Hi Andy,

I heard the threats stating, "I'm about to kill him," while listening to an album by the artist, Miguel 'Migs,' who included the song, Cafe Style 1, on a CD he mixed and copyrighted that's entitled, "Nite: Life 03" (produced by P&C NRK Sound Division, 2000). I also heard the threats while listening to the song on Youtube.com (see, <http://www.youtube.com/watch?v=GBj8QRfj0c4>). The latter album was allegedly distributed as a single by your group's production company, Silver Network.

I'll send you a copy of the threats stating, "I'm about to kill him," while I listened to the said albums in the next two days. I'm under the impression that my computer may have been compromised and bugged by an individual stalking me. As such, could you please tell me if Cafe Style 1 was ever mixed with the threats by either of the aforesaid production companies?

Hi Andy,

Thanks for recently adding me as your myspace friend. I have been a big fan of your group for several years, especially since I first heard the song entitled, Cafe Style 1, that was produced by your group. Oddly, I recently heard the trek with the words, "I'm about to kill him," on it as I played the song on my computer. Is there any way you can tell me if you or any of your assigns ever produced a version with those words on the trek? Please let me know when you get a chance.

Truly,
