFICIENT NEIGHBORS**

\$291

YOU USED:

» **13% less** electricity than
your neighbors» **146% MORE** electricity
than your efficient
neighborsThat means there's a lot
more you can do!You're being compared
the 30 similar-sized homes
closest to you.**PERSONAL COMPARISON**See how your electricity use (kWh) has changed over time.
When this year is less than last year, you earn a ★You used less
electricity than last year: 6
TIMES

HOW MANY ★ DID YOU EARN?

0-1 ★ = KEEP TRYING

2-3 ★ = OK

4-5 ★ = GOOD!

6 ★ = **GREAT!****what you can do:**

YOU ARE: a homeowner YOUR HOUSE SIZE: 1,645 sqft YOUR ENERGY USE IS: lower than average most of the time

**TURN OFF YOUR ELECTRONICS AT NIGHT****SWITCH TO COMPACT FLUORESCENTS**

See the reverse side to learn more about these energy and cost-saving tips

TURN OFF YOUR ELECTRONICS AT NIGHT

Did you know that your electronics use 40% of the power they consume when they're turned off? Talk about a waste of energy!

1. Shut down your computer at night.
2. Plug your TV into a power strip that you can turn off when you're not watching it.
3. Unplug chargers and power bricks when they're not in use.

SWITCH TO COMPACT FLUORESCENTS

CFLs – the smart move everybody's making. Why?

Save money: Old fashioned bulbs are a rip-off!

Old Bulb: \$6.00 per year of electricity

Modern CFL: \$1.00 per year of electricity

Cost of not switching: \$38 per bulb!

You may be losing hundreds of dollars right now!

They're new and improved:

Warm Glow – the new CFLs have the same warm color that you're used to with your old bulbs.

Instant On – now they snap on lightning fast.

Join the movement and make the switch:

Near You: Rite Aid, 5712 Folsom Blvd
60W equiv. \$3.79

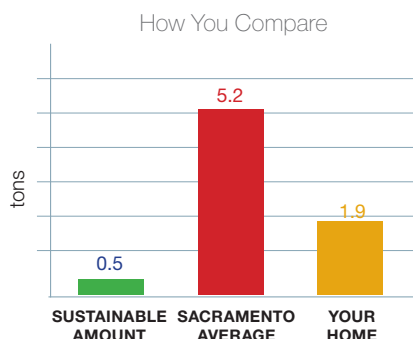

DETAILED ELECTRICITY REPORT

NEIGHBOR (kWh)	795	617	492	473	590	779	684	537	472	510	457	695

YOUR IMPACT

This year, your electricity use created **1.9 TONS** of carbon emissions

You can't take back those emissions. But you can help us reduce emissions somewhere else and neutralize your impact overall.

Dairy Digester Project: Help SMUD fund this new and exciting project here in Sacramento. A dairy digester is a funny thing. It captures methane from cow manure and turns it into clean energy. *And that's a good thing.*

OFFSET YOUR EMISSIONS TODAY!

You can offset the emissions from your electric use for:

\$1.58 a month!

Fill out and return the enclosed postcard today!

Your account number: 131833
