

EXHIBIT F

Flipside

Who is Flipside?

We're a talented group of engineers and project managers who know how to create, manage, maintain, and monetize quality user experiences on the Internet. We're particularly talented when it comes to paid search and lead generation.

What's Our Specialty?

We know how to bring users to your site, but more importantly, we know how to encourage them to stay and to keep coming back.

Where are you located?

With offices in New York City and LA, you would think we hate each other, but on the contrary, we actually get along quite well.
