Attorney for Plaintiffs

**PLAINTIFF EIGHT MILE STYLE, LLC'S RESPONSES TO DEFENDANTS'
FIRST SET OF INTEROGATORIES**

Plaintiff Eight Mile Style, LLC ("Eight Mile") provides the following objections and responses to the First Set of Interrogatories ("Interrogatories") propounded by Defendants Apple Inc. (named as Apple Computer, Inc.) and Aftermath Records d/b/a Aftermath Entertainment.

GENERAL OBJECTIONS

The following General Objections apply to and are incorporated in each and every response to each and every Interrogatory, whether or not such General Objections are expressly incorporated by reference in such response.

1. Eight Mile objects to the Interrogatories to the extent they collectively or individually seek information subject to or protected by the attorney-client privilege, the attorney

work product privilege or any other privilege or protection from disclosure. Eight Mile hereby invokes all such privileges to the extent implicated by each Interrogatory and excludes privileged and protected information from its responses to the Interrogatories. Any disclosure of information protected by those privileges is inadvertent, and is not intended to waive any privilege or protection.

2. Eight Mile objects to the Interrogatories to the extent they purport to impose on Eight Mile any obligation that is different from or greater than any imposed by the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the Eastern District of Michigan, or any other applicable law or rule.

3. Eight Mile objects to the Interrogatories as duplicative, unduly burdensome, and harassing to the extent they seek information that is equally available to Defendants, or information that could be derived or ascertained by Defendants with substantially the same effort that would be required of Eight Mile from review of the documents produced in this case.

4. Eight Mile objects to the Interrogatories to the extent they seek information that is not in Eight Mile's possession, custody, or control, or that is publicly available.

5. Eight Mile objects to the Interrogatories to the extent they seek information that is confidential, proprietary, trade secret information, and/or competitively sensitive material. Eight Mile will disclose such responsive, non-privileged information only upon entry of, and in accordance with the terms of, an appropriate protective order.

6. To the extent that the Interrogatories seek information concerning an identified contention or factual issue, Eight Mile objects that the Interrogatories are premature. Discovery in this case recently commenced, and Eight Mile has not completed its investigation of the facts relevant to this case. Eight Mile's responses are necessarily preliminary and are made without

prejudice to its right to disclose, introduce or rely upon information that may be later discovered or produced.

7. In responding to the Interrogatories, Eight Mile does not waive, or intend to waive, any privilege or objection, including, but not limited to, any objections to the competency, relevance, materiality, or admissibility of any of the information disclosed in response to the Interrogatories. No objection or response made in these responses and objections shall be deemed to constitute a representation by Eight Mile as to the existence or non-existence of the information requested.

8. Eight Mile objects to the Interrogatories as vague, ambiguous, overly broad and unduly burdensome to the extent any Interrogatory requires Eight Mile to provide information that is different from or at a different time than as required under Federal Rule of Civil Procedure 26(a)(2).

9. Eight Mile objects to the Interrogatories as vague, ambiguous, overly broad and unduly burdensome to the extent any Interrogatory commands or requires Eight Mile to provide responses or documents in any manner or to any extent that is different that the scope provided by Rules 33 and 34 of the Federal Rules of Civil Procedure.

OBJECTIONS AND RESPONSES TO INTERROGATORIES

INTERROGATORY NO. 1:

Identify all works for which You seek relief through Your Complaint.

RESPONSE TO INTERROGATORY NO. 1:

Eight Mile incorporates its General Objections above.

Subject to and without waiver of the foregoing General Objections, Eight Mile responds that any relevant information that may be within the scope of this Interrogatory may be

determined by Defendant's examination of the Complaint filed in this matter, in particular paragraph 8, and collective Exhibit A attached to the Complaint. Defendants are in possession of the Complaint and Exhibit A referenced therein and the burden of deriving that information is substantially the same for Defendants as for Eight Mile and therefore Eight Mile refers Defendants to same. *See* Fed. R. Civ. P. 33(d). Further, see Schedule 1, Plaintiffs' Compositions, attached hereto. Discovery in this case is ongoing, and Eight Mile reserves the right to supplement or amend this response at a later time.

INTERROGATORY NO. 2:

For each work identified in Your response to Interrogatory No. 1; above, Identify all Persons who have an ownership interest in that work.

RESPONSE TO INTERROGATORY NO. 2:

See Response to Interrogatory 1.

INTERROGATORY NO. 3:

Identify all Persons with knowledge of any of the matters alleged in Your Complaint.

RESPONSE TO INTERROGATORY NO. 3:

Eight Mile incorporates its General Objections above. Eight Mile specifically objects to this Interrogatory to the extent it calls for information protected by the attorney-client privilege and work product doctrine. Eight Mile further objects to this Interrogatory as overly broad, ambiguous and unduly burdensome in that it is not possible for Eight Mile to know "all persons" who have "knowledge" of the same, or what an unknown third person may have read about the Complaint or the allegations therein. Eight Mile further objects on the grounds that the Interrogatory is vague and ambiguous with respect to the term "knowledge" of the Complaint and its allegations. Eight Mile further objects to this Interrogatory to the extent the information
