While I did offer a reward to anyone who could bring information that would disbar George Corn of Montana, this proof shows that no threat exists, I thank those who looked through this material, and "played the game". That is all life is in Ravalli County and Montana, a game to the judicial system. Crime is ok if you were married to it, or you are going against an "undesirable" [a non-native person to Montana]. That's why we call this place **MONTANISTAN**, the "last best place for justice".

This is what we meant by the Ravalli Republic, due to it not being the American Republic in Hamilton MT.

In 2007 we asked the Montana Congressional delegation for a Congressional Inquiry to Civil Rights in Montana. Melodee Hanes, soon to be Mrs. Baucus gleefully told us "no dice", then moved to DC with Max.

A letter was written to the US President in 2009, the nexus of this encounter was asking for it's placement in the Bitterroot Public Library. By banning it, millions of Americans have wanted to read it and have. If you Google "Letter to the US President", our letter is #1 from Montana under the US White House listings.

So for a group of people who wanted to punish the messenger, the joke is on you. Moral judgment of Ravalli County and Montana from the world readers of our information since 2007.

We the Ordinary People of Montana thank you:
