Professionals in Montana.

This Blog post will direct you to all of the professionalism in Ravalli County, and Montana. It has direct connections to the 44th (and current) President of the United States.

1) **The Montana US President Letter**, where we highlight the ENTIRE Montana Justice System, ranked last for justice in the USA; [48/48 states] displaying the Professionals in Ravalli County. We also asked for civil rights from the First African American US President.

The Jim Messina Political Show--asking for civil rights since 2007. Jim worked for the first African American President, and didn't work on civil rights. WOW.

Jim Messina was Max Baucus' chief of staff prior to 2009 White House appt.
<http://www.montanapoliticalnews.com/2011/09/jim-messina-political-show.html>

[see ties to Mrs. Baucus, (formerly Medodee Hanes) now covering Eric Holder at US DOJ as Chief Administrative Counsel for "fast and furious"; killing US agent, Mexican citizens is now just a "problem" and ok if your are African American]. Political/criminals in USA care of Max, Montana.

Note: Melodee Hanes used to prosecute "baby murderers (parents)" in Iowa: Murder 1 for Murder 1, as her then husband declared suspicious deaths of infants murder as Iowa chief medical examiner. When Melodee ran out of Iowa, she ran right to Montana as Max's chief of staff in 2007. Now she is married to Max, the king of "if you disagree, I'll arrest you" in re: public option for Obamacare.

Future Ms. Baucus looks like Rumsfeld:
<http://www.montanapoliticalnews.com/2011/06/future-mrs-baucus-looks-like-rumsfeld.html>

Notice this blog post started, ended with letters, information about the 44th President, all connected to Montana, and Ravalli County by "Montanan" Jim Messina. The President letter asks Jim Messina who George Corn is, well, since Jim Messina swiped our US President Letter, we'll tell you. He violates Americans rights in Montana (check the Letter to 44 linked above). Corn is best friends with Max Baucus, who protected Corn via Jim Messina, Campaign Manager for 2012 Obama.

Jim Messina also protected the criminal act of Angela Wetzsteon, **WATERGATE STYLE**:
<http://www.montanapoliticalnews.com/2011/09/obamas-montana-watergate.html>

The Montana US President letter asked Obama who George Corn is. He is a best friend "BFF" of US Senator Max Baucus: who put Messina in the White House. Case closed America.

Note: see letters to US Senators pg. 194-197 which got attn. of former Deputy FBI Director Richard Powers. Jim Messina "replaced" Powers as soon as Obama was in power in early 2009.

[it only goes to show you what a Montana Professional like Messina can do.]

We just connected the dots. Enjoy your journey through the unbelievable. Its your USA.
MERRY CHRISTMAS EVERYONE. HERE IS A PRESENT TO THE AMERICAN PEOPLE:

RE-NEW THE VISION

My days of fighting Montana Corruption are coming to a near end. I want to remind readers of my decorated service to FEMA which solely came from hard work, and adherence to policy. I enjoyed serving my country, and dont rule out more service in the future.

A person helped me tremendously on my journey in the last 5 years to expose the issues in Montana that no person dared expose. The owner of this blog network has given truth a chance. Truth versus propaganda has always been a sure victory to those collecting government paychecks in Montana. Any tale could be made "real" until we decided to document it.

The other day, I made affidavit that I have never committed a crime in Ravalli County Montana. This is a profound statement, due to being charged with 4 separate crimes in Hamilton, MT. We have to ask why politicians, prosecutors, and law enforcement in the last ranked state, last ranked county feel that destroying good people is their right.

along my journey:
deprivation of right, abuse of power in my residence
[translated into 9 languages, watched by our foes: Russia, China]

State Probation Officers, Chief of Police violate common law.

The other question is why have I stayed the course to see my situation all the way through? It has erased my support network, it has dissolved my work life, it has caused much stress, strain. It is due to how I was raised, and how I was trained to work for something I feel strongly about.

My big fear is the occupiers in America. While my issue is winding down, theirs is only getting more of an issue. I fear my government, for they dislike losing so much. Sometimes the rules change, for their advantage. I fear the mass arrests and mass deportations we hear of. I will not participate in any more social engagements, because I feel the US Constitution has been suspended, and we are in danger until those protections are established once more.

It took Presidential appointment [2008 Mr. Edwin Eck--IRS] to cover up the criminal activity that destroyed my work life, amongst other activities. A \$40M building was a quid pro quo for protecting the lie. I made a video of the building to inform incoming students of the problems at Montana Law:

Angela Wetzsteon '08
protected by all of Montana for her criminal act August 8, 2007

prosecution unsupervised--Ravalli County Montana

Men like to feel powerful. When they act outside of the law, it takes lots of favors to cover up the crime, and the followup. Montana does not know much else.

