## About Us

### What We Do

GymPost is the premier service for helping frequent travelers, new residents, and others find a gym, pilates studio, or other fitness center. Our detailed business listings help take the guesswork out of selecting a fitness center and pair users with fitness centers that meet their specific needs and satisfy their desires. User reviews contribute to our appeal by offering independent perspectives that are useful in selecting a fitness center.

### News

GymPost.com received an Honorable Mention from SEOmoz for our sophisticated and polished [mapping feature](#) that uses Google Maps technology to let users search for fitness centers. Among the five other websites receiving honorable mentions in the "mapping" category are Yahoo! Maps and Microsoft's Live Maps. We're certainly honored to be included in such distinguished company.

GymPost.com was featured in the January 2006 issue of Smart-Money magazine. The magazine recommended GymPost.com to readers looking to make good on their New Years resolutions to get fit.

### Other

GymPost was founded by Ryan MacGregor. Ryan graduated from Penn State University with a degree in Electrical Engineering in 1998.
