Salem Public Library has been successfully configured for MOREnet's Internet Content Filtering Service powered by Netsweeper. Please keep this email for future reference.

To activate your Content Filter a change must be made to your router configuration. A technician will contact you to schedule the router change.

A MOREnet technician will call you to confirm that the filter is working properly and to discuss your reporting needs. If this is not convenient for you, please call Technical Support at 1-800-509-6673 or email to techsupp@more.net, and we will be glad to work with you at your convenience.

Content Filtering Configuration:

Your organization is currently configured for a default level of filtering. The following categories will be filtered:

- | | | |
|------------------------|---------------------|--------------------|
| Adult Image | Journals and Blogs | Pornography |
| Adware | Malformed URL | Profanity |
| Alcohol | Match Making | Proxy Anonymizer |
| Alternative Lifestyles | Network Timeout | Safe Search |
| Criminal Skills | Network Unavailable | Search Keywords |
| Extreme | New URL | Substance Abuse |
| Gambling | Occult | Under Construction |
| Hate Speech | Phishing | Viruses |
| Host is an IP | | Weapons |
| Humor | | |

Exceptions can be allowed for all of these categories for any reason. For further information on how to adjust your filter settings please see the following documents, Netsweeper Instructions and Sysop Options.

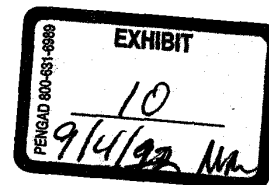

To view or modify your filtering options, you can access the filtering server at:
<http://tigers.more.net/webadmin/start/>

Username: 3206
[REDACTED]

A user account has been created to use for overrides.

Username: 3206pm
[REDACTED]

url tools

MOREnet strongly recommends that you change your password as soon as possible. You may wish to continue using the same username as it allows quick identification by MOREnet within the filtering service and also does not have to be changed if the account changes ownership.

You may wish to test your filter by trying to access a site it should be blocking from one of the categories above.

Reports:

MOREnet Technical Support can configure a number of reports for your institution. Please see the document

5/7/2009

Reporting Options in MOREnet-hosted Internet Content Filtering at <http://www.more.net/services/filter/reports/index.html> for report descriptions and examples. For generalized reporting, configuration of a daily category activity report and a weekly site activity report for each IP range assigned to your institution is recommended.

Training:

Available classes are listed on the MOREnet Training Schedule located at <http://solutions.more.net/apps/training/schedule/>. These classes are provided at no additional charge.

Announcement List:

You will be automatically subscribed to the listserv for MOREnet-hosted ICF services, ICFMNETHOST. MOREnet will use this announcement only list to inform customers of problems and changes to the service. If you need to change your subscription to another address or wish to be removed from the list, please e-mail MOREnet Technical Support at techsupp@more.net with your request. You will receive separate subscription verification when you have been added to this listserv.

Please don't hesitate to contact us with any questions or concerns.

Thank you

Rebecca Wall
