

Exhibit B-6,7

Police Report removed

The Hamilton Police feel that the city-owned block containing the Bitterroot Public Library is private property, so does the former JAG lawyer now Judge Michael Reardon of Hamilton Montana. It is not a crime to sit on public property, just stupid people out doing themselves, and violating their oath to the US Constitution, but affirming the Ravalli Republic where no constitutional rights are given.

The librarian and the "witness" (who pays rent to the librarians EX) say that Spreadbury pulled up at noon on this day. What happens when evidence is brought to prove otherwise, like an email sent from the WIFI in front of the Bitterroot Public Library:

conflict of interest, ect.

please edit this movie to be the incendiary bomb that we wanted in August.
