Camdenton R-III School District Vs. the ACLU

The Lake Area Conservative Club strongly supports the Camdenton R-III system against the ACLU. Since the lawsuit by the ACLU was filed, the Lake Area Conservative Club has contacted the Alliance Defense Fund about intervening on behalf of our school system.

LACC members in attendance during the previous two school board special sessions were calling on the School Board and Superintendent Tim Hadfield to seek ADF's counsel and expertise alongside the attorney representing the school district. The ADF fees in most cases are pro bono. Our kids and our school system are too precious not to seek advice from those who are familiar with the ACLU and their bullying tactics. In addition to help from the ADF, School Board members have also been personally contacted by attorneys as far away as Washington, D.C. offering their assistance against the ACLU.

What is clear is that there are multiple school systems monitoring this suit across the country as it works its way through the courts. Every school system thus far in twenty states has caved in on the ACLU's "filtering project" with the exception of one: Camdenton R-III. This has been reported on Fox News and newspapers on the East Coast.

It is unknown at this time whether or not the ADF filed the friend-of-the-court brief with the blessing of the school board, which is not required.

• Welcome to Lake Area Conservative Club

The Lake Area Conservative Club is a group of citizens who have joined together to restore not just fiscal discipline to our government, but to promote the return of traditional conservative values that made the United States of America such a great Country. We believe the Constitution should be a revered document and we should follow those ideas as set forth by the framers in the Constitution. Please come join us in this endeavor to accomplish such goals that would allow our children and grand children to have the same opportunities we have enjoyed.
