Re: Robert Alexander

Dear Dr. Eckardt:

This letter will confirm our conversation of today in which you confirmed that in December 2004, you operated on Robert Alexander and removed a cyst from his leg that was cancerous. Additionally, once he recovered from the surgery, you prescribed a course of radiation therapy (which, I am informed, he is now commencing). You instructed Robert Alexander not to travel during that radiation therapy. If this letter is accurate, I would appreciate your counter-signing the letter to indicate that it is accurate.

As I related by telephone, I apologize for disrupting your very busy schedule with this matter and greatly appreciate your taking the time to respond.

Thank you for your cooperation.

Sincerely,

  
David J. Bradford
