

3. Lionel Maten participated in at least one of Micah's Person Centered Planning meetings, which occurred in the spring of 2007, part of this meeting included discussions about housing at Oakland University for Micah.
4. When Micah and I toured the housing at Oakland University in the spring of 2007, Lionel Maten was the person that arranged the tour and he personally greeted us at the start of the tour. The point is that we were dealing with an Associate Dean and the Housing Director; I would expect that they would know what the housing policies and rules of the university are.
5. No person from the University ever told me that Micah would have to meet a grade point average requirement in order to be admitted or continue living in on-campus housing. The discussions I had with university officials before the fall of 2007, implied that once Micah was in the OPTIONS program he would be officially a student and no longer a "guest student." Once he was a student ~~he~~ would be eligible for housing.
6. During several discussions that took place between 2006 to 2008 it was mentioned several times that eventually there could be a certificate of graduation for students in the OPTIONS program and participation in the graduation program.
7. It was suggested to us to wait and apply for housing in the winter term instead of the fall term at the start of the school year. This was so the housing department would know if there were any openings available in the residence halls. We were told if there were openings Micah should be able to get into the dorms and that is exactly what happened. He was approved and then his approval was rescinded.
8. The requirement that Micah be enrolled in a program leading to a degree was not mentioned prior to his approval being rescinded.

If called as a witness and sworn, I am competent and fully able to testify to the matters stated herein.

Rick Feldman
