Re: *Weather Underground v. Navigation Catalyst Systems, Inc.*

Dear Enrico:

In reviewing Plaintiff's Motion to Compel and the exhibits thereto, I noticed that you attached as an exhibit the NCS spreadsheet containing the revenue information for the domain names at issue in this matter. That spreadsheet was clearly marked "CONFIDENTIAL" pursuant to the Protective Order and, pursuant to that Order, should have been filed under seal. See Protective Order, Section II. E.

Please let me know immediately whether you will correct this violation of the Protective Order and stipulate to having Exhibit N sealed as required by the Protective Order immediately.

Thank you in advance for your cooperation on this issue.

Very truly yours,

William A. Delgado
