Dear Jeff,

Enclosed are comments, articles related to the BPL case as requested in your August 12, 2011 pleading served upon the court.

I am enclosing comments, article of August 9, 2009 article due to Judge Lynch indicating liability to your client. Note a "non-correction" to that article also included.

Within comments found for September 10, 2009, invalidation of career job at FEMA included as page 8 which I attempted to correct with John Cramer and Perry Backus as indicated on the form. Comments regarding my health included.

Both articles identified my name on the front page of the Ravalli Republic Newspaper. On June 27, 2011 it appears I sent the comments to the August 9, 2011 article.

This should satisfy your discovery request.

Please contact me if you have any questions.

" Thank you Ravalli Republics for finally exposing this guy to the general public. Has anyone looked into his criminal history prior to 2007? What about from other states he's lived in? This is the type of stuff that should be disclosed by someone running for a public office. WE THE PEOPLE have a right to know who we're really potentially voting for. AND I like that I can speak with anonymity on here, I would not want this guy knowing who I was in fear of retaliation. Does this guy have a family? How are they treated? "

" It is apparant that Mr. Spreadbury suffers from serious psychological problems and needs to seek help before he accuses the wrong person with his nuttiness and that person proceeds to apply an attitude adjustment. In other words, go away. You will not be mayor, but you should be gone! Shoo "

" Sounds like Mr. Spreadbury is ready for Wame Springs, rather than Mayor of Hamilton. "

" He wants to be Mayor??? I think not. "