It inspires me that the Deputy Director of the FBI was interested in my initial letters about Ravalli County found on the Bitterroot Rising archives: pg 194 of 238

<http://www.bitterrootvalleynews.com/2010/12/bitterroot-rising-archives-truth-will.html>

These archives were ordered down due to the material that is not flattering to Ravalli County Montana. The truth with some persistence usually win; we faced a foe that killed, destroyed in order to drive fear to not question or probe deeper. The FBI call this Stockholm syndrome.

Next we published a letter to the US President about the corruption, and problems in Montana:

<http://www.montanapoliticalnews.com/2011/06/open-letter-to-president-obama-pleading.html>

[Note--10 pages long]

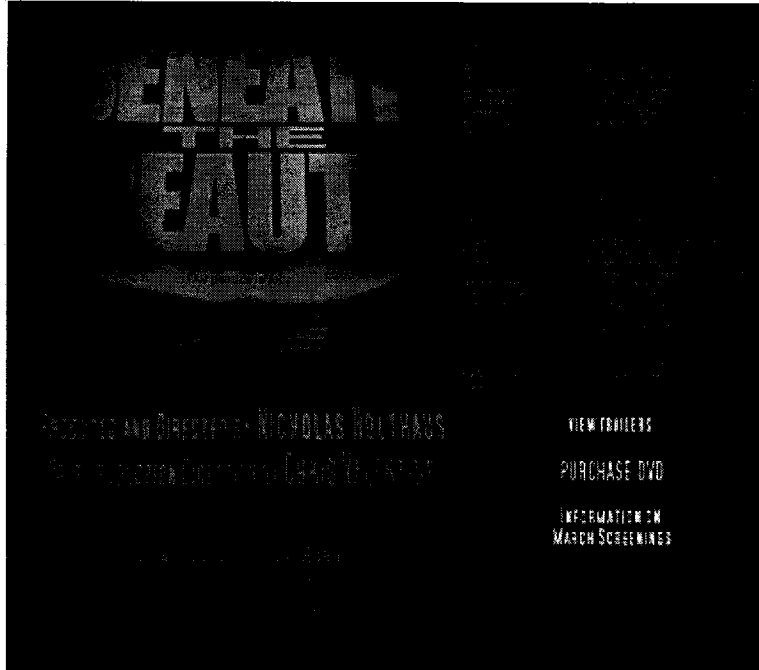

A side caviat was the lack of protection at the Rocky Mountain Labs, and now their sound fraud which affects the publics health--yup thats the National Institutes of Health for you. The corruption absorbs all that is within Montana: local, county, state, federal. Here is the spontaneous video showing the problem in Hamilton MT at Rocky Mountain Labs:

NIH Rocky Mountain Labs, Hamilton, MT

read more: WORLD EMBARRASSMENT OF THE NIH NOT ENOUGH.

<http://www.industrywhistleblower.com/2011/09/nih-fraud-world-embarrassment-not-enough.html>

We commissioned a film to be produced about our situation. I was fortunate to know an independent film producer who took on the challenge. In the first 45 minutes, he detailed the extent of the problem, the fear, and the people not willing to put up with the corruption any longer.

available: www.BeneaththeBeauty.com
[cost of production covers purchase price--we make no profit]

I dedicate my work to the 4 men who took their own lives in 2005 at the Ravalli County Detention Center. It was the culmination of a system out of control. Judges were, and are not independent. Constitutional rights take a back seat to "will of the local government". It was out of control, and needed the backup of white house staff in 2009. The FBI deputy director was replaced by Montana resident Jim Messina of the current administration.

George Corn the County Attorney was the subject of the US President letter due to demanding excessive bail (a police report had no probable cause of a crime). We own his name, www.GeorgeCorn.com and removed him from office in 2010. A Mission Accomplished.

The last leg is to remove Steve Bullock from office, Attorney General currently running for Governor of Montana. He threatened my livelihood, and my house in Hamilton, Montana to try to protect Corn. Please see www.MontanaAttorneyGeneral.com for the posts about the man who governs by threat, not by public service: Steve Bullock.

While I am encouraged by the desire of Occupy to change our country, my viewpoint sees the danger of our governments. They are not to be trusted, and I fear a real crackdown as the movement grows to crush the perceived threat of their power to egocentric politicians like Jim Messina, and others. I have lived the damage inflicted by newspapers, law enforcement, and prosecutors. The last resort for governments is maliciousness with no shame of depriving rights: it is questionable if our rights exist anymore under the US Constitution.

I played the Montana corruption to its end. While I did not ask for the fight, I am taking it to its conclusion although the decision; it has affected my life more than most would accept. Being true to yourself has more intrinsic value than any public official in Montana.

Worldwide Occupations

Not many people get the reason people are out freezing their parts off to make a message. Most city and state officials don't get their oath to uphold the Constitutional rights in the USA.

Most candy goers (out of 1200 at my residence) don't even recognize the symbols of the Occupation.

#Occupy America is not just about Corporations.

The occupations are to bring power back to the people. Corporations are not more powerful than people, and should not marginalize them, pay to have people's rights violated [Note the \$4.5M donation to NYPD by a national Bank in NYC].

There have been nearly 2500 unlawful arrests in America since September 17, 2011 when the first stance in Zuccotti Park in NYC. Peaceful assembly is never a crime in a public park, affirmed by the US Supreme Court in 1939 in *Hague v. CIO 307 US 496 (1939)*.

On August 20, 2009 I peacefully assembled on public property in Hamilton Montana and was charged with trespassing. There is no difference between peaceful Occupiers and my laptop use from the Bitterroot Public Library public grounds. No law can be enforced with violate a constitutional right (here peaceful assembly; Amendment 1).

I have been blogging in support of the Occupy Movement, via my established freedom of speech; this blog network actually got a US District Judge decision in Portland Oregon (there are no constitutional rights in

Montana) specifically for this blog network to speak. Speak we shall.

#OWS facebook image

It is inspiring to have a world worth of Occupiers with you. For the last 4 years, I was speaking on a website ordered down (speaking of freedom of speech). Luckily this blog network found me, archived my website, and collectively we speak to the masses online. We write about rights, the courts, the corruption with respect to lawyers who are corporate backed, and protected in the US and Montana courts. These problems have no borders on this planet: people of all nations are speaking up.

If you would like to join us, inquire with Crystal Cox, owner of the network. She can be reached at Crystal@crystalcox.com. We have one message, that corporate crime, and violation of human and civil rights is wrong. Our weapon is the truth. If you are passionate about these these things as we are, and have the gift of the power of the pen, consider making our voice even stronger.

Video made for all of us within the UPRISING.

Realize that you may have to give writing samples of your work, or other criteria deemed necessary by Crystal. We completely work with the Occupy America philosophy, and use out talents to support the

movement from our keyboards. Note, we take on big financial firms in NYC, Portland, and a Government Lab in Hamilton, MT, amongst other "corporo-governmental" scum.

We do not discriminate in our written craft: if you harm the people or violate laws, you may be written about, and exposed online. Perhaps the American people will now bring our US Constitution back to the table, and back to the protection of Americans, and citizens of the world who had enough imbalance of power and control over the people.

FEMA stuff

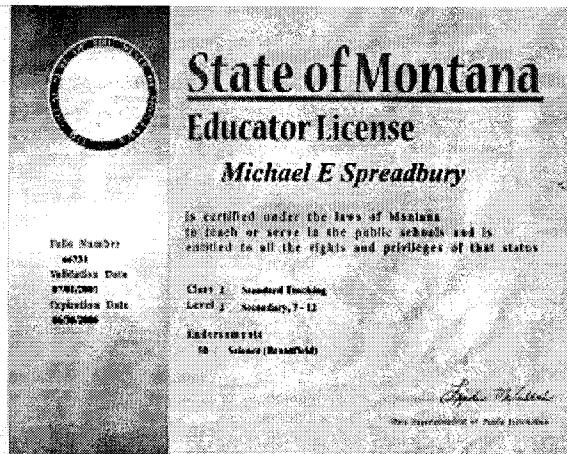

Alright, lots of people are checking if I actually worked for FEMA. Well, I did. I am proud of my work for them, and yes, I was decorated for some of the work I did.

Here are some pictures, documents, and other certificates on this link.
<http://www.investigativeblogger.com/2011/05/some-intel-on-spreadbury.html>

Here is the Exceptional service certificate that less than 1% of FEMA employees get:

I'm going to add my Education license from the State of Montana

While I cannot completely identify or compare myself with Valerie Plame, I saw her movie, and read her book, which gave me much solice, comfort, and understanding.

A powerful US Senator Max Baucus (D-MT) and his employee Jim Messina (now campaign manager for Obama 2012) are covering for the 48th ranked Montana (of 48). They allowed evidence tampering, unlawful (unsupervised) law student prosecution outside of Constitutional rights, and are using everything from US Judges, to Prosecutors, to Law Deans to cover up a crime.

