Many sites showcase people making as much as \$300 a day working online from home on their computer.

Are online jobs the next big thing? For Mary Steadman it sure is. Mary, an Account Rep laid off from a large Manufacturing company, is thriving in the midst of an economic recession all the while working in the comfort of her own home.

From her website: "I make about \$21 for every link I post on the Internet, sometimes \$23.50. I get paid every week, and my current income is around \$9,875 a month."

Mary's story is one we hear all too often these days. Working as an account rep for a large manufacturing company she was laid off from her job. A few days later her husband was also laid off from his company as well as part of the continuing cutbacks in this terrible economy.

"We knew we had to do something and do something fast. Our house payments weren't going to pay themselves. We put our heads together and started trying different online job opportunities. May and her husband David wound up getting sucked into a couple get rich quick 'business opportunities' that turned out to be nothing more than scams before they found something that really worked.

"I realized the best thing to do is instead of hoping that a company that you are looking at is going last, why not go with a big, reputable company. After looking at several different companies, I picked the safest bet... Google!"

Mary Steadman lost her "boring" job as an account rep for a manufacturing company a few months ago. She now makes \$5500+ a month working from home on the Internet. Read her story to learn how she did it and how you can do the same.

Online giant Google is a publicly traded company and is currently worth \$132.5 Billion (Yes thats Billions with a B). The company has pioneered online search and has changed the way we use the internet.

In a matter of weeks Mary and David had a steady stream of income coming in via checks that were delivered right to their home. They happened upon a system called "[Online Cash Success Kit](#)." This showed them how to make money posting online links.

[Online Cash Success Kit](#) is an online course that can teach anyone, regardless of computer skill level to start making money online. .

"We were doing ok but then we discovered the real trick to making money. We combined the Google Kit with two other online courses called "[Google Home Income](#)" and "[Google Click Money](#)." Thats where we really learned the extra tricks that the pros know. After combining the three courses things really took off for us; instead of making a couple of hundred bucks here and there, our incomes skyrocketed."

Mary even shared with us a picture of the kind of checks she now gets every month:

For those of you that have seen the 'scammy' sites on the internet that promise you can make millions of dollars online. Mary warns that this is not the promise being made here and that most of those sites are false representations of earnings you can make.

"We never tell anyone they'll make millions of dollars, in fact I think this is the ONLY online system that says you probably WON'T get rich overnight, but you can generate a legitimate income from home like I used to replace my full time job."

Step 2:
Get [Google Home Income](#)
(This is key. Must do this!)

Step 3:
BONUS STEP: [Google Click Money](#) (Only for those who need significant income)

Step 4:
Post the Links given to you, and then just deposit the checks mailed to you!

Is this for real? I tried one thing and it didn't pan out. I made about \$500 a month but that was 2 years ago. I'm going to give this a shot.

Mary says:

I think this is great and will come in really handy right now. I'm not the best computer user but I think I can post links!!! :)

Davis says:

Just a quick notice about this thing. It does work but you have to be able to use a computer at least somewhat. If you can use email, etc. then you'll be fine.

Holy cow Mary! Thanks for posting that screen shot, you just gave me the inspiration I needed. Wow! :)

@Thomas, I'm using it now and it's working pretty well actually! I paid a dollar for shipping, got it in a few days, signed up for my [Google account](#) and have been cranking along ever since. My first week I made a whopping \$288 and the second week I doubled that then it kinda snowballed to \$300+ a day! I'm gonna grow this puppy as big as I can. Here's a screen shot of my Google stats, my wife is in shock.

Thomas says:

Has anyone tried this yet? Looks promising.

I just got my first check for \$2800.00 from Google! How cool is that it took about 2 weeks for me to get the first check.

this is a pretty cool article. I like that fact that it has to do with Google. It makes things so much easier when your dealing with a big company like them!

hmm, this is interesting. I was using one of these systems on it's own and making about \$3K+. This "Two System" type kit should work amazing! Great article!

Jonathan says:

I wonder how well this will work if I only do it a couple hours at night? I still have my day job(which I would love to quit, lol), but right now I only have time for a couple hours a night. Ill reply back and let you guys know!

@ 11:04 am

Neil says:

Hey! Cool story. I just got let go from my job too, which really sucks. Ive been applying to a bunch of places with no luck. I just got both kits, which took less time than applying at a job! this should be cool. Even if I don't make over \$5,000/mo, even a little extra cash helps out a ton and it doesnt seem like back breaking work! Really cool!

@ 11:11 am

Pieter says:

Wow, I went through about 5 years of college to get the job I HAD, and I recently got laid off. Now, Ive been using this "Combo" for the last couple months and I'm making MORE than I was at my old job, and I didn't have to spend 5 years in college to learn this! The entire thing is so easy. I actually got my family on the same plan. Now my parents are making an extra \$3k from home! This is a pretty cool gig!

@ 11:20 am

Rob says:

So let me get this straight, I can work from home, Don't have to apply, and can make over \$5,000 a month and all I have to do is follow some directions that are laid out for me? This almost sounds to good to be true. It's to tempting NOT to try though.

@ 11:22 am

Sean says:

Man, it seems like so many people have lost their jobs recently this is amazing time for a GOOD program to come out!

@ 11:27 am

Martin says:

I'm so glad this isn't the normal "Get Rich Quick" thing. Their a lot of those "Cash Gifting" scams out there which do NOTHING for you. This is a quality system that, if you put in the couple hours a day, you can really earn some great money!

@ 11:34 am

Aubrey says:

Has anyone tried just one recently?

@ 11:39 am

Jenny says:

This is great. My husband's job is pretty secure, but this is a great way for me to add a lil extra something. I only work about 3 hours a day (if you consider sitting on the computer work, lol) and I can pitch in an extra \$3,700 a month! This really helps out!

@ 11:40 am

Mark says:

Hey Aubrey, I tried just one for about 2 months. I was making about \$4,800 for about 5 hours of work a day. When I got the second system, I started working about 5.5 hours a day split up between the two, and now I'm making close to \$7,500 a month. It's a pretty substantial increase. The best part is, I knew NOTHING about computers before starting this. It's a great way to learn a really simple system. I would definitely grab both while their free.

@ 11:50 am

Jordan says:

This is pretty freakin cool. I've tried about a dozen work from home things, these are the only ones that have had such a big return. You really cant got wrong when your working hand in hand with a HUGE company like Google!

@ 12:12 pm

Jose says:

so how many people are doing this now?

@ 12:18 pm

Martha says:

@ 12:23 pm

So I just wanted to tell people. I used both and barely knew how to turn my computer on. It took me about 3 days to start making some good money. they teach you everything you need to know. Once you get the routine down, its so simple its amazing. I really wish I would have started this earlier.

Barb says:

@ 12:27 pm

Thats awesome Martha! I am the way you started out. I really dont know much about computers, its good to hear that its pretty user friendly.

Dustin says:

@ 12:36 pm

I dont know. Im still kind of worried about the entire thing. Ive never worked from home...

Dan says:

@ 12:43 pm

Does anyone know if you have to have any programs or a certain computer to make this work?

Lander says:

@ 12:45 pm

Hey Dan, the answer is No. Any computer you have will work. I currently use this system on an old laptop and it works great. You just need the two programs that the author named in the articles.

Heidi says:

@ 12:58 pm

Cool! Ive been searching around for a couple weeks for something worth giving a shot. Glad this article came out!

Brittany says:

@ 1:08 pm

Hey, Im 19 and in college, is this something I can do?

Justine says:

@ 1:11 pm

This almost seems to good! But hey, with this economy i'll try anything!