Forget fast and furious----these people stole my life.

That is un-American. It is bullshit, and it is why people are **Occupying America**.

HOW IT IS

When people are searching my name on the Internet, I am one step below Michael Savage of San Francisco, California. Mr. Savage and I have something in common.

WE HAVE BEEN BANNED.

telegraph.co.uk

Michael Savage, with the Savage Nation radio program banned from the United Kingdom (England); and my own unlawful ban from the Bitterroot Public Library in Hamilton Montanistan.
[that's Montana without rights]

How it is in the United States: the truth does not matter. Corruption has taken over folks. When you ask a newspaper chain not to defame you, sit in a crowded waiting area and compose a professional written request....there are Federal Judges, Police Chiefs, and Corporate Lawyers who are more than willing to say you did something that you did not.

When you catch Lee Enterprises [available at www.LeeEnterprisessucks.com] writing 33 articles about you within 36 months, and publish that you were convicted of something you weren't even charged with, let me ask you what is wrong with Print Media in America? More than 50% of Americans don't trust print media, so why do we listen to Corporate News, Corporate Print Media, and Now Corporate Yahoo! News who just merged with ABC News?

We have a Truman show of our own in Montana; he happens to be running the show for our US President who might not even be an American citizen. Read about the Jim Messina Political Show at:

Jim Messina had the Missoulian pull his goofy picture, so lets see how long it takes him to call the Chicago Tribune to pull this photo.

The Jim Messina Political Show: how We the (ordinary) People of Montana sought civil rights.
<http://www.montanapoliticalnews.com/2011/09/jim-messina-political-show.html>

Civil Rights (or lack thereof) in Hamilton Montana....my Gulag.

Police Chief Ryan Oster, Hamilton Montana Police Department
unlawful search (without reasonable suspicion)
& unlawful entry by Hamilton's finest.

Hamilton Montana City Council
hear about the law enforcement crime

how do we cover up crime within our police department?

[you wont believe your ears about our police chief]

I am now on house arrest for requesting a letter to President Obama from 2009 be entered into a public library. It has gotten millions of hits, it has been sent by email hackers to millions more. It asked the first African American president for Civil Rights, and was stolen by Jim Messina, his campaign manager, and former Deputy Chief of Staff in the White House (Jim Messina is "from" Montana).

The 2009 Montana Letter to President Obama, banned from the Bitterroot Public Library:
<http://www.montanapoliticalnews.com/2011/06/open-letter-to-president-obama-pleading.html>
[Note this is a 10 pg. letter describing law enforcement problems, corruption in Montana]

There are demonstrations going on throughout the United States as you read this. That is how it is. Politics, banks, attorneys are owned by the same corporate forces that steal livelihoods, property, and get away with perjury because they are in the elitist club that American Justice has become:

BREAKING THE LAW

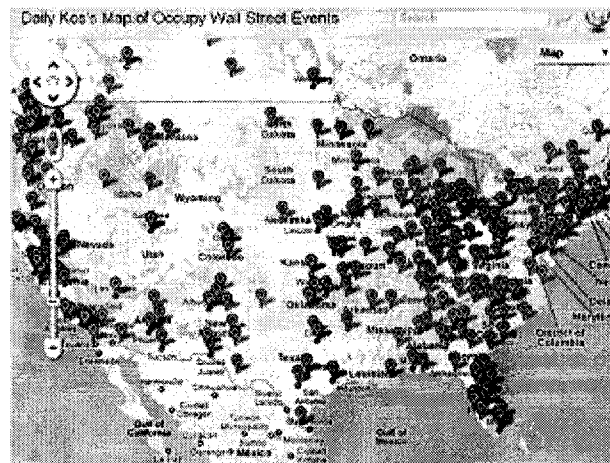

Law Enforcement have no bounds for many reasons. One is obvious. They had esteem problems in High School, now they can own anyone due to unchecked power. They know no bounds due to prosecutors having too much ego, and having law enforcements back. Judges make sure the badge wins. Don't misread this: I have worked with excellent law enforcement, and fire personnel as a decorated FEMA officer. It is just that corruption and corporate greed has come before common sense and dedicated service. Dedicated personnel can be eliminated by corrupt ones, anywhere.

If Troy Davis was accused of killing anyone other than a cop, he might have been spared. This is "how it is".

If you even think of upholding the law against the American Justice system, even if there is case precedent that supports you, "forgetta bout it". That is how it is.

So I hate to break it to you....the protesters throughout America who are occupying, on public property need your support, your understanding, and realization that a political solution probably is not feasible. Peaceful means can change problems, by no means am I advocating anything else.

Sites of resistance for #Occupy America
[now in 80 countries, 1500 cities]

wonkette.com

On Wednesday October 5th is a VIRTUAL support for #Occupy America. Get on Facebook and find Occupy Phoenix, LA, Boston, and Wall St. This movement must gain in size, this movement does not need to be centered in one place. This movement must end the political dance we have seen by people like Karl Rove and Jim Messina--ordinary men elevated to extreme power positions who have power over too much corporate control. Humans on this planet need not suffer due to corporate greed.

In my political past, I acted as chairman of the Reform Party in Montana. I have personally helped Ralph Nader, met with and discussed the future with Ralph Nader in 2004. His presidential campaigns since 1996 were to get this very message out: corporations that he fought "Unsafe at Any Speed" are controlling the world. The independents that outnumber the "republicans" and "democrats" in voter power need to stop voting for corporate parties, period.

The Beginning of the End for Corporate Parties in North America

The United States and world are now unsafe for any free human, due to corporate greed, welfare, profiteering off war contracts, and much more. American soldiers should not die for corporate interests or limited global resources. They are dying in Afghanistan and Iraq for corporations, including the biggest one of them all: The United States.

The Corporate Picture that OWNS the USA.

I have requested a return of Constitutional rights from the President via the author of the Montana President letter (circa 2009) and the FBI director via 18 USCA s. 242 (conspiracy to deprive rights) in 2011. If you are from the FBI, or wanting to know why I want George Corn, Steve Bullock (MT Atty General) prosecuted, and jailed:

Here is the receipt from the packet sent to Washington, DC:

I have filed two of the largest 42 USCA s. 1983 Civil Rights cases Montana has ever seen. The federal judges are quick to protect corporate attorney crime, and fast to go outside bounds of precedent to threaten me financially. When you take on TWO corporate firms in front of Federal Judges who are supposed to uphold the US Constitution, they don't. They listen to who appointed them, in this case MAX-thanks A Million BAUCUS, our 6th Term Montana US Senator who marries staff, and can place staff into the US White House:

Jim Messina. Mr. Messina has removed the Deputy Director of the FBI Richard Powers early in the Obama Presidency who was interested in our Congressmen letters, US President letter from Montana:
<http://www.ethicscomplaint.com/2011/06/open-letter-to-president-obama-pleading.html>

Readers might find it interesting that a FBI agent threatened the author of the US President letter. He documented it, made affidavit, and to date the Federal Gov't has been off limits to our group.

<http://www.industrywhistleblower.com/2011/09/nih-fraud-world-embarassment-not-enough.html>

The FBI were asked to help with protecting federal employees, American citizens; they threatened and protected local law enforcement. [see Montana US President letter (linked above)].

We were warned about the military industrial complex. National Institutes of Health (NIH) is a government lab. They are government scientists. They think they are unstoppable, especially one of the directors, Dr. Anthony S. Fauci in charge of NIAID (infectious diseases) and hob-nobbing with the last 4 US Presidents. With patents on AIDS treatments, this director is cashing in.

NIH looks at infectious agents without a cure, yet does not provide ANY safety structure on the RML campus

in Hamilton, Montana. Only 40,000 Americans would die if Ebola, Flesh Eating Bacteria get loose. That is the corporate, and military industrial complex: profits matter, humans don't. Greed is a very easy payoff to most humans, especially Americans. Corporate greed means you can own that BIGGER house, or that imported sports sedan you always wanted. You will just have to protect the corporate line. This means lie, steal, oppress, take, and protect corporate America.

That's how it is.

Who is in OCCUPY AMERICA, What is it about?

So will you suffer for standing up to the corporate machine? Absolutely. That is what makes most people not try. When your career is taken, your reputation is taken, and your ability to work is taken, and you have been unlawfully put in jail (more than once in a cruel fashion) not much can stop you. That is how it is.

So why are so many people googling Michael Spreadbury from Montana? Because I say it how it is. I have tried for a political solution, I have tried upholding my rights. I am now saying we must peacefully assemble **IN MASS** in the United States until our rights, our dignity is upheld. The monied system in Washington DC and politics is a dead end street for WE the People.

Governments should not cater to or funnel money into CORPORATIONS.

Support the protesters in any and every city in the United States. Send financial donations, send food, send blankets. Watch their youtube videos. It will not end until the corporates, and the politicians get it. The domination, and protection racket in the United States is finished.

--Geoffrey R. Stone, University of Chicago Law
